# All-electric for work, gasoline-powered for play

The new Kia Sportage PHEV makes daily driving a clean, quiet delight with enough all-electric range to handle an average weekday commute with ease. And when you're heading off for a weekend of play, the Sportage PHEV's fuel-efficient 1.6L turbocharged gasoline engine takes over to get you there, worry-free.

The available LCD/TFT heads-up display (HUD) projects key driving information directly onto the windshield, just below your eyeline. The system adapts to ambient light, so the information you need is clearly visible, even on bright days or dark nights.\*

The available Digital Key lets you use your smartphone as a secure key, allowing you to lock and unlock the doors and start the engine without the need for a keyfob.\*

Choose the perfect playlist, a different route and where to meet your friends. You can do it all and more with Apple CarPlay® and Android Auto™ connectivity.<sup>2,7,8</sup>

The available Surround View Monitor provides a 360-degree view of the area around the vehicle. And it works with the Kia Connect app to send images from around your vehicle when you want to check on it remotely.\*
