

Q45.

To determine exactly what luxury car drivers want in a luxury car, Infiniti did something very few luxury car companies have ever done. They asked. Infiniti went directly to luxury car owners and asked what they could do to fulfill their every desire. Some of the answers Infiniti heard were surprising, but not nearly as surprising as the end result... The new Q45.

What

attracts

you?

STYLING

STYLING

Through countless interviews with luxury car owners, Infiniti discovered a prevalent point of view: "What you drive says a lot about who you are." So before the new Q45 was ever designed, Infiniti asked luxury car drivers exactly what they wanted their luxury cars to say about them. The consensus was that they want to make a statement of elegance, without appearing ostentatious. To convey a knowledge of style, without appearing faddish. And to fulfill a desire for prestige, without feeling self-important. Bottom line, luxury car drivers want to say they've arrived in life, without screaming it. The result is a unique blend of understated luxury combined with bold sporty highlights. Like long, luxurious, uninterrupted lines complemented by stunning alloy wheels. And tasteful elegant curves integrated with a slanting front nose and grille. Introducing the new Infiniti® Q45®. A luxury car that says a lot about you. All good.

The new Q45 features jewel-like **HEADLIGHTS** that look as brilliant off as they do on. And to improve visibility on those foggy nights, the Q45 also comes with integrated **FOG LIGHTS**.

The Q45's attractive **SLANTING FRONT NOSE AND GRILLE** remind people that you not only own a luxury car, but also a car that's fun to drive.

The exterior of the Q45 is impressive from the start to the finish. First it begins with body panels made from **DURASTEEL®**, a metal with 50% more plating thickness than ordinary galvanized steel. These panels are then laser-etched, creating an extremely smooth medium for the paint to adhere to. Finally, Infiniti finishes with its 3-coat/3-bake paint process and a cross-linking clearcoat. The end result is an exterior that's as durable as it is beautiful.

The new Q45 is an elegant blend of classic and contemporary automotive **DESIGN**. Smooth uninterrupted lines. Lofty curves. All of which add to the Q45's beauty, as well as its **AERODYNAMICS**.

The Q45 features dramatic **16" CAST ALLOY WHEELS**. Constructed from gorgeous cast aluminum, their lightweight design helps to improve performance, as well as fuel economy.

*H*_{ow}

can

we

make

you

more

comfortable?

LUXURY & COMFORT

To make those long trips less stressful, the Q45 features **CRUISE CONTROL**. And should you encounter any rain during your travels, you'll be prepared with **VEHICLE SPEED-SENSITIVE WINDSHIELD WIPERS**. Unlike traditional wipers, the Q45's adjust to the speed at which you're traveling.

LUXURY & COMFORT

The interior of the new Q45 is designed to please you in several ways. Aesthetically, the Q45 provides the sophistication of wood-tone trim, plush leather seating surfaces, and an intelligent ergonomic design. To pamper you, the Q45 features many comforts such as 10-way adjustable power driver and front passenger seats with power lumbar supports. A unique center console with an integrated armrest, that opens from either the driver or the passenger side. A custom-designed, 200-watt, 8-speaker Bose® audio system with in-dash CD player and cassette. A CFC-free automatic climate control system. Even a 12-volt power supply for your laptop computer.

Because no matter how you travel, it should be in the same comfort and style that you have become accustomed to.

Infiniti nods to the classic cars of yesteryear by installing a **DASH-MOUNTED IGNITION SWITCH** in the new Q45. Besides its obvious novelty, it's also easier to find than typical steering column ignitions.

Another touch of elegance is the Q45's **HIGH-GRADE LEATHER**. Located on the steering wheel, the transmission shift knob, and all the seating surfaces, it's just one of the reasons driving the Q45 feels so good.

- A** 10-way power adjustable positions (driver and front passenger seats)
- B** Front bucket seats with seat-back pockets
- C** Rich leather seating surfaces, gathered for elegance and comfort
- D** Optional heated front seats (standard on the Q45t)
- E** Power lumbar support for both driver and front seat passenger

The Q45's **CENTER CONSOLE WITH INTEGRATED ARMREST** offers all sorts of conveniences. A coin holder. A tissue holder. Dual-level storage with partitioned compartments. A 12-volt power supply for your laptop computer. Plus, something equally convenient for you and your front seat passenger, a unique lid design that opens from the left, right, or center.

Infiniti collaborated with Bose to create an audio system specifically designed to compliment the acoustics of the Q45's interior: a 200-watt, 8-speaker **BOSE® AUDIO SYSTEM** with in-dash CD player and cassette. So, besides surrounding you in luxury, the interior of the Q45 also surrounds you in music.

Here's something that will let you breathe easier: a **CFC-FREE AUTOMATIC CLIMATE CONTROL SYSTEM WITH MICRO-FILTER VENTILATION**. A system with both front and rear vents that not only warms and cools the air in the Q45 cockpit, it helps to clean it as well.

Because you'll want to show the world your new Q45, you'll need space for a lot of luggage. The Q45's **SPACIOUS TRUNK WITH STORAGE BINS** allows you to carry enough luggage for five passengers. The Q45 also features a **CONVENIENCE NET**. A feature that keeps smaller items like bags of groceries from shifting. Because the last thing Infiniti wants, is for you to cry over spilled milk.

The Q45 comes standard with a **POWER SUNROOF WITH INTERNAL WIND DEFLECTOR**. At the touch of a button, you can open it entirely to let the sun in, or simply tilt it open to ventilate the cabin.

And to make night travel more comfortable, Infiniti provides features like an automatic anti-glare rearview mirror. The Automatic Infiniti Illumination System, that automatically turns on and off the headlights and taillights as lighting conditions change. And illuminated vanity mirrors. Of course, all the comforts in the world won't rid you of all your baggage, so fortunately the Q45 comes with a spacious trunk, storage bins, and a convenience net. At the end of the day, the new Q45 offers you yet another comfort: Infiniti's Integrated HomeLink® Transmitter. A system that allows you to operate radio-controlled devices like gates and garage doors by pressing the buttons found on your visor.

The new Q45. Guaranteed to make you feel good inside.

Like the front seat armrest, the rear seat armrest offers convenient storage space and two **REAR CUP HOLDERS**. Because your passengers deserve the same luxury you do.

How

can

we

help

protect

your

loved

ones?

SAFETY & CONSTRUCTION

SAFETY & CONSTRUCTION

To assure you good handling during bad conditions, Infiniti provides a standard **TRACTION CONTROL SYSTEM (TCS)** with an integrated viscous limited-slip differential (VLSD). During situations where one or both of the rear wheels begin to spin, the TCS automatically throttles down the engine by way of a secondary throttle. This response slows the engine speed to match the road conditions. Additionally, Infiniti's VLSD will transfer power from the rear wheel that is slipping to the rear wheel that is gripping. All of this takes place in a split second, which, in an emergency situation, is usually all you have.

Infiniti has created one of the most satisfying luxuries around: peace of mind. The knowledge that you and your loved ones are traveling in one of the safest luxury cars on the road. Because every Q45 offers some of the finest active and passive safety features in the industry. Like a standard Traction Control System with an integrated VLSD. ABS brakes. Dual air bags. Seat belt pre-tensioners. Infiniti even went so far as to protect you from the criminal element by designing a remote keyless entry and vehicle security system with a panic alarm and the Infiniti Personal Protection System. All of which help make the Q45 one of the safest cars on the road. Even if it's just parked there.

The Q45 features a **REMOTE KEYLESS ENTRY AND VEHICLE SECURITY SYSTEM** that lets you lock and unlock doors, pop the trunk, and activate a panic alarm. All from an unobstructed distance of up to 49 feet away. For an added measure of protection, it also features the **INFINITI PERSONAL PROTECTION SYSTEM**. Each Q45 comes with three magnetically coded keys, equipped with one of over 65,000 different codes. Any attempt to start your Q45 without one of these keys disables the ignition system.

As an added protective feature, the Infiniti Q45 includes front **SEAT BELTS WITH PRE-TENSIONERS**. The seat belt pre-tensioner system activates with the air bags. Working with the seat belt retractors, it helps to tighten the seat belts when the vehicle becomes involved in certain types of frontal collisions. Seat belts help reduce the risk of serious injury in accidents.

On the driver's visor of the Q45 are three little buttons that will give you a great deal of comfort. It's something Infiniti calls the **INTEGRATED HOMELINK® TRANSMITTER**. An ingenious device that you can program to operate your home's radio-controlled devices. Like your garage door opener. Your electric gates. Even your lighting systems*. All from the comfort and safety of your Q45.

The new Q45 features a **4-WHEEL ANTI-LOCK BRAKING SYSTEM WITH VENTED DISC BRAKES**. During an emergency situation, the ABS brakes pulse rapidly, keeping the wheels from locking up, while providing another crucial benefit: better steering control while stopping. This could mean the difference between running into something or steering around it.

To improve visibility during inclement weather, Infiniti devised a **WINDSHIELD WATER CHANNEL** that directs water to the sides of the windshield and over the top of the Q45. In driving rain, the benefit of this design will be perfectly clear.

Infiniti has been in the forefront of safety since the company's inception. It was one of the first to feature **DUAL AIR BAGS**** and ABS brakes as standard equipment in all its luxury cars. In fact, when it comes to safety, no detail is too small. Infiniti even goes so far as to gold plate all of its air bag sensor terminals to help ensure that the operation of crucial safety features is not compromised.

* HomeLink® home lighting system required for use.
** With a passenger-side air bag, please be aware that a rear-facing child restraint must not be placed in the front passenger seat and should only be used in a rear seat. Always follow the child restraint manufacturer's instructions. See the Owner's Manual for details on proper seat belt and child restraint use.

What

makes

your

heart

pound?

PERFORMANCE

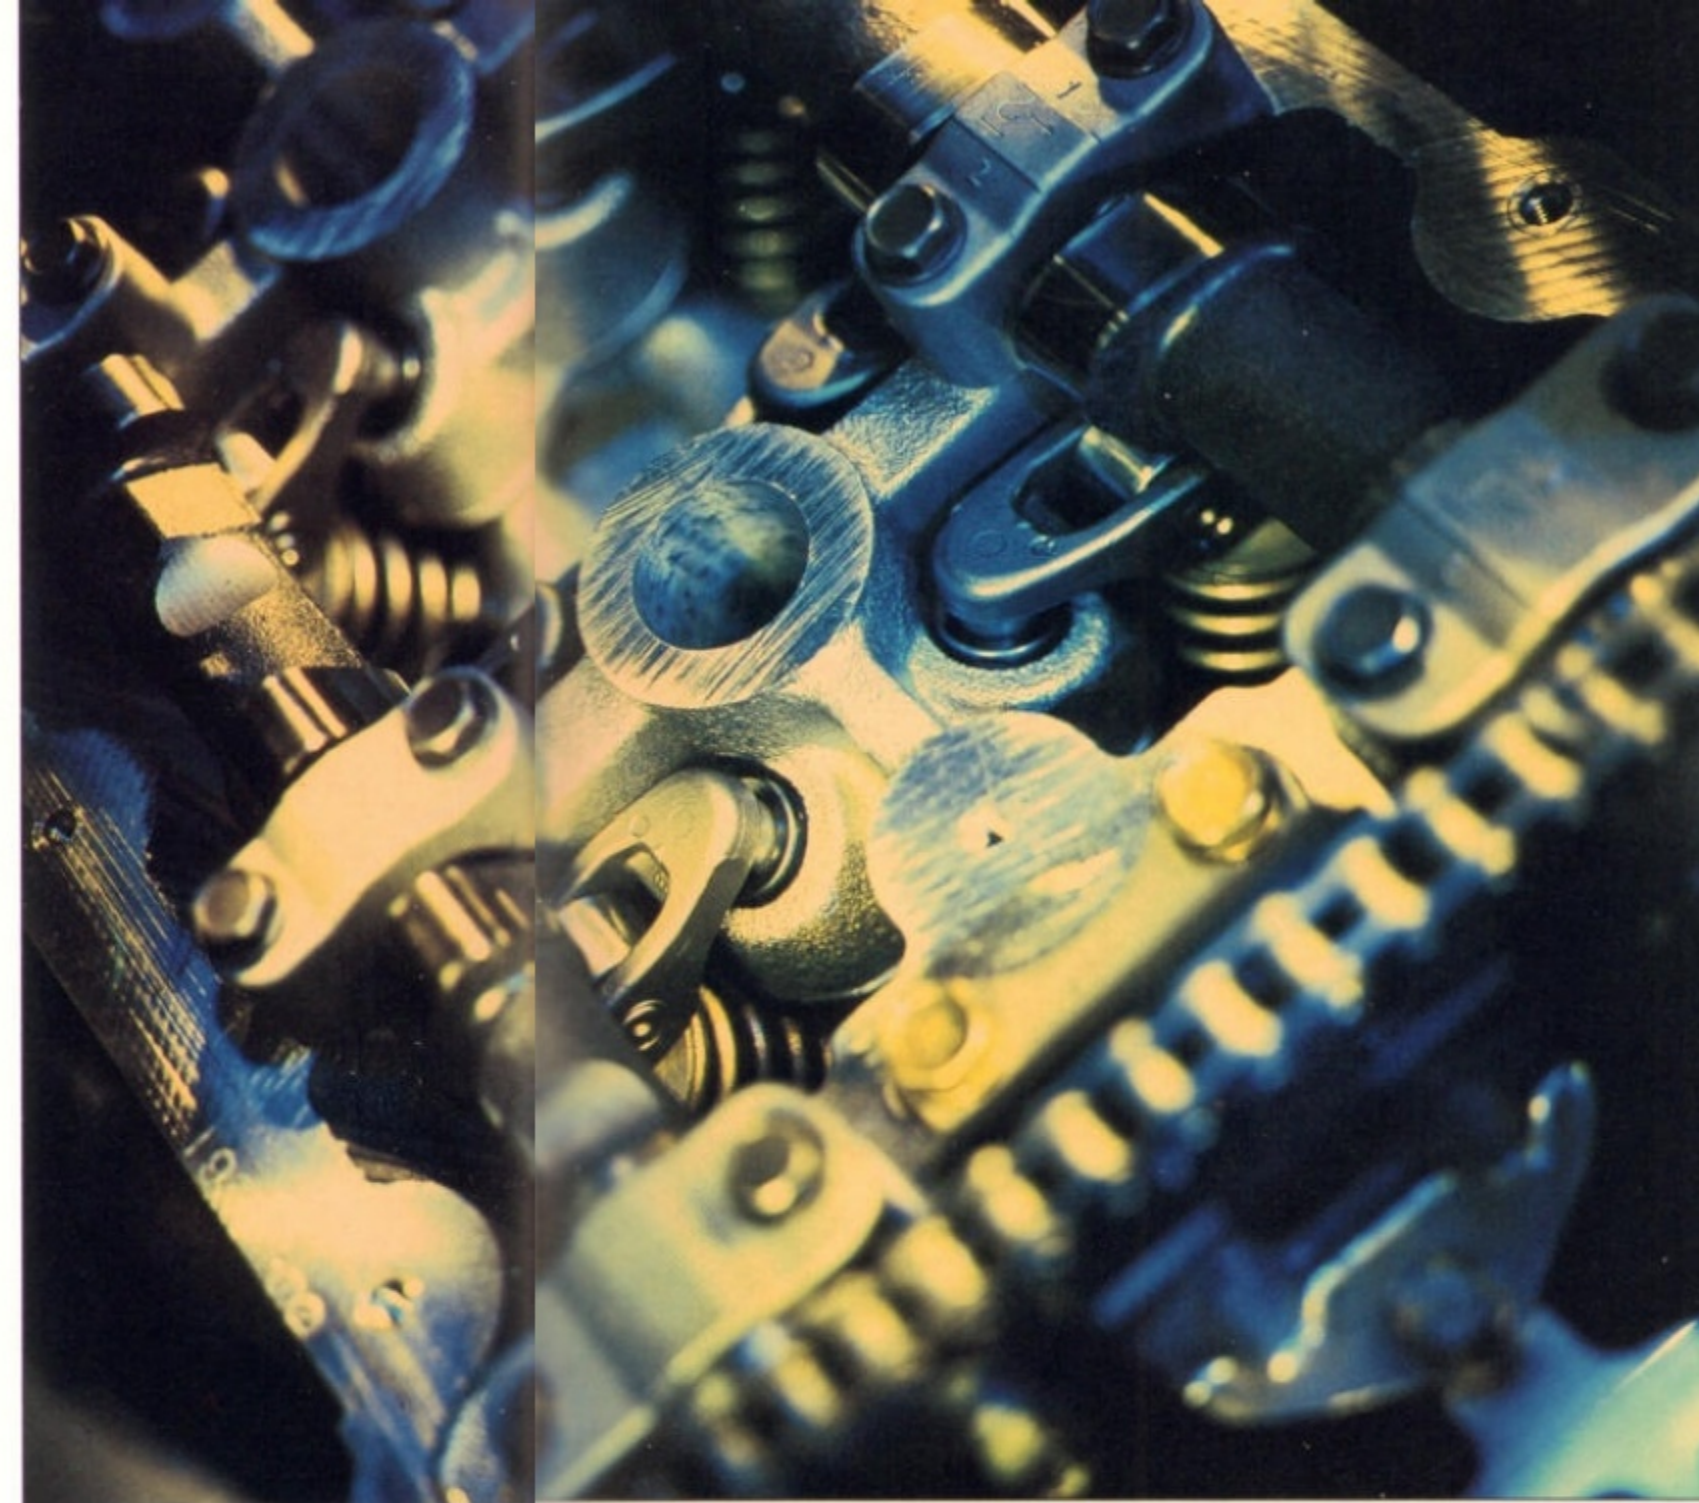

PERFORMANCE

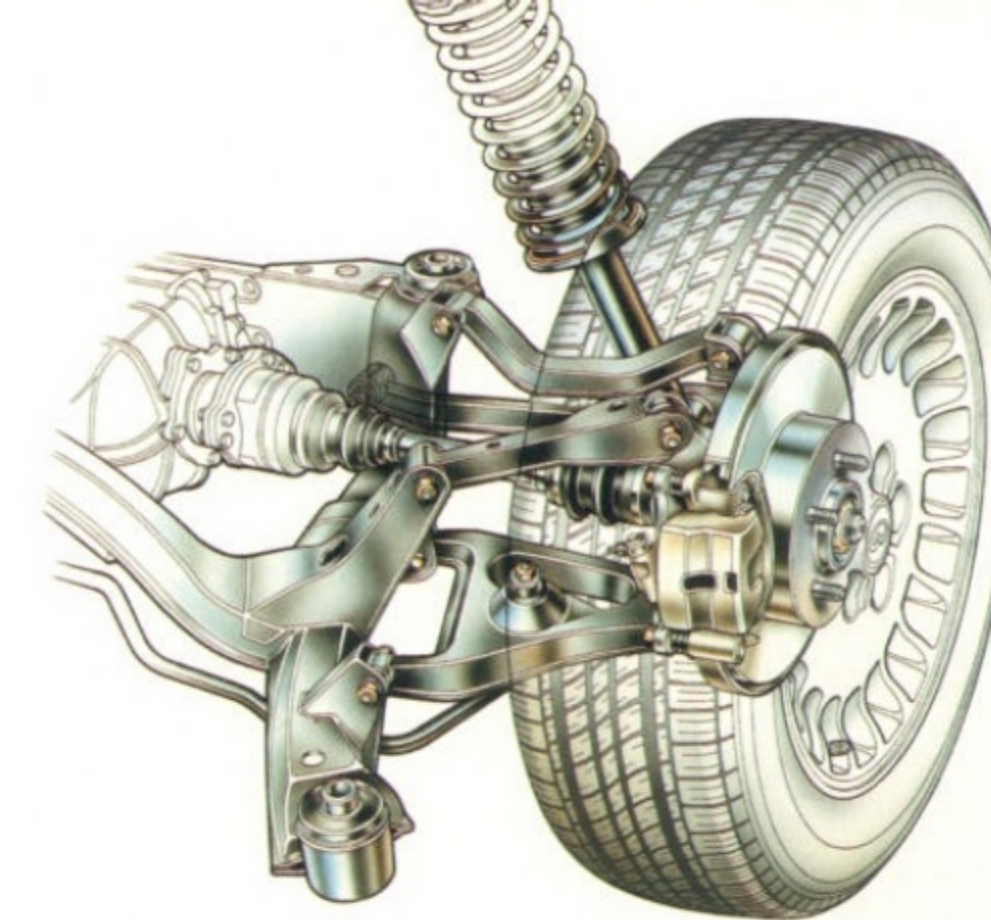

The excitement of driving the Q45 begins the moment you start its new 4.1-liter V8. Lighter than last year's engine, it not only boasts an impressive power-to-weight ratio, it's more fuel efficient*. And thanks to Infiniti's microfinishing technology and molybdenum-coated pistons, it's sure to run smoothly for years to come. Combine that technology with a front strut-type suspension, variable rack-and-pinion steering, and Infiniti's electronically-controlled 4-speed automatic transmission, and you're well down the road to discovering what Infiniti calls "the luxury of performance." An experience that will be rewarding even in inclement weather, thanks to the Q45's ABS brakes and standard Traction Control System with integrated viscous limited-slip differential (VLSD).

The Q45 features wide profile, 16-inch **HIGH-PERFORMANCE, ALL-SEASON TIRES**. Because the more tire surface you have on the road, the more control you have at all times. For sure-footed driving during slippery conditions, the Q45's standard **VISCOUS LIMITED-SLIP DIFFERENTIAL** transfers power from the rear wheel that's slipping to the rear wheel that's gripping.

* See EPA-estimated figures in Specifications section.

The Q45's new 4.1-liter **V8 ENGINE** offers a variety of improvements over last year's engine. Drivability has been improved by changing the cam profile to increase torque during the low and medium rev range, the speed at which most people drive. To decrease road noise, vibration and harshness, Infiniti developed innovations like a full-floating front suspension and hydrodynamic rubber-hydraulic filled bushings. To muffle engine sounds, a new polyester fiber dash insulator, a cast aluminum rear transmission cross-member mount, and a noise-dampening engine cover were created. And finally, to increase longevity and improve overall performance, Infiniti utilizes **MICROFINISHING & MOLYBDENUM** technology. Crucial internal parts are not only polished to the finest detail, they are coated with molybdenum, an extremely rare element that helps make the engine of the Q45 run as good as gold.

By combining the proven **FRONT STRUT-TYPE SUSPENSION** design with Infiniti's **MULTI-LINK REAR SUSPENSION**, the Q45 offers the best of both worlds. All the luxury and comfort you expect from a flagship model, plus performance features like better handling characteristics and a tighter turning radius.

As one of the benefits of Infiniti's Touring Model, you receive a feature that's not only fashionable, it's functional: the Q45t's **REAR DECKLID SPOILER**. At higher speeds, the spoiler is designed to help reduce lift by using the pressure of the wind to help keep the back end of the Q45t close to the road. The result is improved handling and control at highway speeds.

To give you the best possible feel for the road at any speed, Infiniti developed **ENGINE SPEED-SENSITIVE STEERING**, a system that adjusts the amount of power steering assist you experience relative to the engine speed. At low speeds, when more delicate maneuvering is necessary, the system provides maximum power steering assist. Whereas, at higher speeds, the system decreases the amount of power, giving you better steering control.

And if all that doesn't make your heart pound, Infiniti offers even more of a good thing: the optional Q45 Touring Model.

Or what Infiniti calls the Q45t[®]. Featuring a sports-tuned suspension that will give you a sportier feeling of control and confidence. A sleek black-out grille. 5-spoke performance alloy wheels. Heated seats. A rear decklid spoiler. Even a new performance steering wheel. And a trunk-mounted 6-disc CD autochanger, which will allow you to enjoy a performance of a different nature.

The new Infiniti Q45. A driving force in the world of luxury.

For those of you who appreciate the luxury of not having to change CDs while driving, Infiniti offers a trunk-mounted **6-DISC CD AUTOCHANGER**, standard on the Q45t or as an option on the Q45. Not only will it store over seven hours of your favorite music, it keeps it all safe and secure in the trunk of your Q45.

The "t" following the "Q45" signifies Infiniti's **TOURING MODEL**. A package that includes performance features like a sports-tuned suspension. 5-spoke performance alloy wheels. A rear decklid spoiler. And a new performance steering wheel. Plus added features like a unique black-out grille. Heated seats. A trunk-mounted 6-disc CD autochanger. And of course, the distinctive "t" that caught your eye in the first place.

TOTAL OWNERSHIP EXPERIENCE

TOTAL OWNERSHIP EXPERIENCE

The Total Ownership Experience® is an ongoing commitment that starts the moment you enter an Infiniti showroom. It's all about the benefits you've come to expect from a luxury car. Benefits like the Extended Guest Drive* which allows you to test-drive an Infiniti for an extended amount of time. 24-Hour Roadside Assistance†. Trip Interruption Benefits‡. An extensive warranty package††. Even a free Service Loan Car** with any scheduled maintenance appointment. The Total Ownership Experience.

Because luxury is more than a car, it is peace of mind.

The Infiniti Total Ownership Experience Commitment

A superior product representing excellent value ■ Presented in a unique environment ■ To honored guests who are treated with respect during the buying process ■ Who receive outstanding service throughout ownership ■ And enjoy an ongoing relationship with knowledgeable people who are committed to ensuring their satisfaction.

One of the benefits of The Total Ownership Experience is a sense of pride. Featured to the left is the **INFINITI INDY**, an Infiniti racing engine that's superiority can be witnessed at the crown jewel event of automotive racing: The Indy 500. Its design is based on the same 4.1-liter V8 you'll find in your new Q45.

* Extended Guest Drive available at participating Retailers. Restrictions may apply. See Retailer for details.

† Service Coverage Term 4-year/unlimited mileage.

†† For further details on Infiniti warranty packages, please see The Total Ownership Experience section in the Specifications.

** Subject to availability. At participating Retailers. Must be 21 years of age or older with a valid U.S. driver's license and must provide proof of primary insurance. Available only during 4-year/60,000 mile Basic New Vehicle Limited Warranty.

ENGINE

- 4.1-liter V8, aluminum alloy block and heads
- Electronically-controlled variable valve timing
- Horsepower (SAE Net): 266 @ 5,600 rpm
- Torque (SAE Net): 278 ft-lbs @ 4,000 rpm
- Redline: 6900 rpm
- Compression Ratio: 10.5:1
- Valve Train: 4 camshafts, 32 valves
- Induction System: Electronic sequential multi-point fuel injection
- Recommended Fuel: Premium unleaded

DRIVETRAIN

- Front engine/rear-wheel drive
- Electronically-controlled 4-speed automatic transmission with lockup torque converter and viscous limited-slip differential
- Gear Ratios:

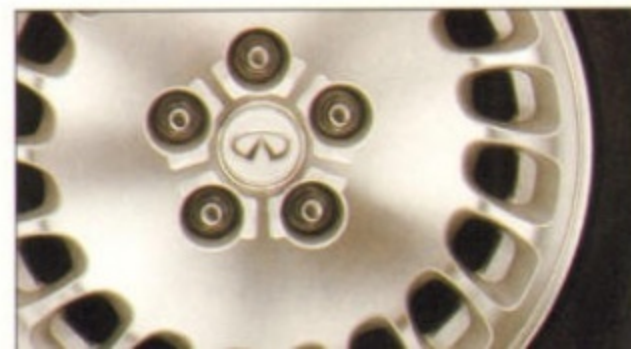

First	2.569	Fourth	0.694
Second	1.479	Reverse	2.275
Third	1.000	Final Drive Ratio	3.692

BODY/CHASSIS/SUSPENSION

- Unibody construction
- Front strut-type suspension and independent multi-link rear suspension
- Front and rear stabilizer bar

STEERING & BRAKING

- Electronically-controlled vehicle speed-sensitive power-assisted rack-and-pinion steering
- Steering Ratio: 18.5:1
- Turning Circle (curb to curb): 36.1 feet (Q45/Q45t)
- Front and rear power-assisted vented disc brakes with new 3-channel, 4-sensor anti-lock braking system (ABS)
- Brake Size: Front 11.7" x 1.1" Rear 11.5" x .6"
- Standard traction control system (TCS) with console mounted defeat switch

MECHANICAL

- 4.1-liter 4-cam 32-valve V8 engine
- Electronically-controlled 4-speed automatic transmission with lockup torque converter
- Electronically-controlled vehicle speed-sensitive power assisted rack-and-pinion steering
- Front and rear vented power-assisted 4-wheel disc brakes with 3-channel, 4-sensor anti-lock braking system (ABS)
- Front strut-type suspension, independent multi-link rear suspension
- Viscous limited-slip differential

WHEELS & TIRES

- Wheel Type/Size: Aluminum alloy/7.0" x 16"
- Tire Size: 215/60VR16
- All-season tires standard on both models, with performance tires available as a no cost-option

WEIGHTS & CAPACITIES

- Curb Weight: Q45 3,879 pounds, Q45t 3,890 pounds
- Fuel Tank: 21.1 gals
- Passenger Compartment: 97.4 cu ft
- Trunk: Q45 12.6 cu ft, Q45t 12.6 cu ft

FUEL CONSUMPTION

- Q45: City 18 mpg, Highway 24 mpg
- Q45t: City 18 mpg, Highway 24 mpg

EPA-estimated figures are for comparison purposes only. Actual mileage may vary depending on driving conditions. Figures for other models will vary. At the time of printing, only 1996 figures were available. Please see your local Infiniti retailer for details.

HANDLING & PERFORMANCE

- Maximum Speed: 144 mph electronically-controlled
- Coefficient of Drag: 0.32

STYLING

- Power sliding aluminum sunroof with rear tilt feature and internal wind deflector
- Body-color dual power remote-control heated outside mirrors
- Tinted glass
- Bright radiator grille
- Jewel-like headlights
- Integrated fog lights
- Bright windshield and rear window moldings
- Integrated body side moldings with bright inserts
- Energy-absorbing body-color front and rear bumpers with bright inserts
- Cast alloy wheels
- Bright tailpipe extensions
- Fully carpeted and illuminated trunk with convenience net

SAFETY & CONSTRUCTION

SAFETY/THEFT PREVENTION

- Dual front air bags
- 3-point front seat belts with pre-tensioners
- 3-point rear outboard passengers A/ELR seat belts with 2-point center belt
- Adjustable front head restraints and fixed rear head restraints
- Energy-absorbing steering column
- Protective steel side-door guard beams
- Meets 1997 Federal Dynamic Side Impact Standards
- 4-wheel anti-lock braking system (ABS)
- High structural integrity uni-body construction
- Shift inter-lock control system
- Child safety rear door locks
- Remote keyless entry and vehicle security system
- Pick-resistant door lock cylinders
- Illuminated entry/exit system with time delay fade-out
- Personal Protection System

Infiniti Division of Nissan Motor Corporation in U.S.A. and your local Infiniti retailer strongly encourage you to use your seat belt/shoulder belt whenever you drive. Please ask all of your passengers to buckle up too, especially children. And with children under four, make sure they are secure in an appropriate infant or child safety seat. Every Infiniti is equipped with driver and front passenger-side air bags. Used in conjunction with the 3-point seat belts, they help reduce the risk of severity of injury in certain frontal impacts. Please keep in mind, however, that air bags are a supplemental restraint system designed to work in conjunction with your seat belt. With a passenger-side air bag, please be aware that a rear-facing child restraint must not be placed in the front passenger seat and should only be used in a rear seat. Always follow the child restraint manufacturer's instructions. See the vehicle Owner's Manual for details on proper seat belt and child restraint use.

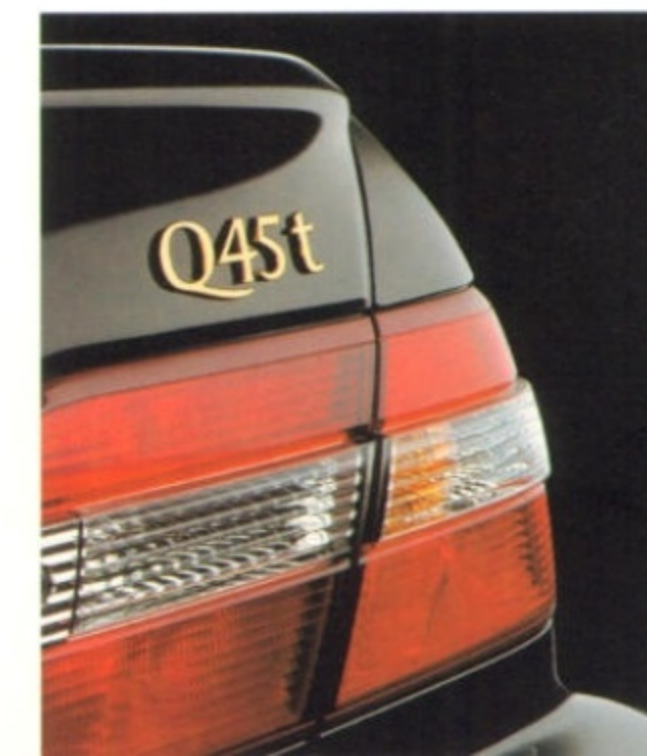

INSTRUMENTATION

- Analog speedometer and tachometer
- Digital quartz clock

MODEL AVAILABILITY/OPTIONS

- Q45t Touring Model:
 - Front blackout grille
 - 5-spoke performance alloy wheels
 - Rear decklid spoiler
 - Unique Q45t badging
 - Performance steering wheel
 - Heated seats (Optional on Q45)
 - 6-disc CD autochanger (trunk-mounted)
 - Performance tuned suspension

LUXURY & COMFORT

- Driver's and passenger's side 10-way power seat with lumbar support
- Automatic entry/exit system with 2-driver memory (includes driver's seat, tilt/telescope steering wheel)
- Leather-appointed interior
- Leather-wrapped steering wheel and shift knob
- Wood-tone accents
- Manual adjustable front seat head restraints and fixed rear seat head restraints
- Center console with armrest, dual-level storage and dual cupholders
- Rear center armrest with storage compartment and dual cupholders
- Front and rear door storage pockets
- Front seat-back pockets
- Plush cut-pile carpeting with matching carpeted floor mats
- Infiniti brand and logo embossing on front seats
- Automatic temperature control with CFC-free air conditioning with microfilter system
- Rear heat and A/C vents
- Automatic anti-glare rearview mirror
- Driver and front passenger double sunvisors
- Cruise control with steering wheel-mounted controls
- Power tilt/telescopic steering column
- Power windows with "one-touch down" driver's window
- Vehicle speed-sensitive variable intermittent windshield wipers
- Power door locks and mirrors
- Power fuel-filler door and trunk releases
- 12-volt power supply located in center console
- Interior mood lighting
- Front and rear compartment reading lamps
- Illuminated seating and outside mirror controls
- Infiniti Illumination System
- Integrated HomeLink® Transmitter
- 2 master keys, 1 valet key, 1 wallet key

AUDIO SYSTEM

- 200-watt, 8-speaker Bose® audio system with four amplifiers
- In-dash CD player and AM/FM stereo tuner with auto-reverse/full logic cassette deck
- Trunk-mounted 6-disc CD autochanger (Optional on Q45)
- Automatic power antenna with diversity antenna system
- Pre-wiring for Infiniti Communicator Series™ cellular phones
