

ADDING

New Beauty

TO OUTSTANDING

PERFORMANCE

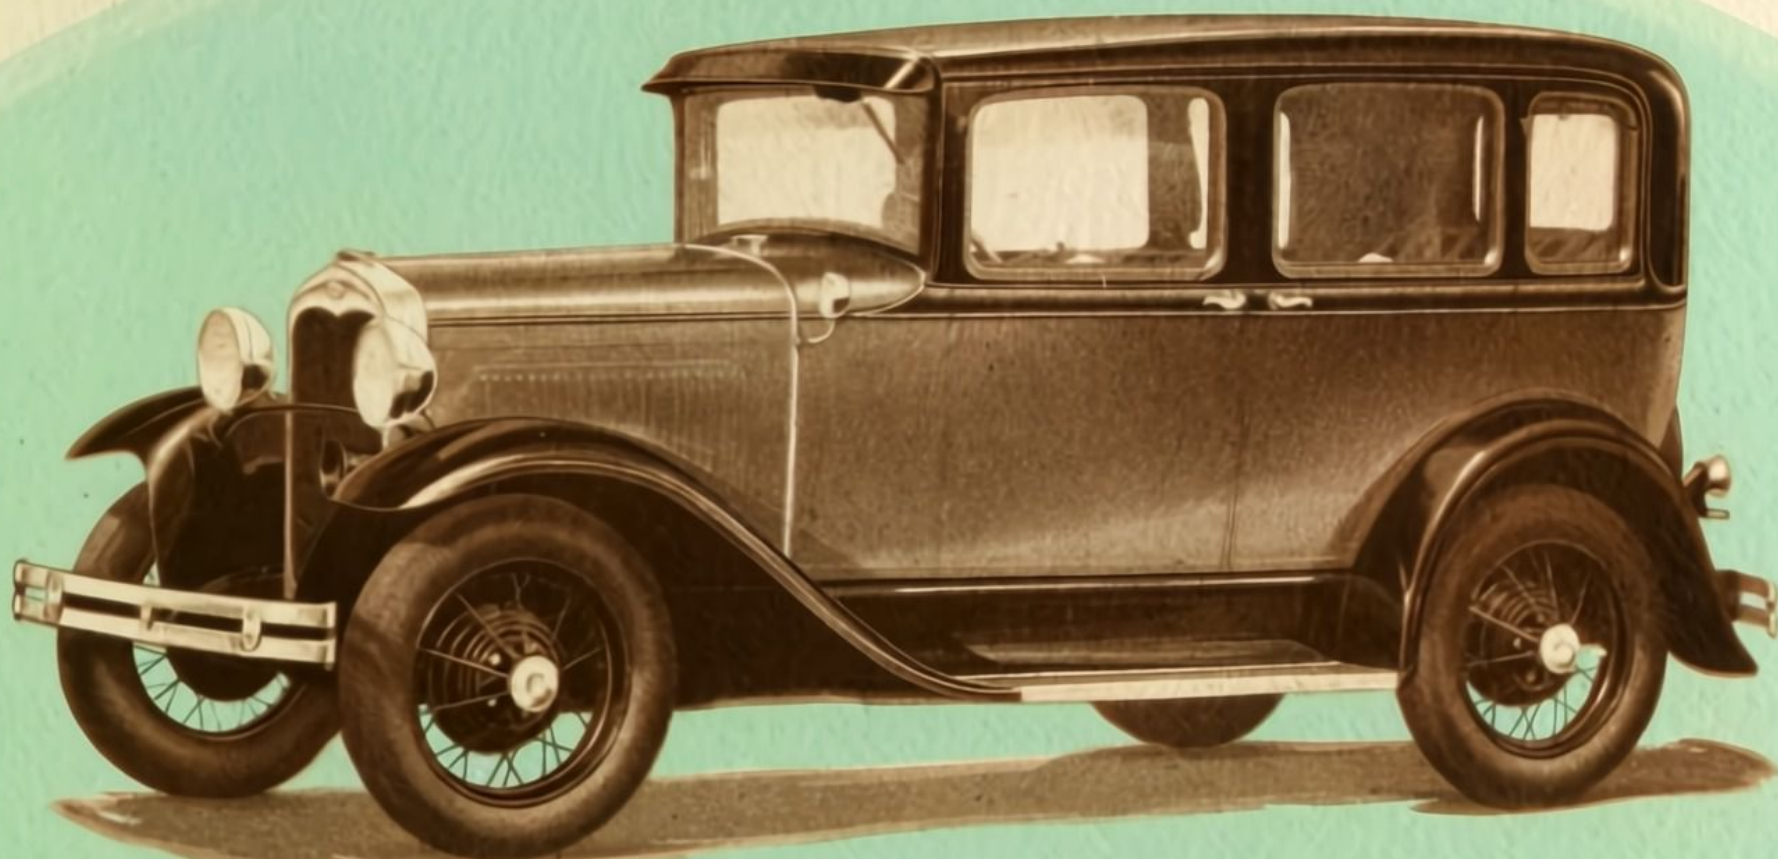

New Beauty

FOR THE NEW FORD

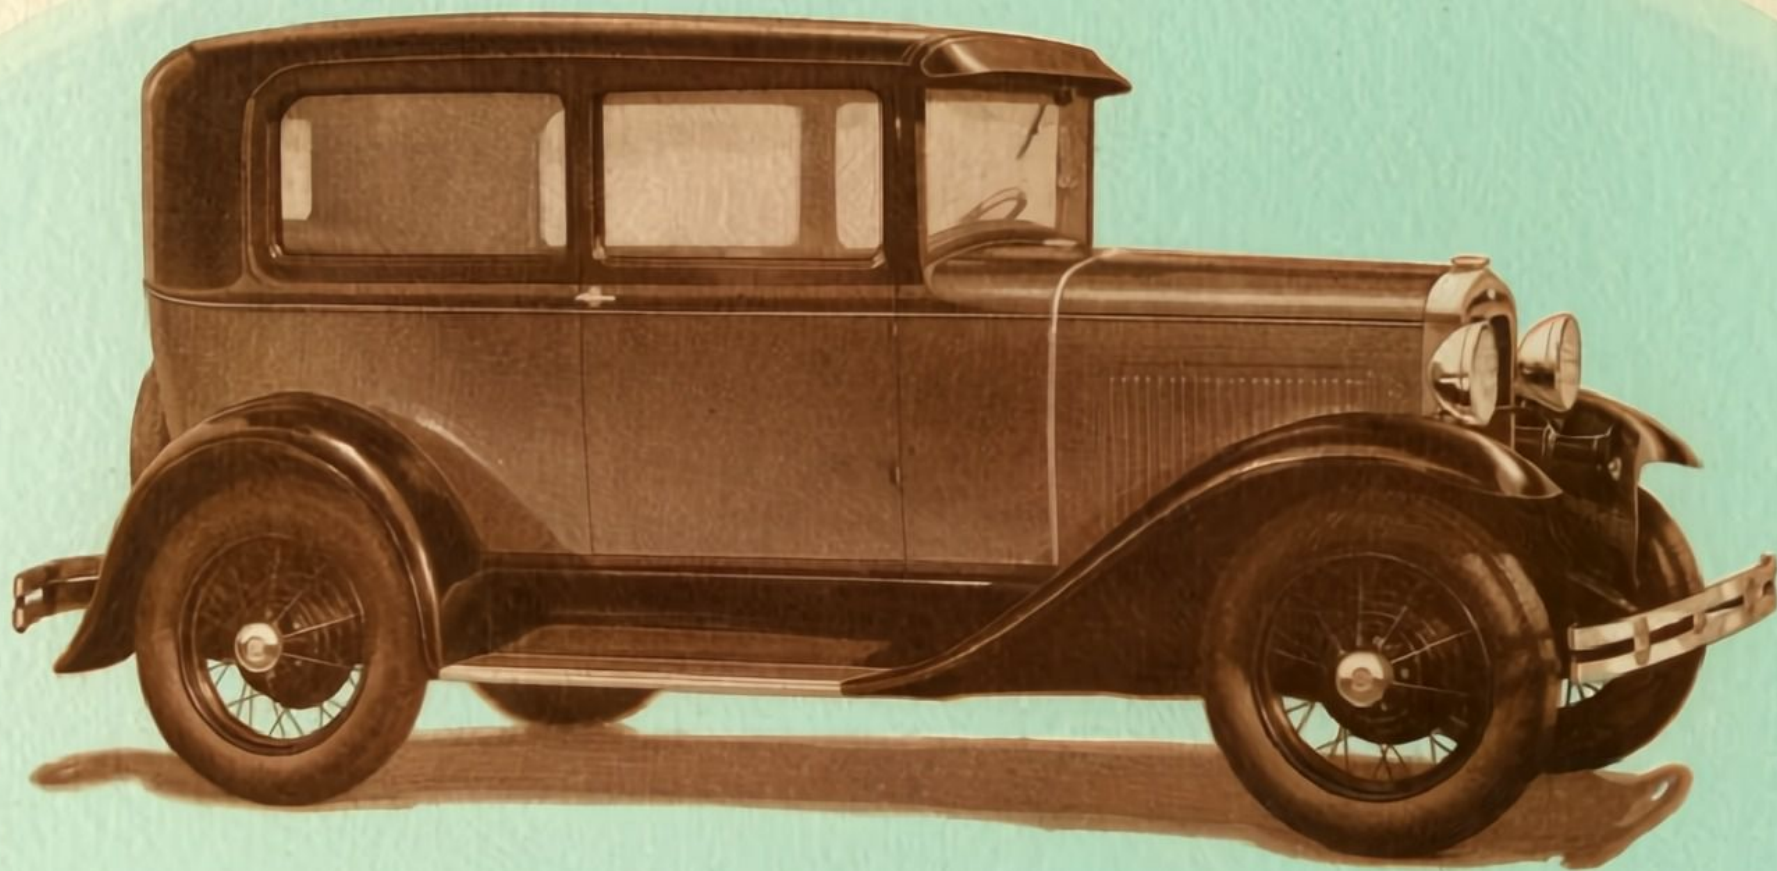

THE MODEL A FORD was a good car when it was first introduced. It has constantly been made a better car. As soon as improvements are found and tested they are passed on to the public. That work goes steadily on. ❀ ❀ Because of this policy, and as a further expression of it, we take pleasure in presenting this new line of Ford bodies. In flowing grace of line and contour, they bring you the complete harmonized beauty heretofore thought possible only in an expensive automobile. ❀ ❀ All

are furnished in a variety of beautiful colors. All bring you the safety, comfort, power, speed, acceleration, ease of control, economy and long-lived reliability that have given the new Ford such a high place in the regard of millions of motorists. All have the radiator shell, hub caps, headlamps, cowl finish strip and other exterior metal parts fashioned of rustless steel of enduring brightness. ❀ ❀ New beauty has indeed been added to outstanding performance.

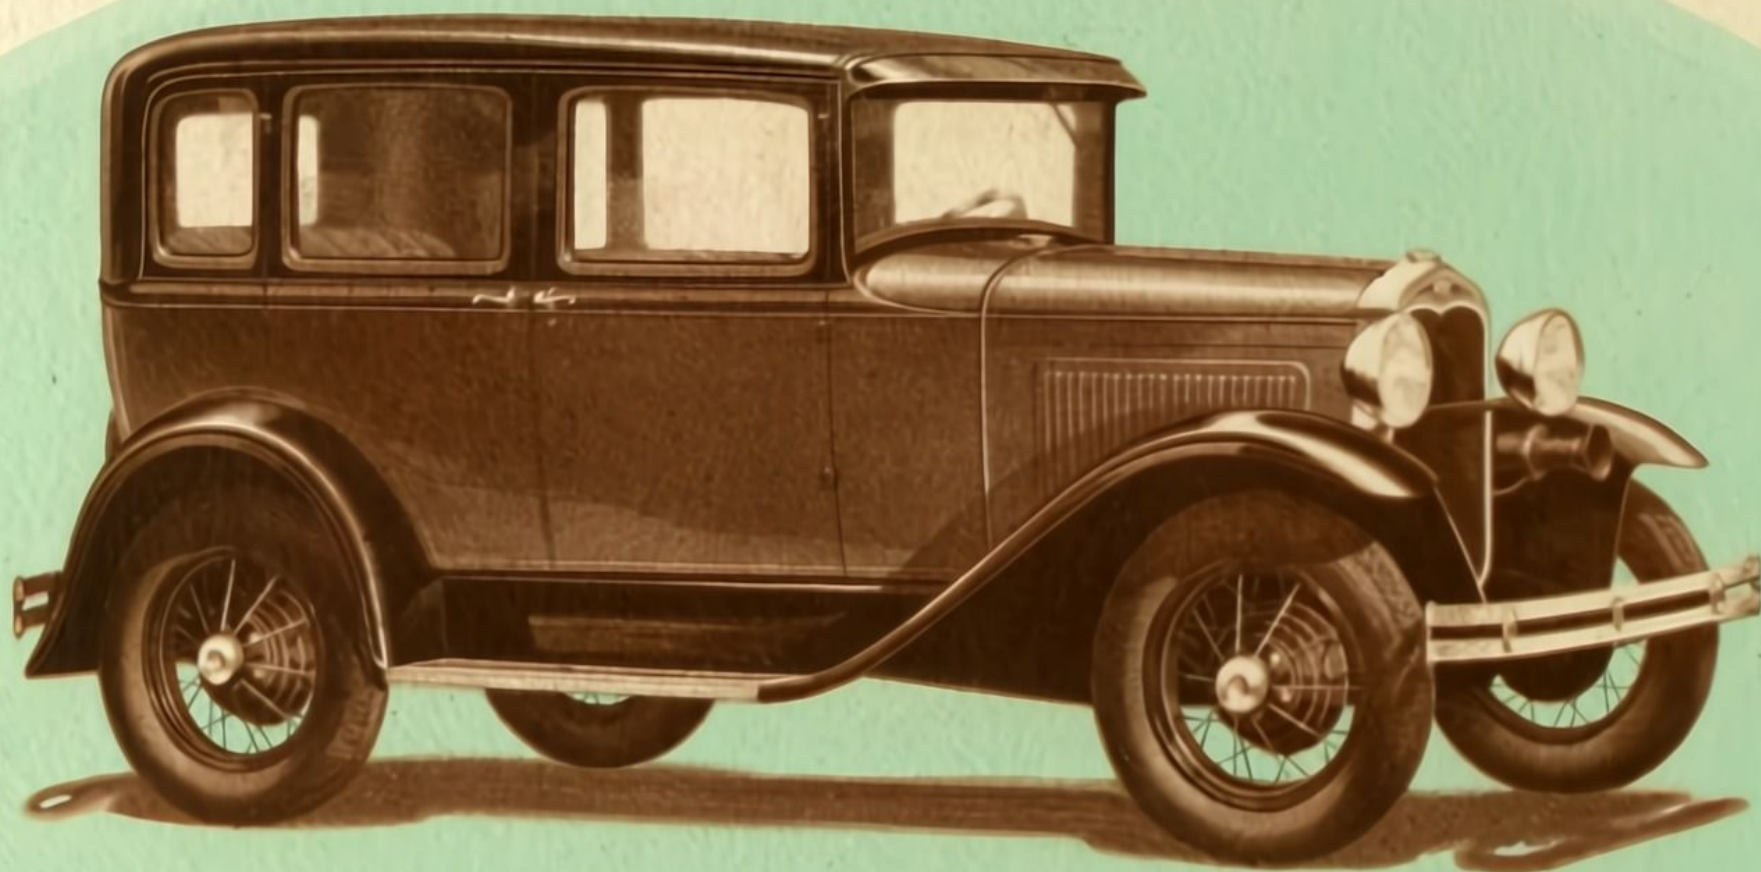

THE NEW TOWN SEDAN

THIS illustration reveals the graceful, flowing lines that give so much charm to all the new Ford bodies. Note particularly the new radiator, hood and cowl, the new fenders, and the long straight lines from front to rear. The driver's seat is adjustable. Rear compartment has silk curtains, disappearing center arm and stationary arm rests at each side. △ △ △ △ △ △ △ △ △ △ △

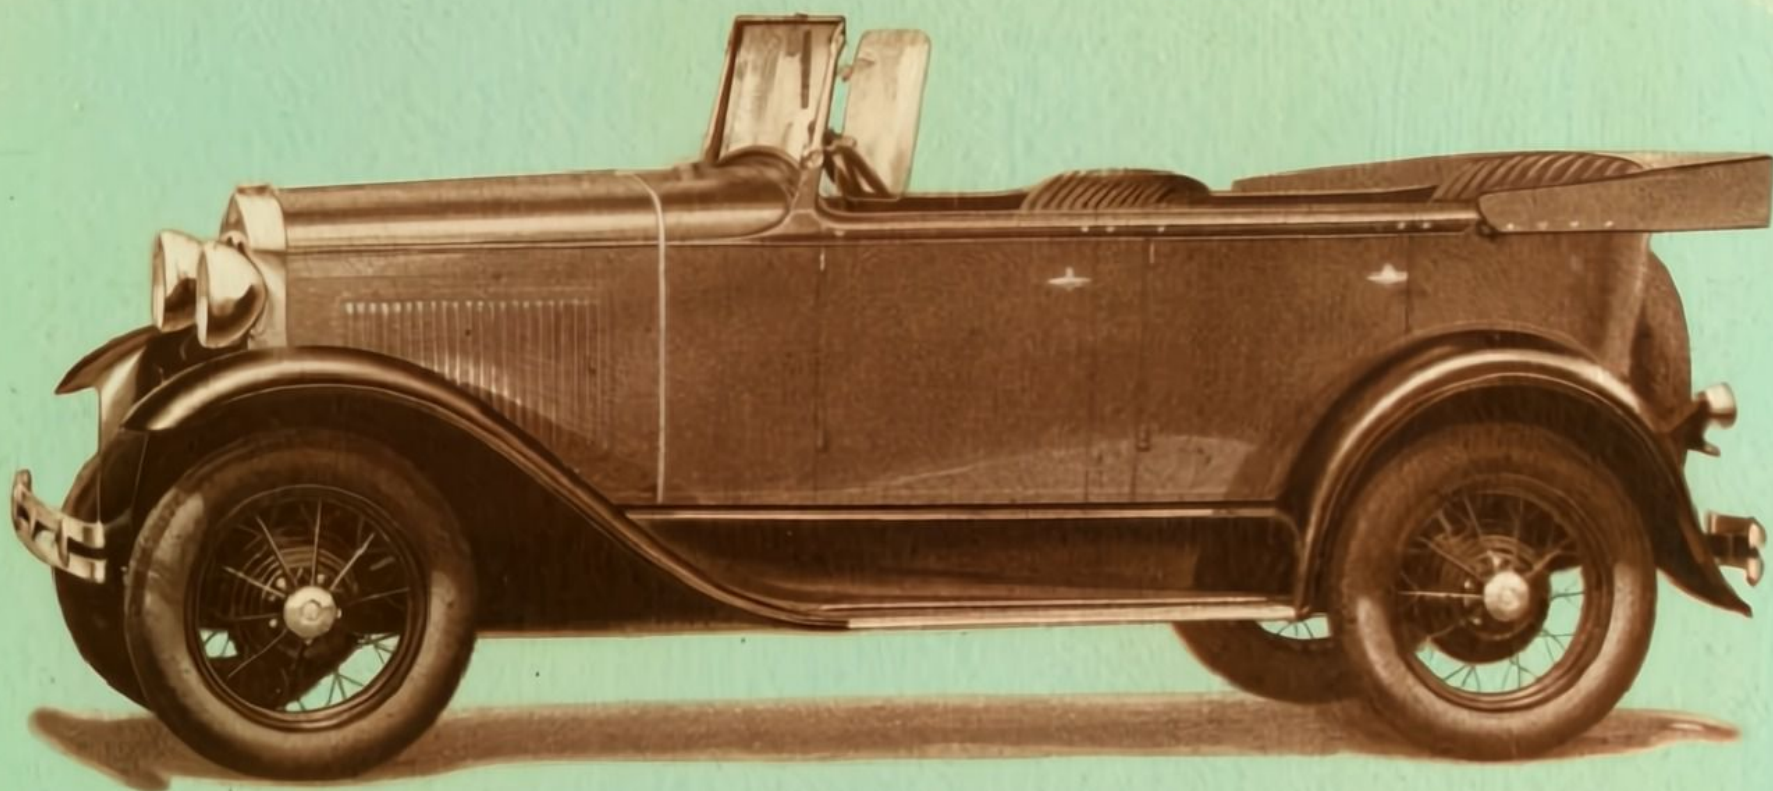

THE NEW TUDOR SEDAN

*A*N UNUSUALLY good example of "Value Far Above the Price." The body is roomier than before, giving more space in rear compartment. Entrance to the car is also easier because of the additional space provided at the folding front seat. The new fleet lines of the car are emphasized by the straight moulding line from radiator to rear. ▲

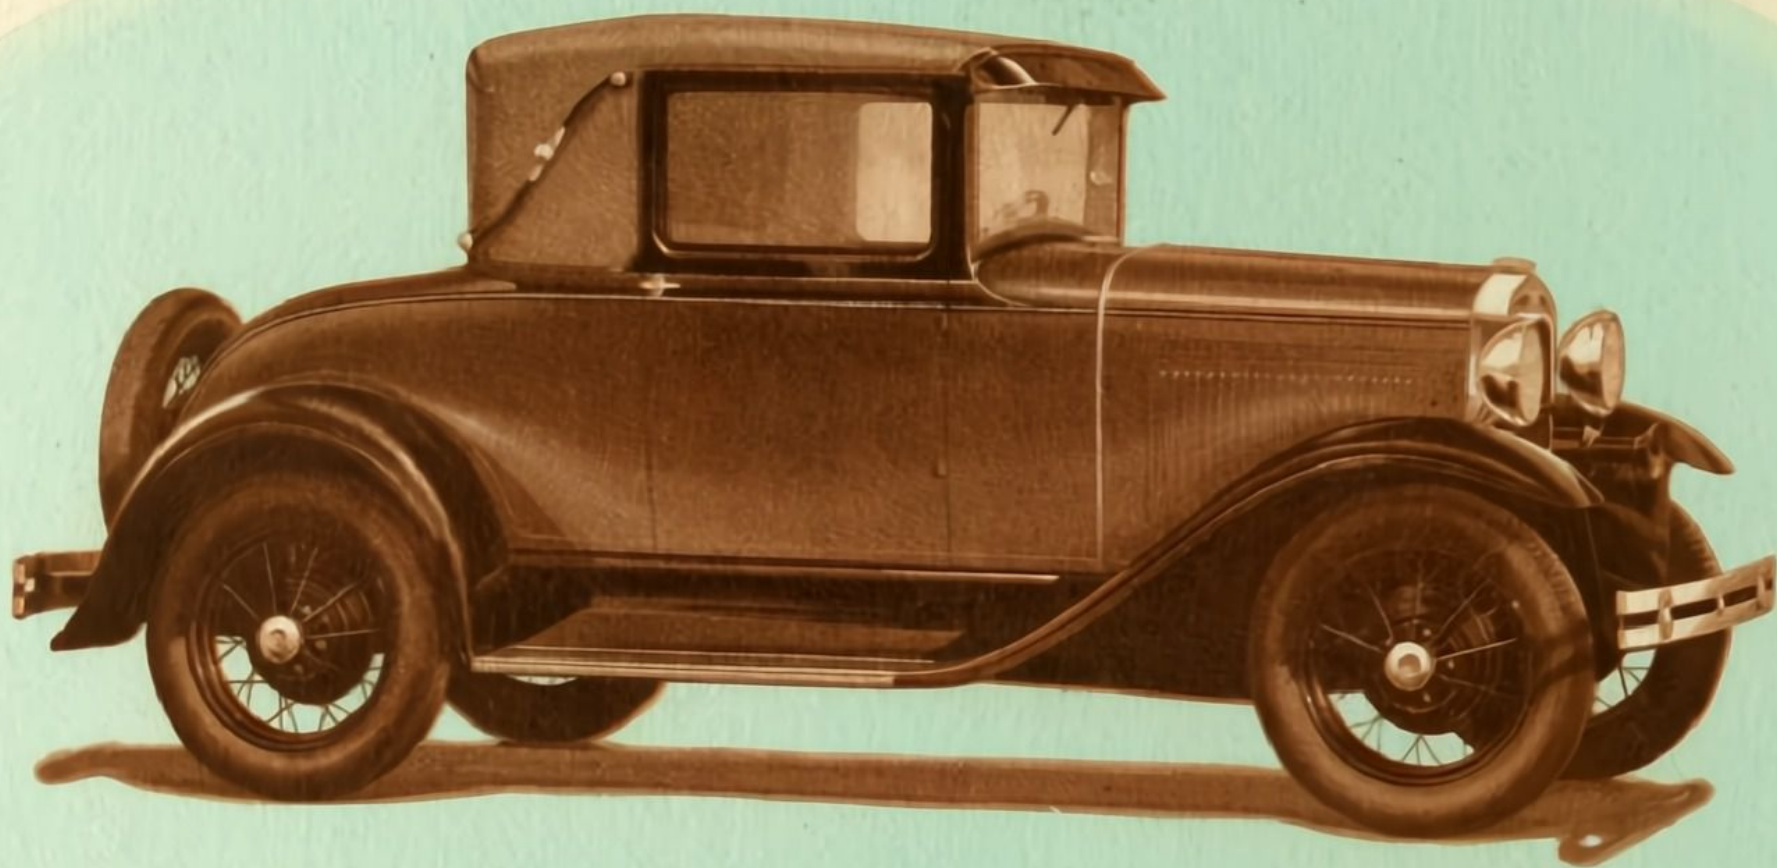

THE NEW THREE-WINDOW FORDOR SEDAN

*A*NOTHER splendid family car because of its beauty of line and color, and its comfort, safety, economy, reliability and alert, satisfying performance. Generous room is provided, both front and rear. Driver's seat is adjustable. Appointments reflect the substantial quality that has been built into the car. The deeply piped seat upholstery is rich and luxurious. ▲ ▲ ▲ ▲ ▲ ▲ ▲ ▲ ▲

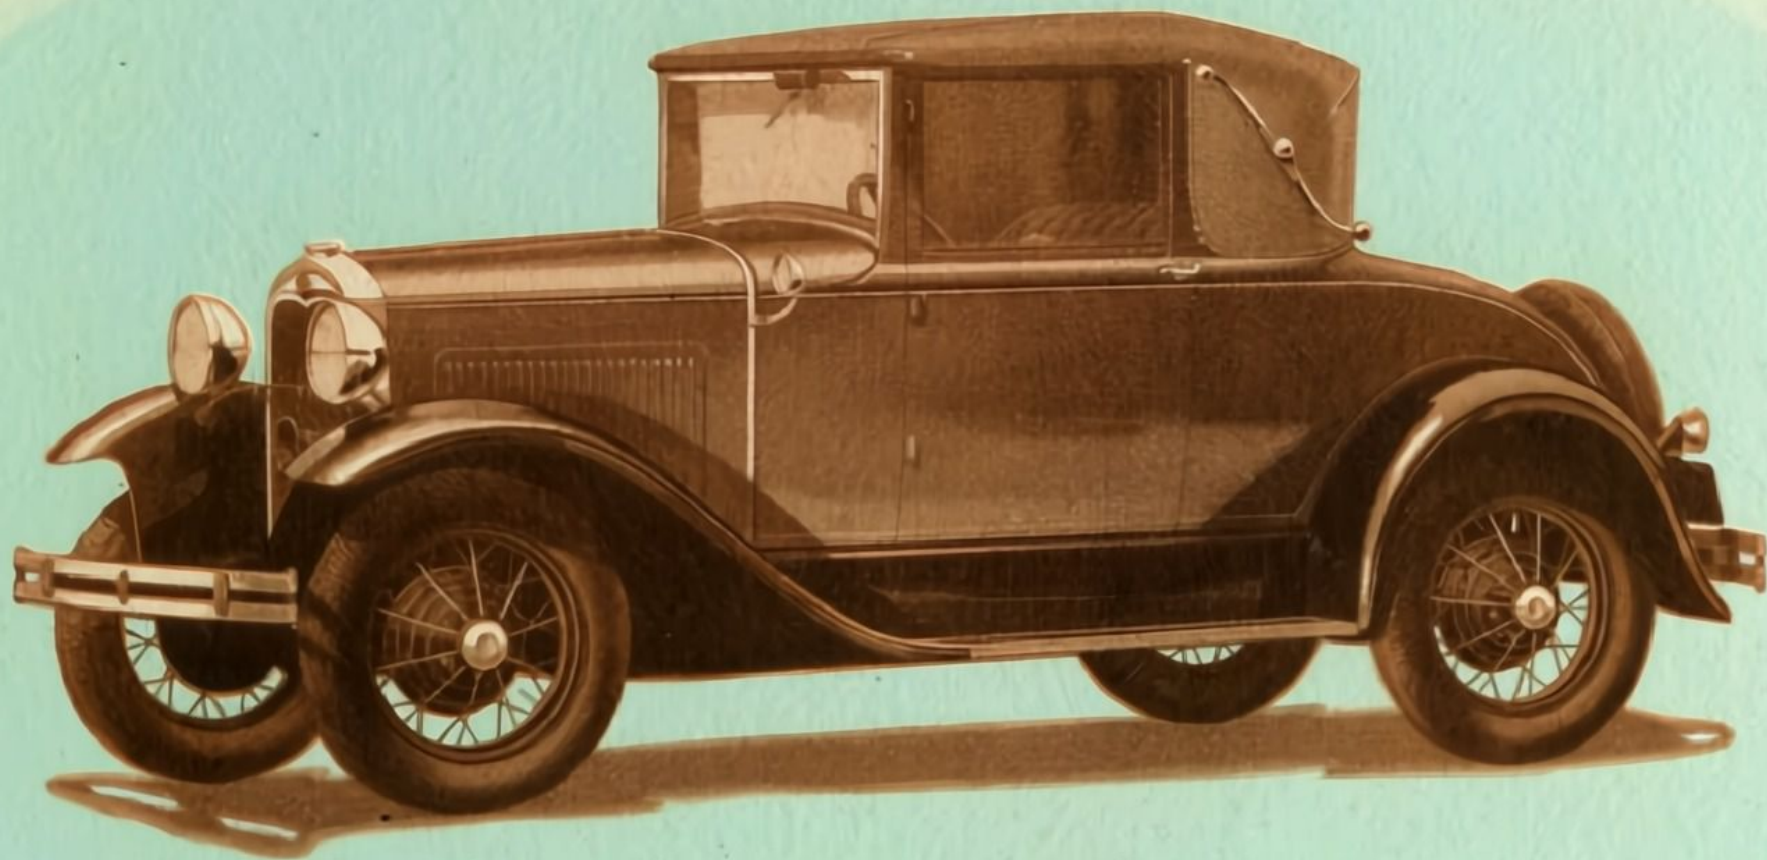

THE NEW PHAETON

*H*ERE, as in the new Ford Roadster, you see the straight, unbroken sweep of line that contributes so much to the beauty of all the new Ford bodies. The windshield folds flat when desired. The top can be raised or lowered quickly and easily. Door panels are attractively embossed. Seat cushions are upholstered in deeply piped two-tone artificial leather. ▲ ▲ ▲ ▲ ▲ ▲ ▲ ▲ ▲ ▲ ▲ ▲ ▲ ▲

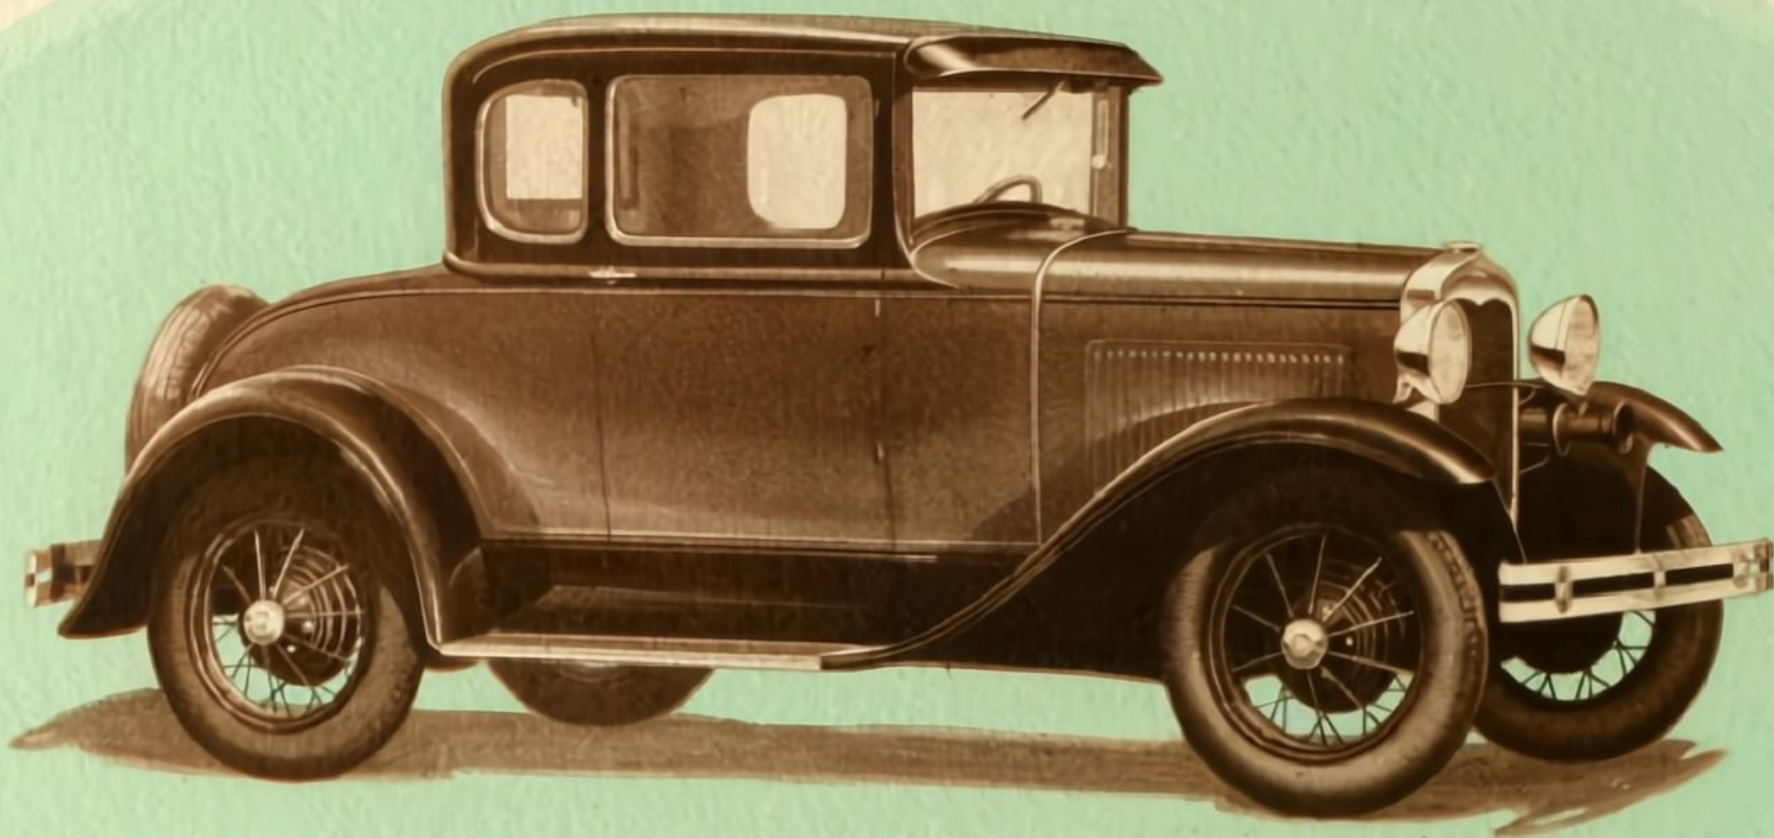

THE NEW SPORT COUPE

THE NEW Sport Coupe, which embodies all the new coupe features, gains its distinctiveness chiefly through the top covering of two-tone gray pyroxylin coated material and the rear quarter landau irons. The sport effect is carried into the interior trimming. It is equipped with a rumble seat affording comfortable quarters for two additional passengers if occasion requires. △ △ △ △ △ △ △ △ △

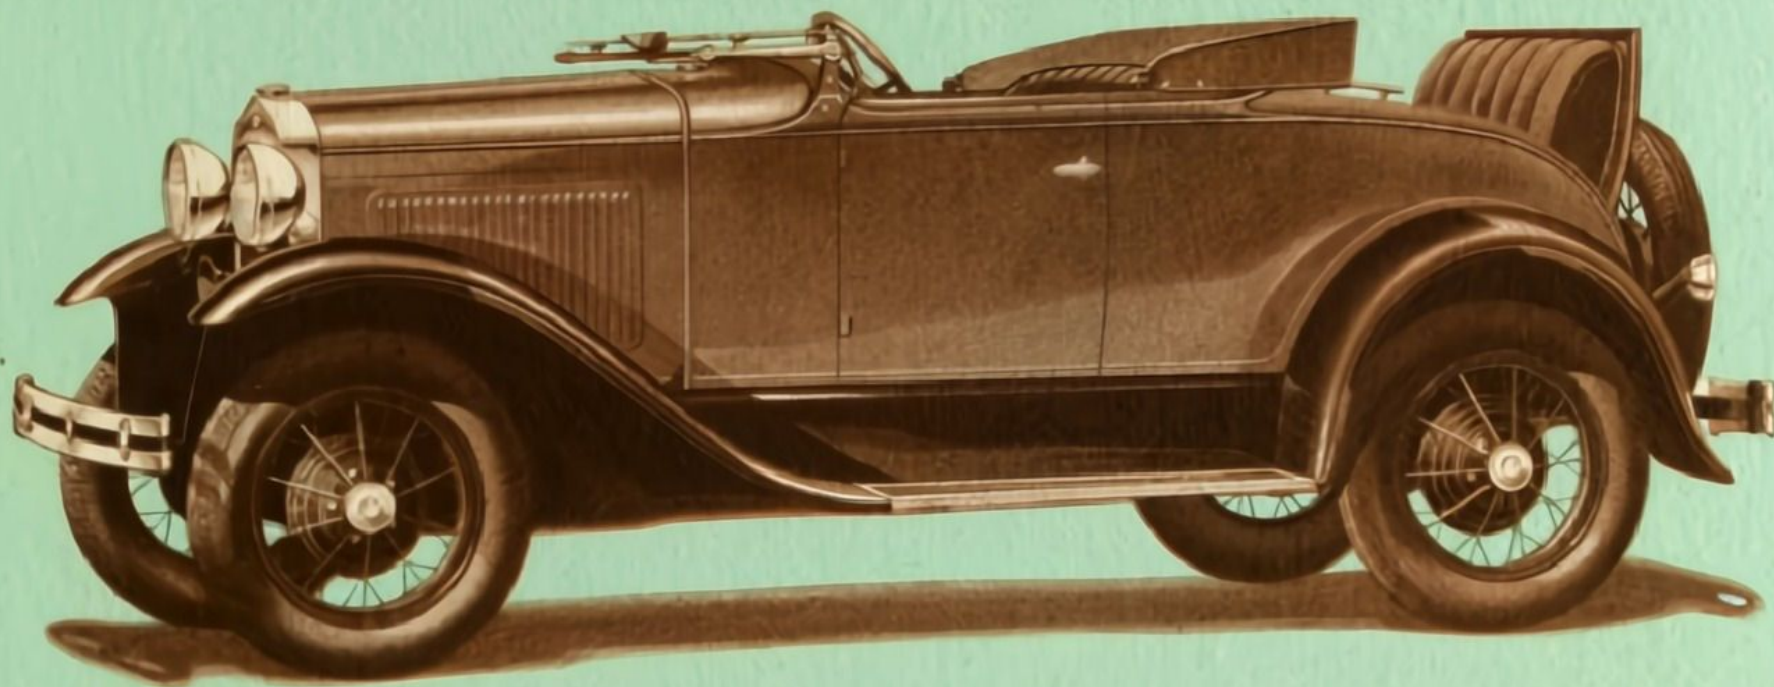

THE NEW CONVERTIBLE CABRIOLET

THIS NEW Ford Convertible Cabriolet is a particularly good choice for the woman motorist because it combines the smart, youthful style of the roadster and the snug, all-weather comfort of the coupe. The compact, landau top can be raised or lowered easily and quickly. Wide, substantial rumble seat and cowl lights are included as standard equipment. △ △ △ △ △ △ △ △ △ △ △ △ △ △

THE NEW COUPE

A BEAUTIFUL closed car, distinguished by its substantial grace of line and contour. Radiator, fenders, hood, cowl, lower roof line, French roof quarters, rear deck—all reflect the fresh beauty given the low-price car by the introduction of these new Ford bodies. The seat is adjustable in both the Coupe and Sport Coupe. ▲

THE NEW ROADSTER

*I*N FLASHING beauty of line and color, there are few cars at any price more attractive than this sporty new Ford Roadster. From headlamps to rear bumper, the long, straight lines sweep back without a break. The windshield folds flat. The wider seat will accommodate three people. Windshield and windshield wings are made of Triplex shatter-proof glass. △ △ △ △ △ △ △ △ △ △ △ △

Features

Remarkable Engine—The engine of the Model A Ford embodies many mechanical features. It gives unusual acceleration, smoothness, speed and power without sacrifice of reliability and economy. Ford engineering has found the way to include every essential feature of good performance without the necessity of a high-speed motor.

55 to 65 Miles an Hour—The Model A Ford has unusual speed. It will do 55 to 65 miles an hour. This is a conservative statement. So well does the new car hold the road that you can travel at high speed for long stretches with a new feeling of comfort, balance and safety.

Enclosed Six-Brake System—One of the first things you will notice when you drive the new Ford is the quick, effective action of its braking system. This system gives you the highest degree of safety and reliability because the four-wheel service brakes and the separate and independent emergency or parking brakes are all of the mechanical, internal-expanding type, with braking surfaces fully enclosed for protection against mud, water, sand, etc.

Triplex Windshield—All of the new Ford cars have a Triplex shatter-proof glass windshield—so made that it will not fly or shatter under the hardest impact. This is an important safety factor because it eliminates the dangers of flying glass.

Houdaille Shock Absorbers—Four Houdaille hydraulic double-acting shock absorbers are standard equipment on the new Ford. These combine with the low center of gravity, the minimum unsprung weight, and the easy riding qualities of the transverse springs to make the new Ford an unusually comfortable car.

New Smaller Wheels—The new smaller wheels with larger balloon tires, lower the center of gravity and bring the car closer to the road. This gives greater safety and additional riding comfort.

Standard Equipment—On all new Ford cars standard equipment includes five steel-spoke wheels, automatic windshield wiper, speedometer, gasoline gage on instrument panel, dash light, tilting beam headlamps, mirror, combination tail and stop light, oil indicator rod, complete tool equipment, and theft-proof ignition lock. Wide, substantial rumble seat is also standard equipment on the new Ford Sport Coupe and Cabriolet. Triplex shatter-proof glass windshield wings are provided as standard equipment on the Roadster and Phaeton.

Additional Details—Engine, four-cylinder "L" head, cast en bloc. Piston displacement, 200.5 cu. in. Bore, $3\frac{1}{8}$ inches; stroke, $4\frac{1}{4}$ inches; horsepower rating S.A.E. and N.A.C.C., 24.03; brake horsepower, 40 at 2200 R.P.M. Single plate clutch. Three-quarter irreversible steering gear, worm and sector type. Torque tube drive. Oil capacity, 5 quarts. Gasoline capacity, 10 gallons. Balloon tires, 4.75 x 19. Wheel base, $103\frac{1}{2}$ inches. Turning radius, 17 feet.

We reserve the right to make changes, without notice, in prices, specifications, and equipment at any time without incurring any obligation.
