

Courier

The Ford you've been waiting for!

FORD COURIER

Courier. The 4-cylinder one tonne workhorse from Ford.

Ford Courier is a long wheelbase one tonner, designed to fill a variety of needs, for a variety of operators. Whether the need is for a farm workhorse, a pick-up for city streets, or for a light, longer distance application. Courier offers a great deal.

The go anywhere pick-up or the versatile cab/chassis:

Courier is available in these two basic forms. Firstly, a great little chassis/cab unit, ready to take the body for your particular application . . . flat top or drop side tray. You'll find that Courier chassis/cab is well suited and well designed, for jobs involving payloads of up to one tonne.

Designed for the use of farmers, tradesmen and other commercial operators. Courier pick-up offers economy and long wheelbase versatility.

Chassis/cab or pick-up, Courier takes the kind of job it's built for in its stride.

Courier. Built to take it with comfort.

Courier is built tough, with a durable coil/spring, double wishbone independent front suspension and a semi-floating rear axle suspended on semi-elliptical seven (7) leaf springs. Courier has been developed to make its ride and handling characteristics approach those of a light car. This is done with light, direct steering,

long progressive rate rear springs, front and rear. Telescopic double acting hydraulic shock absorbers and front stabilizer bar.

Inside compare Courier for head room, leg room and elbow room. We believe you'll find that most vehicles in its class don't come close. In fact, we confidently offer an interior which is 'up front' with a careful blend of function, appearance and comfort.

- Courier XLT pick-up.

Courier. The rugged, economical one tonner with over 400 Ford Dealers behind it.

Power and performance:

Courier pulling power is delivered by a 4-cylinder overhead cam 1.8 litre engine. The high efficiency, light-weight cylinder head is cast aluminium alloy with multispherical combustion chambers.

The fuel/air mixture is metered by a single down draft, 2 barrel, 2 stage carburettor and the engine produces 58.8 kw (78.8 hp) at 5000 rpm.

Courier power is harnessed by a four speed column shift transmission on standard models and a five speed floor shift manual overdrive transmission on the XLT model.

Both transmissions feature synchromesh on all forward speeds with ratios selected to provide an acceptable blend of load lugging power and cruise economy.

The Braking System:

Designed to match load and power capacity. Courier features servo assisted dual line brakes with dual acting, twin leading shoe drums, front and rear.

Courier. Durability and strength.

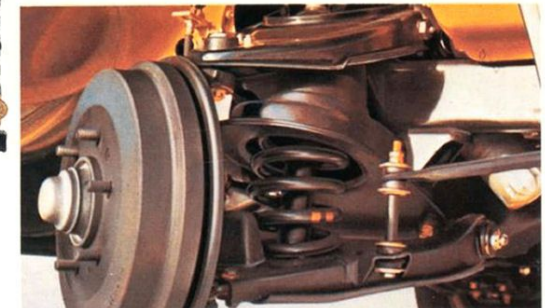

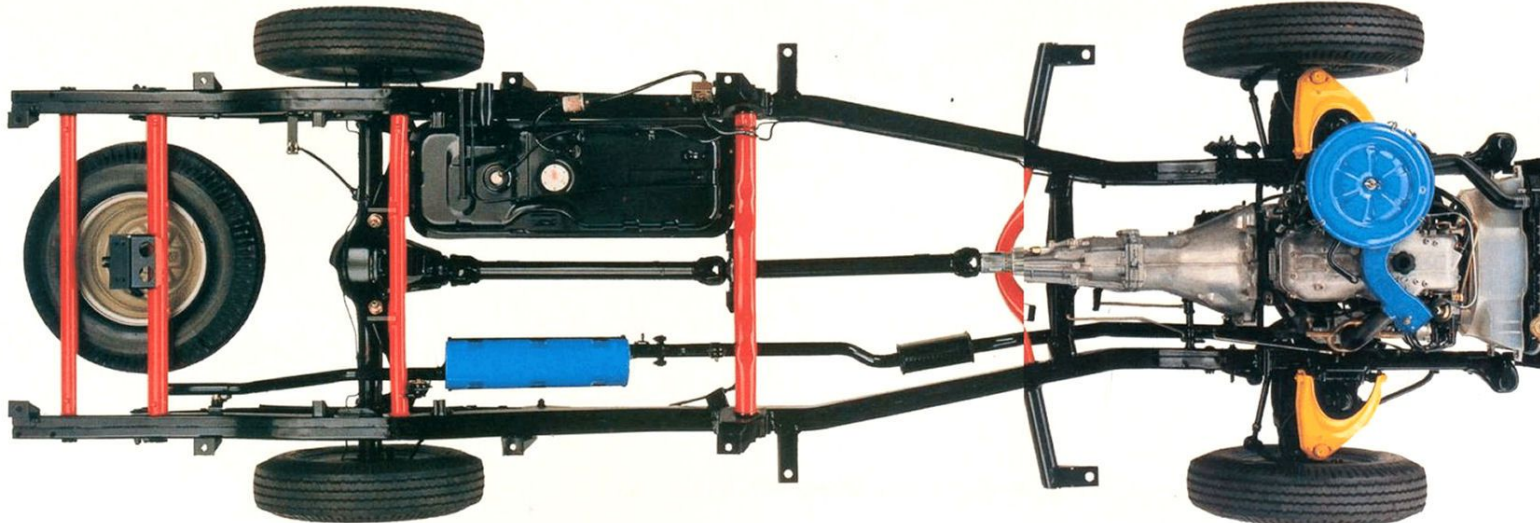

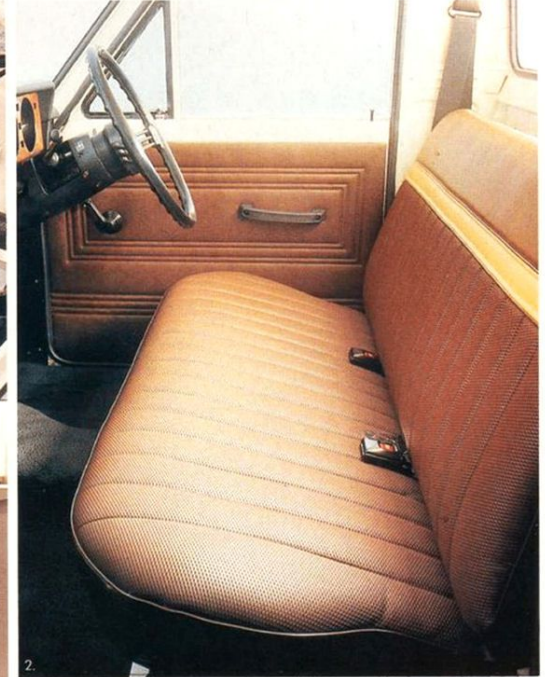

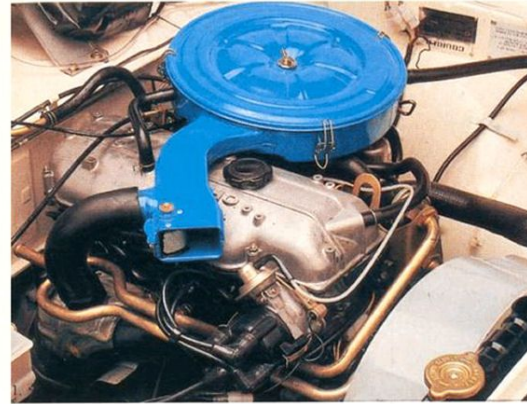

Built to last with a backbone of rugged box section side rails and a total of six cross members — five tubular and one stamped formed. Courier's Torsion Guard Chassis is engineered to more readily 'absorb' the torsion or twist caused by rough road conditions.

This means better protection against undue body wear from structural stress.

Courier's Torsion Guard Chassis — helping to protect your investment.

TGC-Torsion Guard Chassis

1. 4 cylinder 1.8 litre OHC Engine.
2. Standard pick up interior.
3. Double panel tailgate.
4. Single hand operated tailgate.
5. Wind down spare wheel carrier.
6. Double wishbone independent front suspension.
7. Couriers Torsion Guard Chassis.

Courier. A pick-up with a 'luxury' feeling.

Not only does the Courier XLT pick-up offer a .75 tonne payload, it delivers an even higher degree of comfort - 5-on-the-floor overdrive transmission and a 3.63 rear axle ratio for smoother highway cruising, softer suspension, radial tyres, AM push-button radio, well trimmed interior with cut pile carpet, day/night interior rear view mirror and additional courtesy lights. And the bright chrome features on the outside tell you that this is an XLT.

Courier XLT and the specially dealer prepared Courier XLT Freewheelin' machines are great for commercial use... but they're fantastic when it comes to having a good time.

Throw the surf boards, canoes, trail bikes or camping gear in the back and you're ready to go! Ask your Ford Dealer now about Courier XLT and Courier XLT Freewheelin' machines.

Courier. Where comfort and convenience are standard.

The standard Courier specification calls for a wide range of convenience features, including the

single hand-operated tailgate. The easy to read non-reflective instruments. A simple, single steering column stalk, controlling turn signals, dip/main beam, wipers and screen wash and seat and door trims are easy-care vinyl.

Check the full features list on the back page and see for yourself why Courier adds up to comfort and convenience.

Freewheelin' dealer fitted accessories (available at extra cost). * Push bar * Vinyl bodyside stripes * Pick-up box mounted Rallye Bar * Rear step bumper.

FOUR ATTRACTIVE COLOURS:

PLEASE NOTE: The information contained in this Product Guide is provided subject to the following matters:

1. The illustrations, information and specifications presented and referred to in the pages of this Product Guide were correct at the time when this booklet was approved for printing. However, Ford Motor Company of Australia Limited and Ford Sales Company of Australia Limited each reserves the right, subject to the laws of Australia and/or any applicable State or Territory thereof and/or the regulations of any competent authority which may apply from time to time, at its discretion at any time and without prior notice to discontinue or change the models features, specifications, designs and prices of the products referred to, described or illustrated in this booklet and any optional or available equipment therefor without incurring any liability whatsoever to any purchaser or prospective purchaser of any such product or equipment.
2. From time to time, for various reasons, some of the items of available optional or standard equipment referred to, described or illustrated in this booklet may not be available or reasonably available either immediately or at all either in Australia or elsewhere. Accordingly the availability at any particular time of any of the products or items of available or optional equipment referred to, described or illustrated in this booklet will be dependent upon the local and/or overseas supply situation prevailing at that time.
3. Certain items of available or optional equipment can only be used or ordered in combination with other items of optional or available equipment.
4. The items of optional or available equipment referred to, described or illustrated in this booklet are unless otherwise stated available at extra cost.
5. Because of the possibility of changes in models, features, specifications, designs, standard equipment, optional or available equipment of or for the products referred to, described or illustrated in this booklet a prospective purchaser is strongly advised to consult an authorized Ford Dealer for the latest information on models, features, specifications, designs, standard equipment, optional or available equipment, prices and availability before placing an order.
6. Because of the variations which occur in manufactured products all capacities, measurements, dimensions and weights quoted in this booklet in respect of the products and items of standard optional or available equipment referred to, described or illustrated in this booklet should be taken as approximate only.
7. From time to time deliveries of the products optional or available equipment or accessories therefor can be delayed by causes beyond the reasonable control of Ford Motor Company of Australia Limited or Ford Sales Company of Australia Limited or its Dealer. When an order has been placed please keep in touch with your Dealer who will be able to inform you of the progress of your order.
8. You are reminded that certain rights are conferred upon purchasers of goods by the laws of Australia and the States and Territories thereof which cannot be excluded from or modified by any contract for the sale and purchase of the goods.
