MATCH THEM. (IF YOU CAN!)

THE 5/50 PLYMOUTHS.

At Chrysler we have one and only one ambition: To be the best! What else is there?

That's why we helped convert a smokestack industry into a high tech industry with robotics, lasers and highly advanced computers. And that's why, today, we are building high mileage, front-wheel drive products with outstanding quality. As a result, we have led the American automobile industry with unprecedented warranty coverage. We have proved that "Made in America" means something again.

Chrysler has made major strides in quality which have resulted in a total commitment to stand behind our products. No manufacturer has the right to ask people to buy its products unless it has the confidence to back them. Chrysler has made a unique promise: To back every Plymouth we build for five years or 50,000

miles on engine, drive train and outer body rust-through. Nobody else has made that promise.

Today every man and woman at Chrysler has a commitment—a commitment to build the best cars and trucks in the world. Quality. Hard work. Commitment. This is the stuff America is made of. And this is the stuff Chrysler is made of.

THE 1985 PLYMOUTHS: A COMMITMENT TO QUALITY.

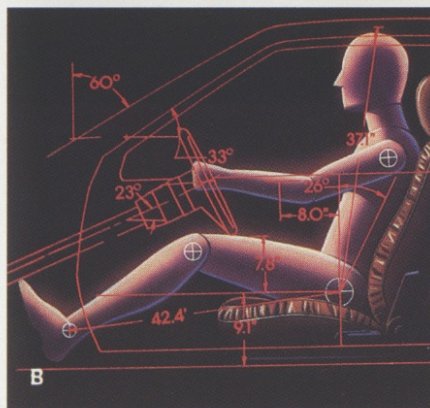

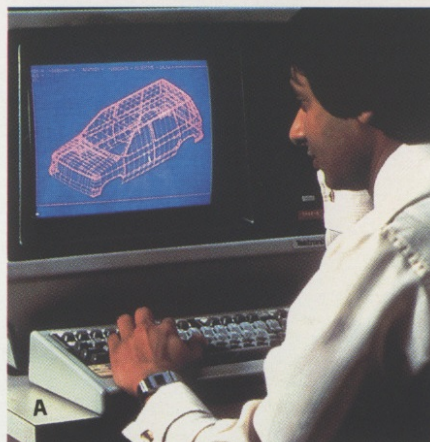

One way to measure the quality of a product is by its manufacturer's warranty. Our strong belief in the world-class quality of the 1985 Plymouths is underscored by Chrysler Corporation's 5/50 Protection Plan*.

Another measure of quality is the engineering and the thinking that go into a car. The 1985 Plymouths were created by some of the industry's finest engineers and designers using the latest Computer-Aided Design (CAD) techniques.

Design and engineering were carefully orchestrated to integrate stylish, aerodynamically efficient vehicle exteriors with comfortable, functional interiors that redefine the interaction between man and machine. We call it "human engineering," and the result is a new kind of automobile that makes driving feel good again.

Computer-Aided Design has also helped bring about advances in automotive electronics for 1985. Electronic engine controls, Electronic Voice Alert, electronically tuned radios, and electronic fuel injection all make use of the latest high tech advances.

The refined mechanical features of the 1985 Plymouths are another result of Computer-Aided Design. Road-tuned suspension systems, load-sensing brake systems, and turbocharged engines are just the big stories.

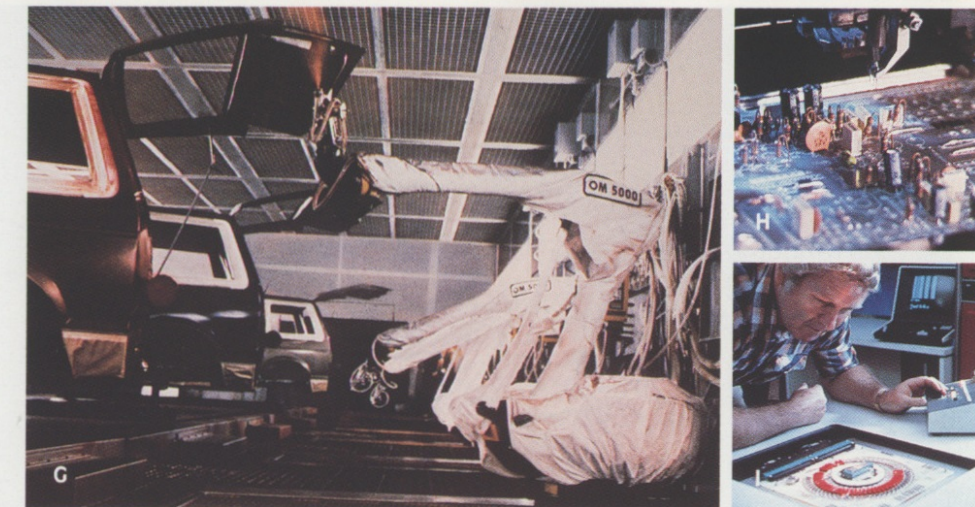

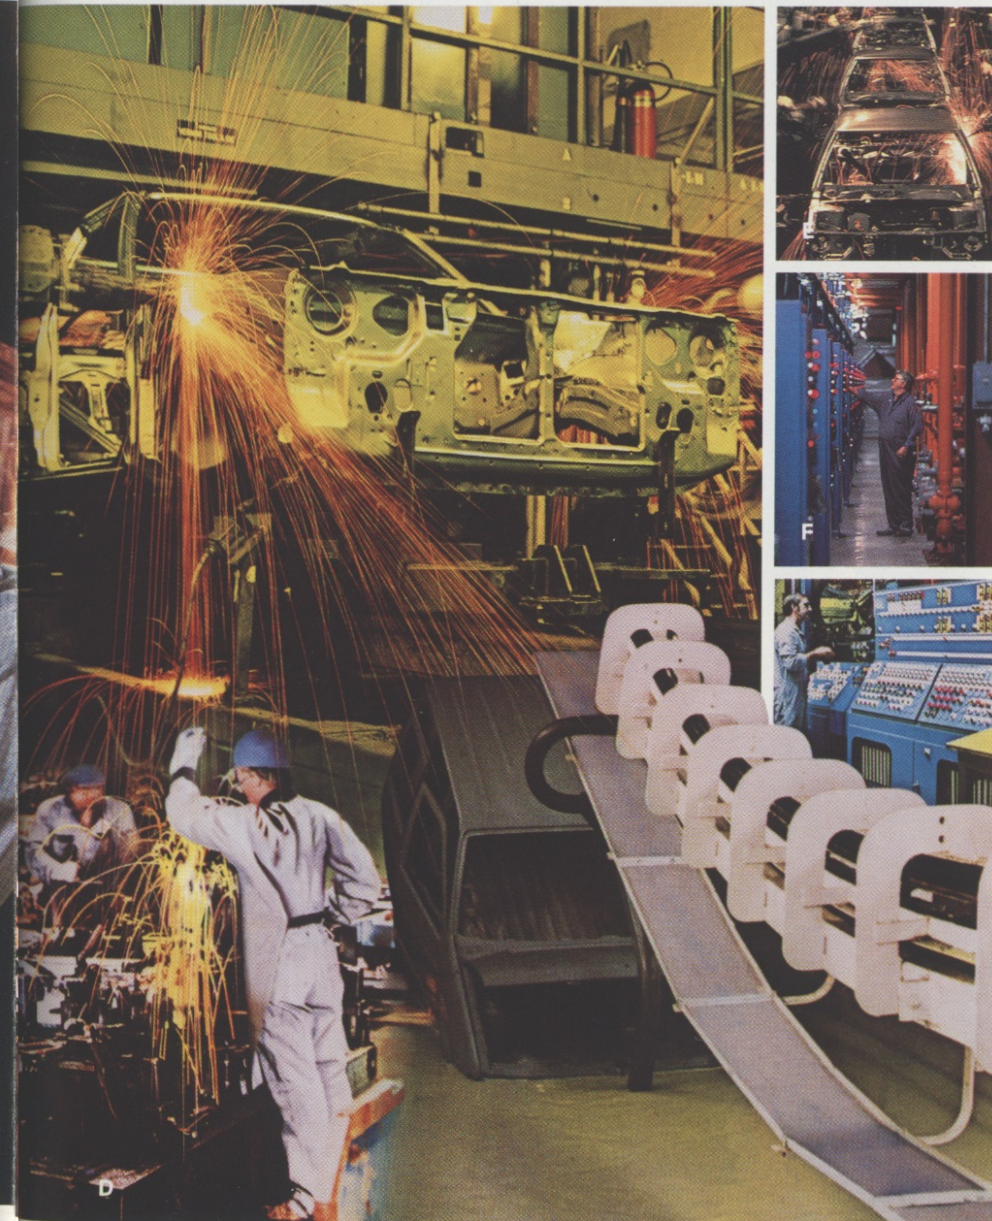

Then there are thousands of small mechanical components—from door handles to fuel pumps—that have been polished, improved and perfected. Working together, they raise the 1985 Plymouths to a new level of mechanical integrity.

Computer-Aided Manufacturing (CAM) has also contributed to the consistently improved quality of the 1985 Plymouths. Every step in the complex manufacturing and

assembly process is now monitored by computers.

These new Plymouths represent thousands of man-hours in testing and quality control efforts, from wind tunnel tests of new aerodynamic exterior styling to computer-modeled road simulation tests on fresh suspension designs.

Finally, we build every Plymouth's body with more rust-resistant galvanized sheet metal than ever before. Once assembled, the bodies of many Plymouth models undergo a seven-step dip-and-spray process, while other Plymouths receive a nine-step preparation process and Uniprime[†] full immersion priming for further corrosion resistance.

In addition, lower body sides get a protective urethane coating that guards against paint chipping, then a finish coat of high gloss acrylic paint. All vehicles are also sprayed with a final application of clear Crystal Coat

paint finish that protects and enhances appearance. Chrysler Corporation is the only major American car company offering 100 percent clear coat finish standard on every 1985 passenger car it builds.

It's because of these many built-in anticorrosion measures that outer panel rust-through protection is part of Chrysler Corporation's Five-Year/50,000-Mile Protection Plan*. The 1985 Plymouths are some of the best built cars on the American road today, and we challenge anyone to give you better value. Match them. (If you can!)

*Upon expiration of the normal 12-month/12,000-mile new vehicle limited warranty, limited warranty protection is extended on power train components, including engine, transmission/transaxle and axle—plus outer panel rust-through protection—for five years/50,000 miles, whichever comes first. A deductible may apply. Limited warranty excludes fleet and lease vehicles. See your dealer for details.

The Magic Wagon Casts Its Spell.

America has discovered Plymouth Voyager, the Magic Wagon. Last year the revolutionary front-wheel drive Voyager debuted to critical acclaim and overwhelming consumer demand. Now get ready for more magic than ever before—the new 1985 Plymouth Voyager LE.

Americans were ready for up to seven-passenger seating capacity with up to 125 cubic feet of cargo capacity. For 1985, the Magic Wagon has been further refined, with an even higher level of standard features to give American families great value and the most versatile transportation available anywhere.

You can distinguish America's finest, the 1985 Plymouth Voyager LE, by its standard classic wood-grain appliques* and surround moldings. The LE is the ultimate Voyager, with the long-range comfort of high-back reclining front bucket seats and inboard folding armrests.

Special body sound insulation quiets the road like magic while the luxury two-spoke steering wheel and easily adjusted dual remote control outside mirrors make driving a pleasure. Extra luxury touches include soft cloth-covered interior trim panels, front door pull straps, and courtesy lamps.

With its trim garagable size, carlike ease of handling and remarkable aerodynamic styling, you'll find the 1985 Plymouth Voyager turning heads all across the nation.

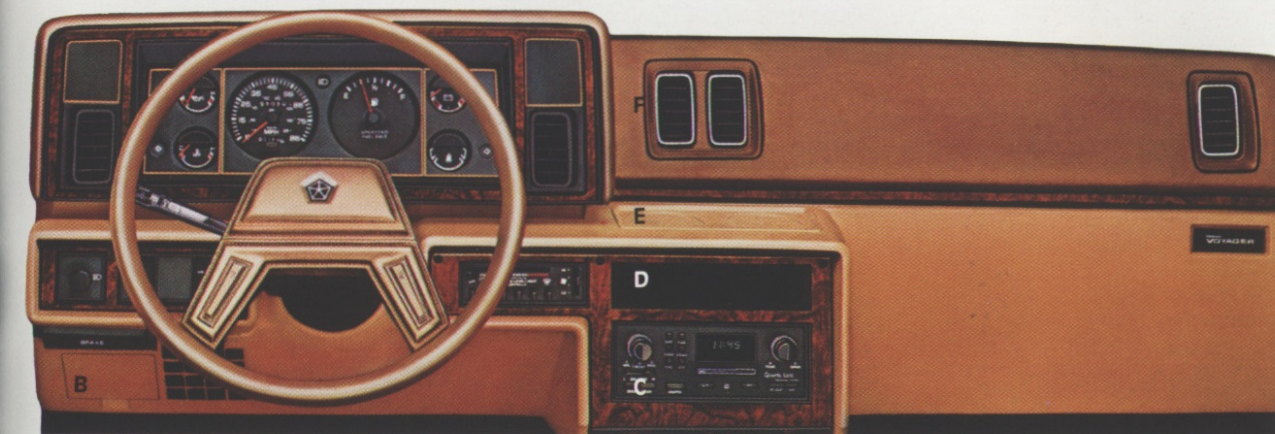

*Woodgrain appliques may be deleted.

A. Voyager LE with optional 14-inch wire wheel covers and whitewall tires, shown in Gold Dust Metallic Crystal Coat.

B. Voyager SE with optional 14-inch styled road wheels, shown in Garnet Red Pearl Coat/Black two-tone.

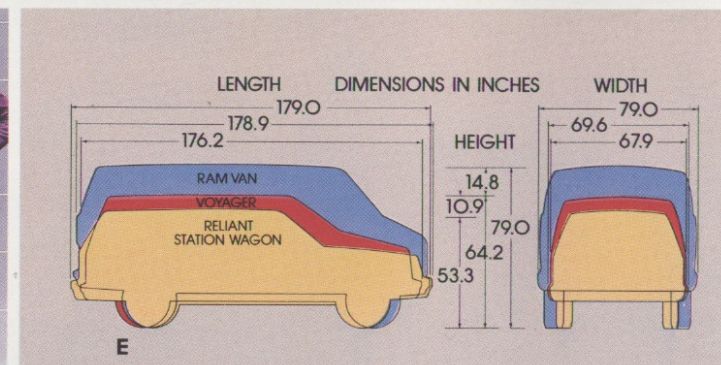

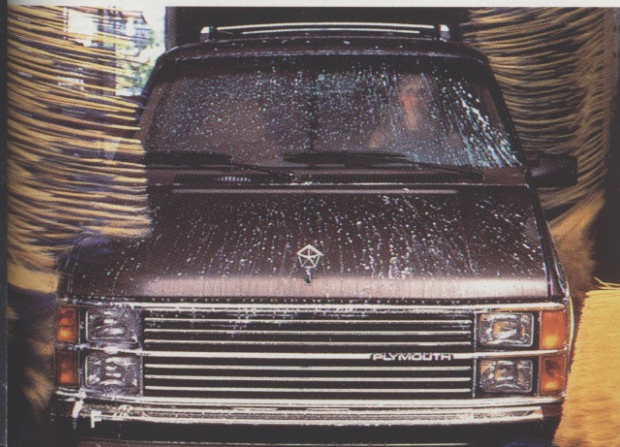

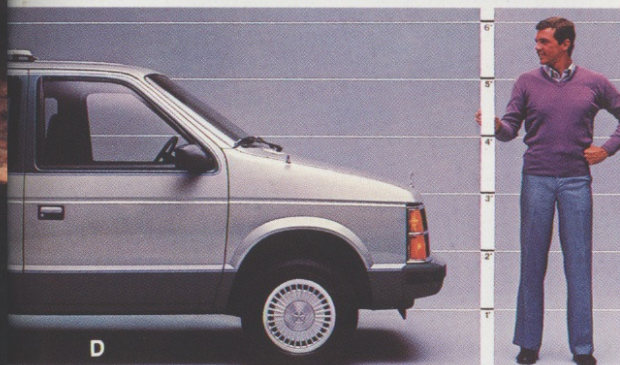

C. Voyager LE, shown in White Crystal Coat with woodgrain.

D. Voyager SE, shown in Garnet Red Pearl Coat/Black two-tone.

A Little Traveling Music, Please.

Out on the road, on vacation. That's where the special thinking that went into Voyager, the Magic Wagon, really shines. Voyager SE (A) with optional 14-inch cast aluminum road wheels, shown in Cream Crystal Coat/Gold Dust Crystal Coat two-tone, features luxury interior appointments such as individual front folding inboard armrests, soft cloth interior trim panels, and rear side vent windows that flip open for excellent flow-through ventilation. (B) Everything comes naturally behind the wheel of a Voyager SE, including an unobstructed view of the easy-to-read gauges. (C) You'll find the remote hood release, fuel filler door release, and available power liftgate release switch within easy reach. The standard electronically tuned AM radio includes a digital display clock. Available Ultimate Sound radio is shown above. (D) Above the radio is a handy "cubby box" storage bin for small items. (E) Above that, a convenient tray with cup depressions. (F) Voyager SE's excellent bi-level ventilation system provides outside air through four levels: windshield defroster, side window demisters, floor outlets and instrument panel outlets; while standard tinted glass reduces the sun's glare. (G) Finally, the standard locking storage drawer beneath the front passenger seat has a removable divider and gives you the extra capacity you never had in a conventional glove box. Now you have space for sweaters, even jackets. (H) Additional storage for rear seat passengers includes a combination armrest/storage bin and dual cup holders mounted on the left rear wheel-housing. A right-side storage bin and padded hinged armrest/bin lids come with the optional Seven-Passenger Seating Package. (I) A standard rear windshield wiper/washer maintains a clear rear view for you. That's Voyager SE; a bit of magic from Chrysler Corporation, an American innovation in driving.

An Entirely New Dimension In Family Transportation.

Wherever your lifestyle takes you, the new 1985 Plymouth Voyager makes it more enjoyable. You'll find entry, exit and cargo loading are no problem with the Magic Wagon's low step-up height, made possible by its front-wheel drive design.

Larger than a conventional station wagon yet smaller than a full-sized van, the Voyager Magic Wagon brings you standard seating for five, and an impressive 125 cubic feet of cargo capacity with rear seat removed.

Voyager's precision-fitted sliding side door glides smoothly on permanently lubricated needle bearings for easy entry and exit when parking is tight. Best of all, Voyager's trim exterior fits easily in garage, car wash, or those tight parking spaces.

It's no wonder folks are standing in line to buy the new Plymouth Voyager. When standard equipment includes a 2.2-liter four-cylinder engine, front-wheel drive, five-speed manual transaxle, power rack-and-pinion steering, power brakes, tinted glass, electronically tuned AM radio with integral digital clock, fuel economy shift indicator light (with manual transaxle), and a liftgate wiper/washer, you know you're on to something.

Peace of mind is also standard on Plymouth Voyager, with Chrysler Corporation's Five-Year/50,000-Mile Protection Plan* on every Magic Wagon.

PLYMOUTH VOYAGER—FEATURES

All The Comforts Of A Voyager.

The 1985 Plymouth Voyager interior is filled with innovative human engineering features that make driving a pure pleasure. When creating Plymouth Voyager's interior, Chrysler engineers and designers used the latest Computer-Aided Design (CAD) technology. In doing so, they've created one of the most comfortable, practical vehicles on the road.

Voyager's interior is much larger than you'd expect from a vehicle its size. Thanks to its transverse-mounted front-wheel drive engine/transaxle design, the interior floor is virtually flat. This low step-up height makes vehicle entry, exit and cargo loading easy and convenient.

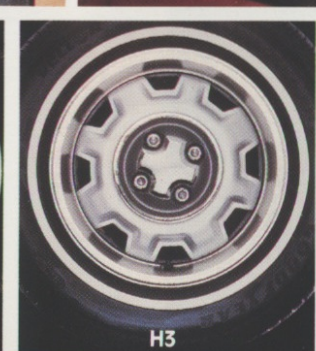

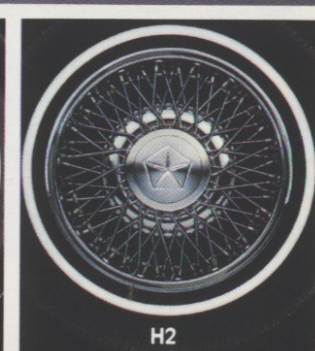

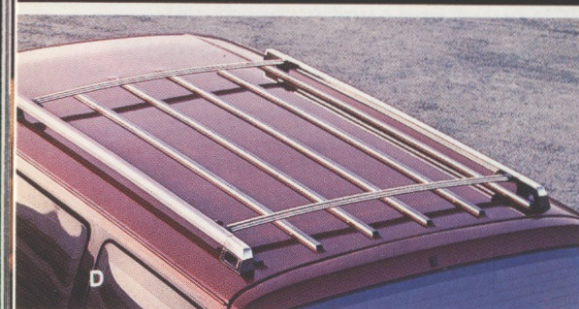

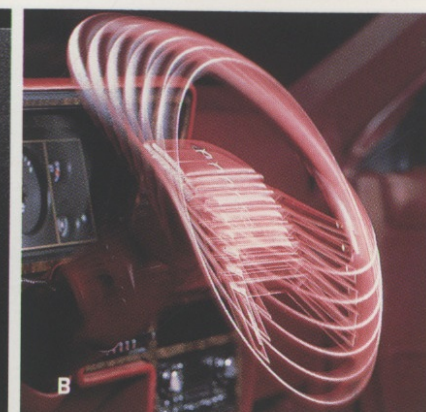

(A) New this year is a convenient rear seat Converta-Bed option. With the pull of a lever the rear bench seat easily converts into a comfortable bed. (B) All Voyager rear bench seats feature quick-release floor attachment mechanisms, allowing fast, easy seat removal for total seating flexibility. (C) Liftgate-mounted dual floodlamps, available as part of the optional Light Package, brighten the rear cargo loading area and interior. Also, notice the tailgate opens high, with over six feet of walk-under clearance, allowing plenty of head room. (D) In the handy new cloth-covered overhead console you'll find sunglass storage, garage door opener compartment, and map/reading lights.

(E) The rear side vent windows and sliding side door with vented glass both flip open for excellent flow-through ventilation. (F) An optional illuminated vanity mirror on the passenger side visor makes personal grooming a pleasure. (Available as part of the Popular and Luxury Equipment Discount Packages only.)

Voyager's new optional under-dash locking storage console is loaded with handy features to make you feel at home on the highway. This handy console has a large lower storage bin and separate illuminated cassette storage. Inside the upper console door (G) you will find a writing board with mini-calculator storage pocket and map light, cup and coin holders, ashtray and lighter. The large locking lower compartment (H) has cassette storage. (I) Front reclining high-back bucket seats with integral headrests are standard on Voyager LE, optional in vinyl only on Voyager SE, and not available on base Voyager.

The Extra Magic Of Voyager Options.

Additional options* for the 1985 Plymouth Voyager include

A. Premium AM Stereo†/FM Stereo Radio includes electronic tuning, Seek-and-Scan, cassette player with automatic reverse, Dynamic Noise Reduction (DNR)‡ six-speaker sound, and integral digital clock.

B. Six-Position Tilt Steering Column adjusts for personal driving comfort.

C. For extra security the Tonneau Cover conceals your cargo from prying eyes (available with standard five-passenger seating only).

D. Luggage Roof Rack for added cargo capacity comes complete with adjustable crossrail and multiple tie-downs.

E. Bi-Level Air Conditioning* includes upper and lower ventilation for cool comfort.

F. Electric Liftgate Window Defroster keeps rear glass clear.

G. Power Windows and Door Locks add convenience and security to your Voyager.

Wheel Covers and Treatments come in a wide variety to match your individual taste: sport wheel covers (H-1); wire wheel covers (H-2); styled road wheels (H-3); cast aluminum road wheels (H-4).

I. Ease of maintenance is a big advantage with Plymouth Voyager. The transverse-mounted engine and neatly routed vacuum and electrical lines mean a roomy, easy-to-service engine compartment. That spells easy access for faster, simpler maintenance.

Reward Yourself With Every Drive.

The 1985 Caravelle SE is Plymouth affordability at its best. Caravelle SE is driving proof that a car with room for six can handle the road with agility, thanks to front-wheel drive and the latest suspension technology.

One look at Caravelle SE's classic exterior styling tells you you're going places. From its traditional grillwork to the tastefully subtle taillamp treatment, this is the family size car you thought you couldn't afford—but you can.

Best of all, Chrysler Corporation backs the new Caravelle SE with its Five-Year/50,000-Mile Protection Plan.* It's an added measure of confidence in Caravelle SE's quality.

The special features tell you immediately. Caravelle SE is a car of distinction. Consider its roomy six-passenger interior and cavernous 17.1-cubic-foot carpeted trunk.

Then add up the many standard features including the Graphic Message Center with warning lights for low fuel, low washer fluid, trunk ajar and door ajar.

Naturally power rack-and-pinion steering, power brakes, and TorqueFlite three-speed automatic transaxle are all standard on Caravelle SE. Deluxe intermittent windshield wipers are also standard.

* This is a limited warranty covering engine, power train components and outer body panel rust-through. See page 5 for details.

There's A Good Feeling Inside.

Be good to yourself and step inside Caravelle SE. You may never have six passengers, but that spacious interior feels so good. Caravelle SE's 52.9-inch front and 53.5-inch rear seat hip room add to your comfort immeasurably.

Sink into the comfort of Caravelle SE's fine cloth-and-vinyl front bench seat with fold-down center armrest. The optional 50/50 front seat rewards you with dual center armrests, seatback recliners, seat-mounted center console, and seatback pockets.

Take a moment to listen during your Caravelle SE demonstration ride. This car's special acoustical body sound insulation quiets the road beautifully. Feel the deep cut pile carpeting beneath your feet, and relax. You're in the new 1985 Plymouth Caravelle SE—and this is how driving was meant to be.

Caravelle SE's standard cloth bench seat with center armrest, shown in Red.

The Unmistakable Feeling of Solid Quality.

Go ahead. Wrap your hands around Plymouth Caravelle SE's luxury two-spoke steering wheel. Then reposition the optional adjustable steering column to your liking.

Notice the unobscured view of the woodtone instrument panel. Lean back and rest your head against the standard padded adjustable head restraint. You're experiencing Plymouth's latest advances in the art of human engineering.

Every inch of Plymouth Caravelle SE has been planned, designed, and tested again and again to reduce driver fatigue and improve your comfort behind the wheel.

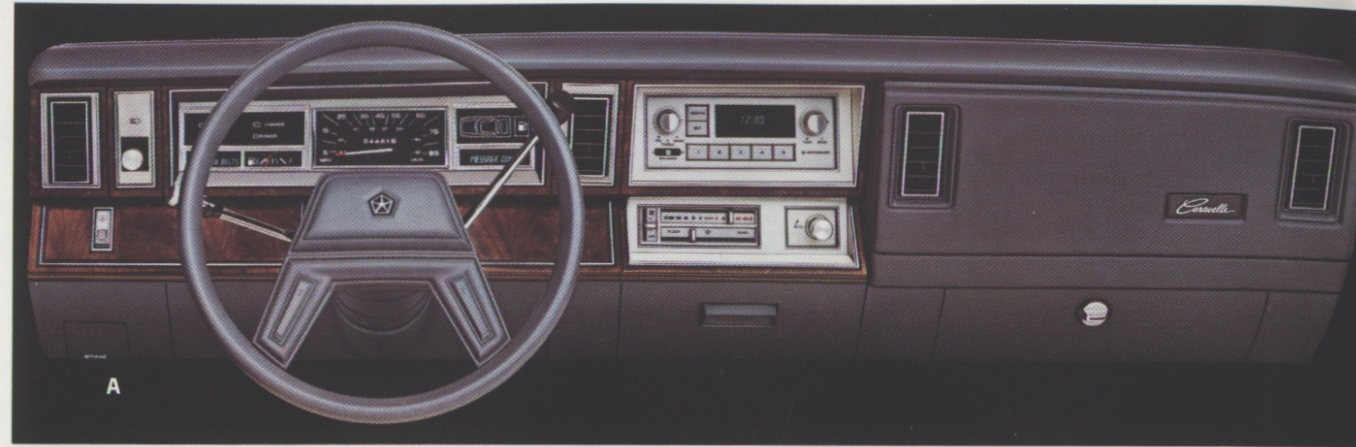

Caravelle SE surrounds you with convenience. The deck lid, inside hood, and remote fuel filler door releases are all within easy reach. As an added security measure, the remote inside deck lid release cannot be used when you flip the hidden override lever. Once the override is on, only the key can open the deck lid.

Inside Caravelle SE a pleasant chime informs you when headlights are left on or ignition keys left in, and reminds you to buckle your seatbelt. An available Electronic Voice Alert system calls out eleven different messages in a soothing voice.

B. Standard cloth bench seat with center armrest, shown in Silver.

C. Caravelle SE with optional 14-inch cast aluminum road wheels and whitewall tires, shown in Radiant Silver Metallic Crystal Coat.

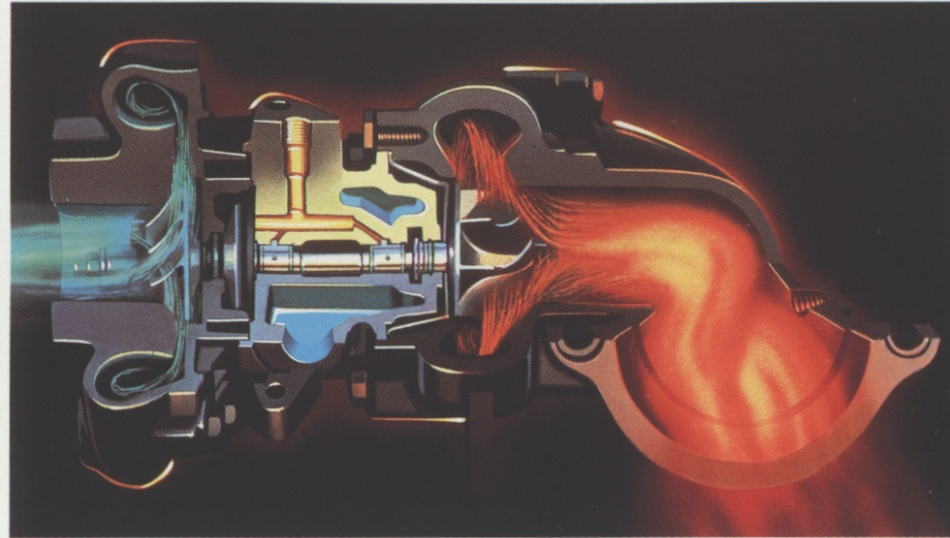

Get The Driving Power of Optional Turbocharging.

Caravelle SE comes to life with a standard 2.2-liter overhead cam four-cylinder engine with computer controlled electronic fuel injection. But your quest for power needn't end there.

Now you can choose the additional driving excitement of the optional turbocharged 2.2-liter engine with computer-controlled multiplepoint electronic fuel injection and a move-right-out power rating of 146 hp at 5,200 rpm, 168 lb-ft of torque at 3,600 rpm. (Turbocharged engine not recommended for trailer towing.)

This turbo version of the 2.2-liter engine has been modified extensively to withstand the forces of turbocharging and a 47 percent increase in power over the standard 2.2-liter engine. And Chrysler Corporation's turbocharger is the only domestic turbo that has a water-cooled bearing housing for long life and trouble-free operation. It's a comfort to know Caravelle SE's optional turbocharger, engine and drive train are covered by Chrysler's excellent Five-Year/50,000-Mile Protection Plan* (Premium unleaded fuel is recommended with the 2.2-liter turbo engine.)

If you enjoy a smooth ride but long for extra passing power and acceleration, the 1985 Plymouth Caravelle SE with turbocharged 2.2-liter engine option is for you.

C'mon Inside and Enjoy.

Human engineering has firmly established the 1985 Plymouth Reliant LE as a roomy, comfortable, practical six-passenger car. Every aspect of the redesigned instrument panel, seats and other interior appointments has been designed and tested by teams of engineers using the latest computer technology. All with just one goal—to make every drive a joy for driver and passengers alike.

Reliant LE boasts a supple cloth-and-vinyl bench seat with adjustable head restraints, a fold-down center armrest, matching cloth door trim panels, and a luxury two-spoke steering wheel as standard equipment.

The 1985 Reliant's new instrument panel is topped with soft, padded vinyl and gives you the gauges you need to monitor every function, including fuel level, engine coolant temperature, and voltage; a trip odometer, and a new fuel economy shift indicator light (with manual transaxle).

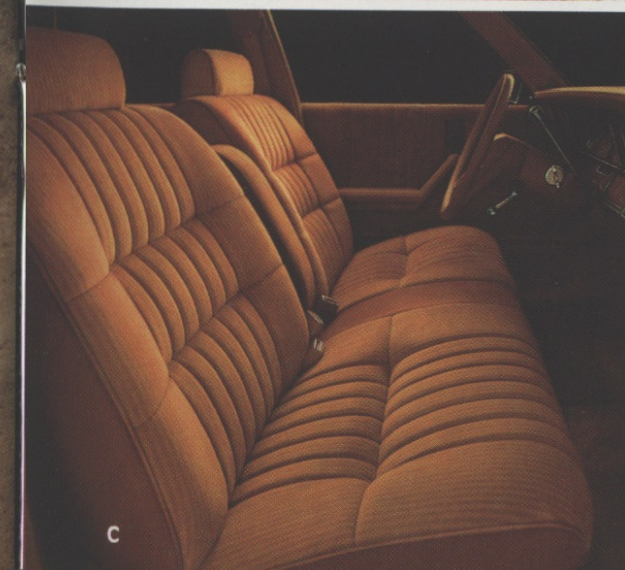

Reliant LE has handy storage pockets mounted in both front door panels. For even more storage, consider the available full-length console with your choice of cup and coin holder or cassette storage, included with optional front bucket seats.

An electronically tuned AM radio with integral digital clock is also standard, along with intermittent windshield wipers and a locking glove box. In short, the new 1985 Reliants are loaded with the kind of creature comforts that deliver years of happy motoring.

Clean New Styling Meets Uncommon American Value.

Plymouth Reliant is the six-passenger car that redefined American automotive value. This year the new, contemporary styling of the 1985 Reliant sets a standard by which other cars will be measured.

If you're comparison shopping, try and match the 1985 Reliant's incredible standard equipment list. Reliant is loaded, with front-wheel drive, rack-and-pinion steering, and dual-path Iso-Strut front suspension to tame the road. But there's much more.

Also standard are power brakes, a 2.2-liter Trans-4 engine with electronic ignition and computer combustion control, and a four-speed overdrive manual transaxle—and we're not finished yet.

Inside Reliant there's a deluxe two-spoke steering wheel, vinyl bench seats with adjustable head restraints, full carpeting, vinyl door trim panels, front door storage pockets, inside hood release, and more.

Reliant's padded instrument panel includes a new shift indicator light (with manual transaxle), parking brake warning light, oil pressure warning light, trip odometer, and gauges for fuel, engine coolant temperature and voltage.

Have we left anything out? Yes, there's more standard equipment (see page 60 for a complete list) and new Optional Equipment Discount Packages (on page 52) for even more savings.

But what makes the 1985 Reliant worth even more is the peace of mind you get with Chrysler Corporation's unique 5/50 Protection Plan.* Match it. (If you can!)

*This is a limited warranty covering engine, power train components and outer body panel rust-through. See page 5 for details.

Make your great new Reliant even better and add extra resale value with the many comfort and convenience options available. You'll also want to check page 52 for money-saving Optional Equipment Discount Packages.

Additional options* for the 1985 Plymouth Reliant include

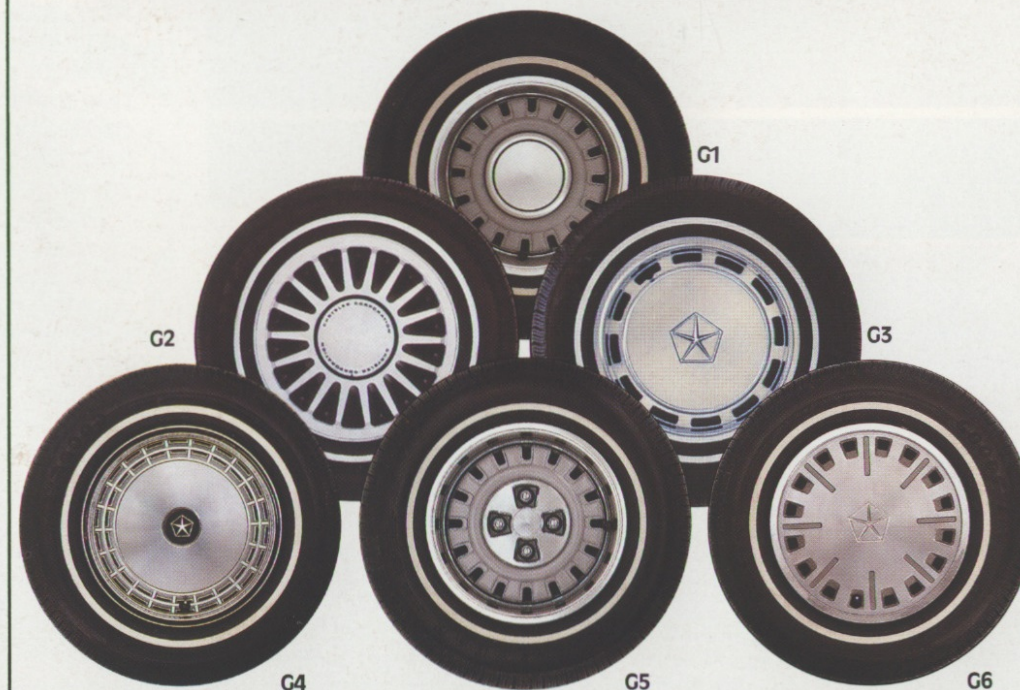

A. Air Conditioning* with bi-level ventilation for an adjustable, consistent flow of cool, clean air for even-temperature comfort.

B. Tilt-Steering Column adjusts to your personal preference for less driver fatigue, greater comfort at the wheel.

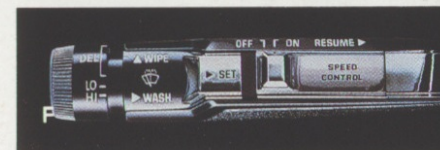

C. Premium AM Stereo*/FM Stereo Radio includes electronic tuning, Seek-and-Scan, cassette player with automatic reverse, Dynamic Noise Reduction (DNR)* six-speaker sound, and integral digital clock.

D. Three-Speed TorqueFlite Automatic Transaxle. (Floor-mounted shifter with console when ordered with bucket seats; column mounted shift lever with standard bench seats.) **Full-length console** includes cup holder and coin holder (or cassette storage if ordered with optional cassette-player-equipped sound system).

E. Black Outside Left and Right Remote Control Exterior Mirrors for excellent driver vision (standard on Reliant LE wagon).

F. Automatic Speed Control makes highway driving easy and can save fuel on long trips. Controls are conveniently mounted on the standard steering column multifunction control lever (deluxe windshield wipers required at extra cost on base Reliant).

G. Wheel Covers and Wheels include your choice of **(G-1)** standard 13-inch wheels with hubcaps; **(G-2)** 14-inch cast aluminum road wheels; **(G-3)** deluxe 14-inch wheel covers, included in 14-inch tire option; **(G-4)** luxury 13-inch wheel covers; **(G-5)** 13-inch styled steel road wheels; and **(G-6)** deluxe 13-inch wheel covers. (For specific wheel availability on each Reliant model, see page 60.)

We at Plymouth are justifiably proud of the quality in the more than one million K Cars on the road today. That's Chrysler Corporation engineered-in quality. The completely restyled 1985 Plymouth Reliant is the result of Computer-Aided Design (CAD) and Computer-Aided Manufacturing (CAM) that are at the leading edge of automotive science.

Front-wheel drive has helped create lighter, more compact, vehicles. That's why the trim new Reliant can carry six passengers in comfort and still have a generous 15 cubic feet of trunk space.

The smooth, clean exterior look of the new Reliant provides more than just beauty. Thanks to many hours of wind tunnel testing, the car's shape slices the wind more efficiently than ever before. The mileage and driveability gains and lower wind noise are proof that form and function have met on new ground, at Plymouth.

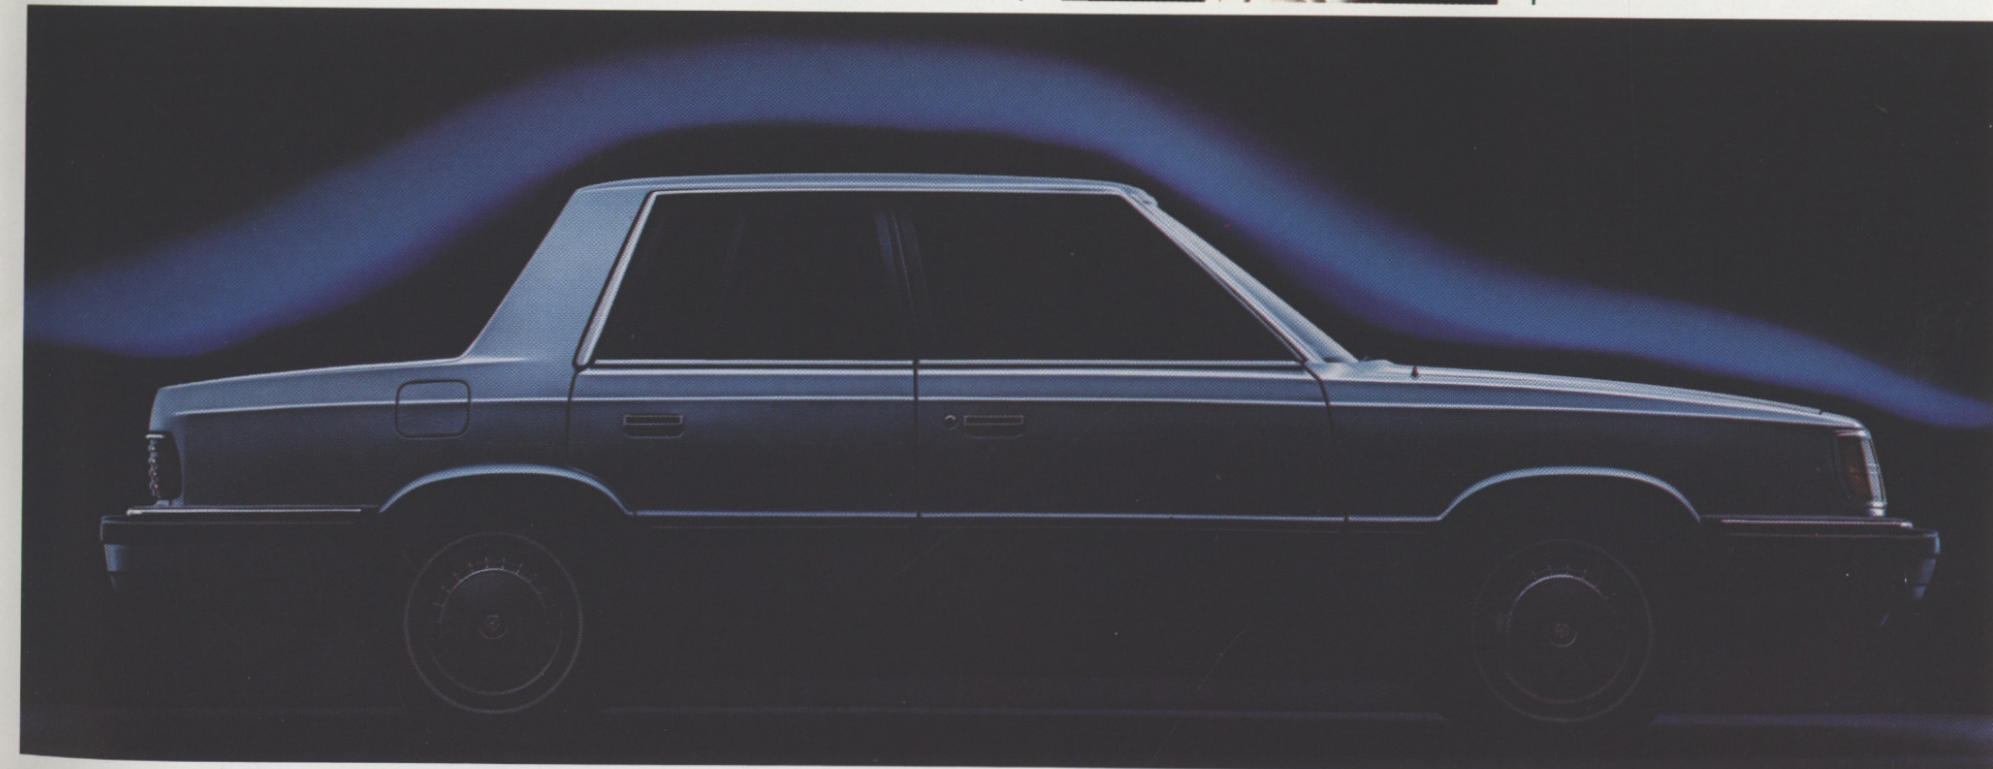

This is the most comprehensively rust-protected Reliant ever, with more corrosion-resistant galvanized steel and a new aperture construction method that uses fewer, larger body parts for fewer welds and crevices where rust can begin.

Reliant's paint preparation

includes a seven-step dip-and-spray process, followed by a coating of chip-resistant urethane plastic to lower body sides. After the acrylic paint is applied, every Reliant receives an application of clear Crystal Coat for protection and extra shine. The care, engineering and technology all add up to Plymouth Reliant for 1985, the value leader in American family transportation.

PLYMOUTH TURISMO DUSTER

Exciting To Drive, Affordable To Buy.

Here is driving excitement that's easily within reach. The spirited 1985 Plymouth Turismo Duster is a sporty, value-filled front-wheel drive car, with crisp rack-and-pinion steering, power brakes, a responsive 1.6-liter engine and four-speed manual transaxle, all standard.

Duster is a special Turismo, with a standard functional rear deck spoiler to complement its sleek aerodynamic shape, distinctive bodyside and liftgate tape stripes, and Duster decal on front fenders and liftgate. Plus you're rolling on great-looking 13-inch Rallye wheels and road-gripping steel-belted radial tires.

Get inside and check out the new contoured cloth-and-vinyl high-back front bucket seats with increased lateral support. They feel as good as they look, with inertia seatback latches and recliners. The convenient fold-down rear seat gives you extra cargo space with Turismo Duster's hatchback versatility.

Of course, every model Turismo is backed by Chrysler's Five-Year/50,000-Mile Protection Plan* for added peace of mind. The 1985 Plymouth Turismo Duster. Get behind the wheel, just for the fun of it, and leave the world behind.

PLYMOUTH TURISMO 2.2

A Serious Driving Machine.

The 1985 Plymouth Turismo 2.2 is an all-out performer made for the aggressive driver who knows the road.

And even with its new standard High-Output 2.2-liter engine, five-speed manual overdrive trans-axle with close-ratio performance gearing, sport suspension, performance exhaust, 14-inch Rallye road wheels, and striking good looks, Turismo 2.2 is a truly affordable sports car. Match it. (If you can!)

Give it a hard look. Turismo 2.2 cheats the wind with advanced aerodynamics that include a new front air dam, fender extensions, and ground effect sill spoiler. This is a serious driving car.

But performance needn't cost you comfort. Turismo 2.2's available new cloth-and-vinyl high-back sport bucket seats hold you firmly with increased lateral support, and the handy storage console, deluxe intermittent windshield wipers, and an electronically tuned AM radio with an integral digital clock are all standard.

The ingredients are all there. Now it's up to you. Grab yourself a 1985 Plymouth Turismo 2.2 and hit the road running.

You'll find a host of engineering advances in every new 1985 Plymouth.

The new Plymouth Caravelle SE's optional turbocharged, electronically fuel injected 2.2-liter engine features improved electronics and sophisticated engine computer controls which increase engine output and improve torque and horsepower ratings.

New high-output alternators on every 1985 Plymouth generate 56 percent more electrical current at idle and 35 percent more current

during highway driving, to deliver maximum performance for electrical accessories and improve battery recharging.

Today's aerodynamics are reshaping the automobile. A Plymouth's shape results from hundreds of hours of Computer-Aided Design (CAD) and wind tunnel testing. The benefits include improved mileage, less wind noise, greater directional stability and resistance to cross winds, and improved traction as the car's shape uses the wind to hold the car to the road.

A car is only as good as its ride. That's why Chrysler Corporation engineers use Computer-Aided Design, computer road simulation, and real-world testing to bring you some of the industry's most effective automotive suspensions.

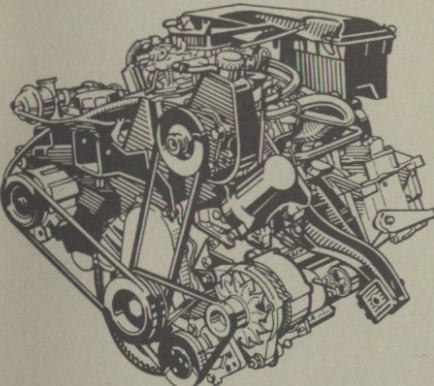

Each 1985 Plymouth suspension is perfectly integrated with its overall vehicle design, from quick-cornering sports suspensions to smooth, luxury car ride.

Plymouth's independent front suspensions combine with a variety of rear suspension designs (gas-filled shocks and struts available on many vehicles) for excellent driveability and a superb ride.

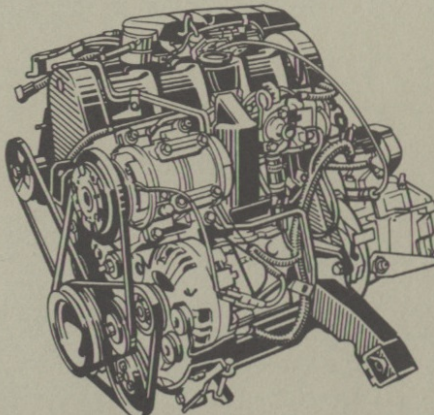

Over the last few years, Chrysler Corporation has invested more than \$1 billion in the most modern manufacturing technology in the world to bring you some of the most perfectly engineered new Plymouths ever built. Match them, if you can.

CONSIDER LEASING FROM THE LEASING PROFESSIONALS

In these days of tight money and high interest rates more consumers are considering leasing as an alternative to buying. Leasing a new Plymouth usually eliminates large down payments and often results in lower monthly payments because you're paying only for that portion of the car life under the leasing agreement.

Leasing could be right for you, and the more you learn about it the more likely you are to consider it seriously. If leasing sounds like a sensible solution to your transportation needs talk it over with us—your leasing professionals.

FIVE-YEAR/50,000 MILE PROTECTION PLAN

Warranty protection is a matter of confidence. And Chrysler Corporation is so sure of the care and precision that go into each Plymouth that they offer the Five-Year/50,000-Mile Protection Plan. It speaks for itself.

Upon expiration of the normal 12-month/12,000-mile new vehicle limited warranty, limited warranty coverage is extended on power train components, including engine, trans-axle, axle and turbocharger—plus outer panel rust-through protection—to five years/50,000 miles, whichever comes first. A deductible may be required. Fleet and lease vehicles excluded. See your dealer for details.

OPTIONAL 5/50 SERVICE CONTRACT COVERAGE

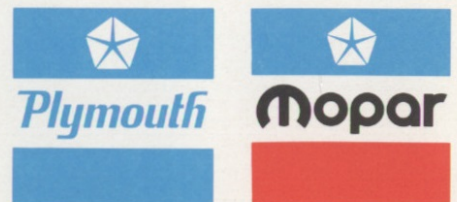

Chrysler Service Contracts provide you with additional peace of mind protection for your new vehicle. Coverage starts on the specified components after your vehicle's basic warranty expires and continues for five years or 50,000 miles (whichever occurs first) from the original warranty start date. A deductible applies.

Allowances for car rental and towing are also included. Ask your dealer for details. Buckle up for safety.

Certain models, packages, and options are subject to specific restrictions, requirements, and late availability. Consult your dealer for current ordering information.

All product illustrations and specifications are based on authorized information. Although descriptions are believed correct at publication approval, accuracy cannot be guaranteed. Chrysler Corporation reserves the right to make changes from time to time, without notice or obligation, in prices, specifications, colors and materials, and to change or discontinue models. See your dealer for the latest information.

MOPAR parts are engineered by Chrysler Corporation for use in your new Plymouth. When replacement is necessary, be sure to specify MOPAR parts. Used by professional mechanics all over the world.
