**ACADIA**

# THE NEXT GENERATION OF GMC.

## ENGINEERED TO THE HIGHEST STANDARD: PROFESSIONAL GRADE.

Acadia is designed with one ambitious goal in mind: to create a new kind of vehicle that leaves you feeling comfortably in control. This proves where a commitment to professional grade engineering can get you: exactly where you want to be. Acadia.

ANTIQUE'S

## TESTED. RETESTED.

### **A REMARKABLE COMBINATION OF LUXURY AND STYLING.**

Acadia provides you with a combination of user-friendly luxury, a family-friendly interior and sleek, sophisticated styling. It also meets the challenges of the road with the expertise of nearly 100 years of GMC engineering.

ACADIA SLT in Red Jewel Tintcoat shown with available equipment. Red Jewel Tintcoat is an extra-cost color.

ACADIA SLT in Light Titanium shown with available Navigation Radio<sup>1</sup> and other optional equipment

### THREE ROWS OF UNCOMMON COMFORT.

Acadia's interior is comfortable and quiet. Noise is kept to a minimum, thanks to thick door glass, strategic applications of acoustic foam and refined engine acoustics. Even the wiper blades are designed for low wind resistance, which helps reduce noise. An available tri-zone climate control system helps ensure the comfort of passengers in all three rows. In addition, Acadia has lots of places to store belongings, including a spacious glovebox, a bin above the instrument panel, and spaces in the center console, front-row seatbacks and below the rear cargo floor.

<sup>1</sup>Navigation map only covers the 48 contiguous United States and portions of Canada, but does not cover Alaska, Hawaii, Puerto Rico or the Virgin Islands.

An available AM/FM stereo (*left*) is MP3 compatible and includes a CD/DVD player. Available entertainment system (*below*) includes a rear-seat DVD player with remote control, overhead display, 2 sets of 2-channel wireless infrared headphones and auxiliary audio/video input jacks.

With Acadia, you get room with a view. The available SkyScape™ roof (*left*) includes a power tilt-sliding front sunroof complemented by a large rear roof, which features fixed safety glass and a power sunscreen.

Tap-shift operation of the six-speed transmission is controlled by a button on the left of the gearshift knob (*right*). Steering-wheel-mounted controls (*below, available on SLE, standard on SLT*) provide convenient operation of the audio system.

The available DVD-based Navigation Radio<sup>1</sup> (*below*) provides superb audio and mapping capabilities. It features a 6.5-inch diagonal display, touch-screen control and AM, FM and XM Satellite Radio<sup>®2</sup> reception (*if equipped*). It maps routes with 2-D or 3-D views.

<sup>1</sup>Navigation map only covers the 48 contiguous United States and portions of Canada, but does not cover Alaska, Hawaii, Puerto Rico or the Virgin Islands. <sup>2</sup>XM is available only in the 48 contiguous United States. Service fees extra. Visit [www.gm.xmradio.com](http://www.gm.xmradio.com) for details.

2

### A MAGNET FOR NEW IDEAS.

Acadia's SmartSlide™ System lets you slide the second-row seats forward with one hand, for easy access to the third-row seat. Standard sculpted and contoured second-row bucket seats are fore-aft adjustable. Leather-appointed seating for the first and second row is included with SLT trim. A second-row bench seat is available (*not shown*); it also features the SmartSlide System and gives Acadia room for eight. The contoured third-row seat has room for three adults, with 57 inches of shoulder room.

ACADIA SLT in Carbon Metallic shown with available equipment

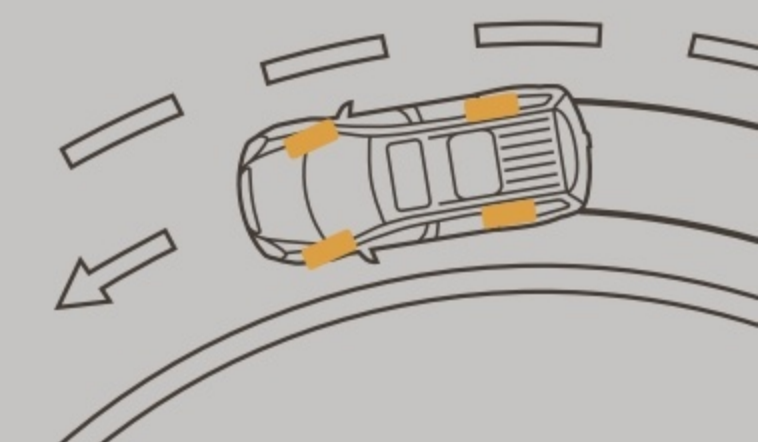

# SUREFOOTED

## THE ROAD WILL NEVER LOOK THE SAME.

Body-frame integral construction makes getting into and out of Acadia easy. It helps provide a rigid foundation for an impressively smooth ride. And it permits traction-enhancing front-wheel drive. In addition, the standard StabiliTrak® stability control system, hydraulic rack-and-pinion steering and advanced suspension all help Acadia offer uncanny agility.

The linked H-arm rear suspension system (*above*) is state of the art, featuring twin tube shock absorbers, coil springs, and forged steel toe, camber and pendulum links. It mounts on an isolated cross-member subframe, which helps reduce cabin noise. The lower H-arms and knuckles are made from aluminum, reducing unsprung weight. Cross-axis ball joints enhance handling in evasive maneuvers.

An available electronically controlled on-demand Intelligent All-Wheel-Drive system (*below*) helps Acadia offer outstanding ride and handling. It constantly monitors and adjusts torque quickly and seamlessly between front and rear wheels as necessary. In addition, it offers better fuel efficiency than other full-time all-wheel-drive systems.

ACADIA SLT in Carbon Metallic shown with available equipment

# ACCESSIBLE

## NEW POSSIBILITIES OPEN UP IN ACADIA.

With up to 116.9 cubic feet of cargo space<sup>1</sup> and an available power liftgate, Acadia gives you convenient access to its spacious interior. Acadia goes even further to make your life easier, with little details like available Remote Start, which lets you start the engine and climate control system from outside so it will be ready to go when you are.

Available rear cargo area audio controls (*above*) are ideal for tailgating.

A tether (*left*) lets you easily pull the third-row seatback upright.

ACADIA SLT in Liquid Silver Metallic shown with available equipment

### POWER LIFTGATE: REMOTE OPERATION AT YOUR FINGERTIPS

In addition to controlling Remote Start and keyless entry functions, the key fob controls the available power liftgate. The power liftgate can also be controlled with a button just inside the liftgate, or if you're in a front seat, with a switch in the center console. A built-in safety sensor stops the liftgate from opening or closing if it encounters resistance.

<sup>1</sup>Cargo and load capacity limited by weight and distribution. Secure loose items before driving.

Second- and third-row seats fold forward and lie flush, effectively creating a flat cargo area surface that offers impressive cargo-carrying potential.<sup>1</sup>

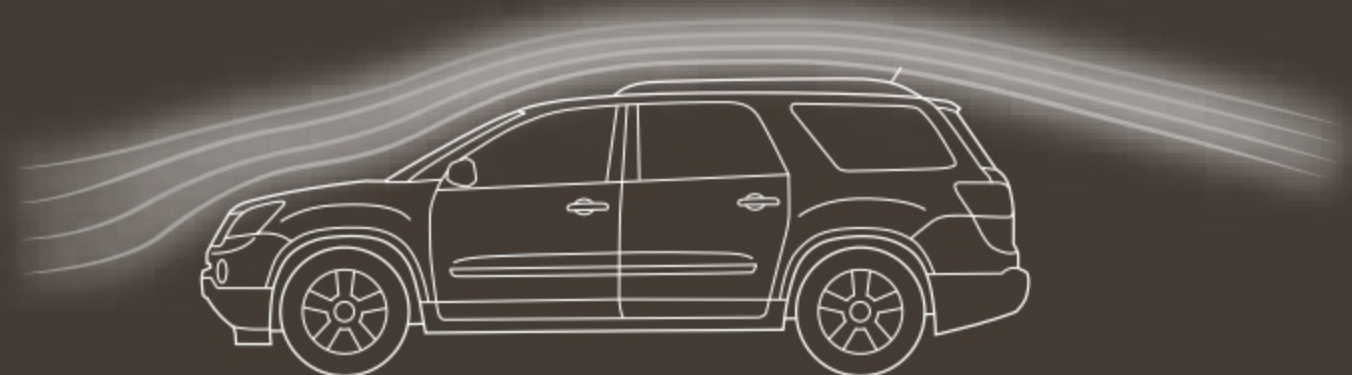

# EXHILARATING

## SMOOTH. POWERFUL. REFINED.

Acadia's standard 3.6L V-6 Engine with variable valve timing combines 275 horsepower with 251 lb-ft torque, so power is always there for you, along with great fuel economy—up to 26 mpg on the highway.<sup>1</sup> Acadia offers a standard six-speed automatic transmission, while available all-wheel drive enhances stability and control on a variety of surfaces. As Acadia passes by, note a fitting visual touch: chrome at the tips of the double dual exhaust.

## STREAMLINED AERODYNAMICS FOR IMPROVED FUEL ECONOMY.

Excellent aerodynamics—including a remarkable 0.34 coefficient of drag — helps Acadia deliver impressive fuel economy,<sup>1</sup> earning EPA estimated ratings of 18 mpg city and 26 mpg highway. Reflecting GMC's commitment to environmental stewardship, Acadia features advanced emissions control technology.

ACADIA SLT in Red Jewel Tintcoat shown with available equipment. Red Jewel Tintcoat is an extra-cost color.

<sup>1</sup>See page 25 for complete EPA estimates.

# SECURE

## GUARDED FROM EVERY CONCEIVABLE ANGLE.

Acadia arrives with a variety of designs engineered to help enhance your safety, before, during and after a collision. It has a low center of gravity, a long and wide footprint and available all-wheel drive. Should a crash occur, integral body-frame construction works to route and absorb impact forces to help preserve your interior space. 360° impact sensors and rollover sensors strategically trigger the appropriate air bags.<sup>5</sup> In rear impacts, retractor-mounted pretensioners help secure the driver and front passengers.

### 1 TIRE PRESSURE MONITORING SYSTEM

This advanced system keeps track of tire pressure and alerts you to low pressure through the Driver Information Center — indicating exactly which tire is low. The system also sends a message regarding tire pressure each time you start the vehicle, letting you know any time pressure is low. (Does not monitor spare tire.)

### 2 ONSTAR® DIRECTIONS & CONNECTIONS SERVICE PLAN

Acadia comes standard with OnStar and one year of the OnStar Directions & Connections Service Plan. In an emergency, an OnStar Advisor is there to help. OnStar can work with authorities to help locate a stolen vehicle,<sup>3</sup> unlock your car doors,<sup>2</sup> allow you to make voice-activated hands-free phone calls<sup>3</sup> and more. And with Point of Interest Lookup, the Directions and Connections Service Plan offers Turn-by-Turn Navigation.<sup>4</sup> Visit [onstar.com](http://onstar.com) for details.

### 3 PASSENGER SENSING SYSTEM

The front passenger air bag<sup>5</sup> features a passenger sensing system. It uses a sensor within the front passenger seat to detect the weight of the occupant. Under a certain weight, the system automatically turns off the air bag.

### 4 SIX AIR BAGS<sup>5</sup>

Acadia comes with six air bags:<sup>5</sup> two front dual-stage air bags and two side-impact air bags for the driver and front-seat passenger, and a head-curtain side-impact air bag system that functions like a protective curtain, unfolding from the roof rail on each side. Activated by side-impact and rollover sensors, each curtain includes air bag sections for outboard front, second-row and third-row passengers.

### 5 HIGH-STRENGTH STEEL CONSTRUCTION

The integral body-frame construction makes extensive use of ultra-high-strength steel — four times stronger than regular carbon steel — on primary load paths. It also uses dual-phase steel — three times stronger than carbon steel — in key areas, taking advantage of this material's ability to absorb the energy of crash forces.

### 6 STABILITRAK STABILITY CONTROL SYSTEM

To keep you firmly in control, StabiliTrak is standard. It's an engineering advance designed to improve safety, stability and control on most road surfaces. And that can mean a lot in an emergency maneuver. Sensors read the position of your steering wheel, and the vehicle speed, brake pressure, lateral acceleration and turning rate, then feed the data to an onboard computer. If your Acadia is not responding adequately to your steering input, the computer adjusts the engine speed and the brake pressure to any individual wheel to help you keep on track. With sensors that are programmed to proactively predict and help counteract vehicle "tip-up" on a flat road surface, StabiliTrak can even help to mitigate a rollover.

<sup>1</sup>Call 1-888-4ONSTAR (1-888-466-7827), see your OnStar Owner's Guide and visit [onstar.com](http://onstar.com) for system limitations and details. <sup>2</sup>Success varies with conditions. <sup>3</sup>OnStar Hands-Free Calling requires a hands-free enabled vehicle, existing OnStar service contract and prepaid minute package or enrollment in America's Choice® plan with OnStar. Not available in certain markets. Calls may be made to the U.S. and Canada only on OnStar voice-recognition system, and may not work with some voices. <sup>4</sup>Navigation map only covers the 48 contiguous United States and portions of Canada, but does not cover Alaska, Hawaii, Puerto Rico or the Virgin Islands. <sup>5</sup>Always use safety belts and correct child restraints for your child's age and size. Children are safer when properly secured in a rear seat in an appropriate infant, child or booster seat. Even with a Passenger Sensing System, never place a rear-facing infant in the front seat of any vehicle equipped with an active frontal air bag. Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. See your Owner's Manual and page 28 for more information.

ACADIA STANDARD FEATURES

INTERIOR

- ▷ AM/FM stereo with MP3 compatibility and CD Player
- ▷ 6-speaker audio system
- ▷ OnStar<sup>1</sup> with one year Directions & Connections Service Plan
- ▷ Driver and right front passenger frontal air bags<sup>2</sup> with Passenger Sensing System
- ▷ Front-row side-impact air bags
- ▷ First-, second- and third-row head-curtain side-impact air bags for the outboard seating positions
- ▷ Deluxe cloth seating
- ▷ 7-passenger seating includes first-row bucket seats, second-row captain's seats and third-row 60/40 split bench
- ▷ 4-way manually adjustable driver's seat with manually adjustable lumbar support
- ▷ 2-way manually adjustable front passenger seat
- ▷ Acoustic insulation package
- ▷ Manual single-zone air conditioning
- ▷ Manual rear air conditioning
- ▷ Front overhead console with map lights
- ▷ Electric rear-window defogger
- ▷ Cargo storage under rear floor<sup>3</sup>
- ▷ Front center console with cupholders
- ▷ Color-keyed carpeting and color-keyed removable floor mats
- ▷ Power windows and door locks
- ▷ Cruise control
- ▷ Inside rearview, prismatic mirror
- ▷ Remote Keyless Entry
- ▷ PassKey III<sup>®</sup> theft-deterrent system
- ▷ Center console armrest with integrated storage compartments

Standard overhead console with map lights

EXTERIOR

- ▷ Tire pressure monitoring system (Does not monitor spare)
- ▷ Rear manual liftgate
- ▷ Dual jewel-like halogen projection headlamps
- ▷ Daytime running lamps
- ▷ Halogen fog lamps
- ▷ Front and rear intermittent window wipers
- ▷ Foldaway power-adjustable heated outside rear-view mirrors
- ▷ Chrome door handles
- ▷ Body-color bodyside moldings
- ▷ Brushed aluminum roof rail
- ▷ LED tail lamps
- ▷ Solar-Ray<sup>®</sup> deep-tinted glass
- ▷ 18-inch painted aluminum wheels
- ▷ Rear spoiler

MECHANICAL

- ▷ 3.6L V-6 VVT Engine (275HP/251 lb-ft torque)
- ▷ Double dual exhaust with chrome tips
- ▷ 4-wheel antilock brakes
- ▷ StabiliTrak stability control system with rollover mitigation
- ▷ Tilt and telescoping steering wheel
- ▷ Ride & Handling suspension system
- ▷ 6-speed electronically controlled automatic transmission with overdrive

Available rear-seat audio controls

UP-LEVEL TRIM

SLT-1 TRIM (4SA)

Includes standard features with these enhancements:

- ▷ AM/FM stereo with MP3 compatibility and in-dash 6-disc CD changer
- ▷ Rear-seat audio controls w/ headphone jacks
- ▷ Bose<sup>®</sup> premium 10-speaker system with subwoofer
- ▷ Driver information center
- ▷ Heated, leather-appointed driver and front-passenger seats
- ▷ 6-way power-adjustable driver's seat with manual lumbar support
- ▷ 2-way power-adjustable front passenger seat with manual lumbar support
- ▷ Tri-zone automatic climate control
- ▷ Leather-wrapped steering wheel with redundant audio controls
- ▷ Universal home remote
- ▷ Inside rearview mirror with auto-dimming and 8-point compass display
- ▷ Body-color, foldaway, power-adjustable, heated outside rearview mirrors with integrated turn signals
- ▷ Power steering, variable effort
- ▷ 18-inch machined aluminum wheels
- ▷ Bright beltline moldings

SLT-2 TRIM (4SB)

Includes lower trim level features with these enhancements:

- ▷ Remote Start
- ▷ Ultrasonic Rear Parking Assist
- ▷ Rear power liftgate
- ▷ XM Satellite Radio<sup>®4</sup>
- ▷ 8-way power driver's seat with power-adjustable lumbar support and memory
- ▷ 4-way power-adjustable front passenger seat with power-adjustable lumbar support
- ▷ Power windows with driver express-up/down and express-down passenger operation
- ▷ Power-adjustable, power-folding, heated outside rearview mirrors with driver's side auto-dimming and integrated turn signal indicators
- ▷ Heated windshield washer fluid
- ▷ 115V power outlet
- ▷ Cargo convenience net and shade

HEAD-UP DISPLAY

The Acadia's Head-up Display projects vital data such as speed and direction up onto the inside of the windshield, where it appears to float in front of the view ahead, reducing the need to look down at the instrument panel. Ideal for those caught up in the thrill of driving Acadia.

The weight of optional equipment, passengers, cargo and required trailering equipment will reduce the maximum trailer weight your vehicle can tow. See your dealer for details. ³Cargo and load capacity limited by weight and distribution. Secure loose items before driving. ⁴Maximum length measured at top of seatback.

# ACCESSORIES

## GMC PRO GRADE ACCESSORIES.

Whether you want to add style or functionality to your Acadia, you can count on GMC accessories for quality construction and an ideal fit. The Acadia shown below is equipped with RV022 19-inch wheels<sup>1</sup> and a hitch-mounted ski rack that holds up to five pairs of skis or a combination of four snowboards and one pair of skis. Choose from a variety of custom dealer-installed accessories designed and engineered specifically for your Acadia — and guaranteed to fit your family's lifestyle.

**RV022 SIX-SPOKE 19" CHROME<sup>1</sup>**  
Cast-chrome V-split six-spoke wheels with a lustrous finish.

**RV019 10-SPOKE 19" CHROME<sup>1</sup>**  
Cast-chrome 10-spoke wheel with a lustrous finish.

**ACADIA SLT** in Liquid Silver Metallic shown with available dealer-installed equipment.  
<sup>1</sup>Accessory wheels raise important issues about overall vehicle dynamics, performance, safety and durability. They should be used only with tires carrying GM Tire Performance Criteria (TPC) validation awarded after more than 50 on-vehicle tests.

### 1 PREMIUM ALL-WEATHER FLOOR MATS

Designed to handle the nastiest weather, these rugged all-weather mats precisely fit the floor of your Acadia. A deep-ribbed pattern collects rain, mud, snow or other debris, and nibs on the back help keep them in place. Available in ebony. Front mats feature an embossed GMC logo.

### 2 TUBULAR ASSIST STEPS

Add style and functionality to your Acadia with these high-strength stainless steel tubular assist steps. They include traction-gripping step pads on the top surfaces.

### 3 HITCH-MOUNTED BICYCLE CARRIER

Carry up to four bicycles with this sturdy carrier, which conveniently mounts into the hitch on your Acadia. It features a hand-operated tilt-down lever to allow access to the cargo area without removing the carrier or bicycles. Requires a hitch-mounted License Plate Holder.

### 4 HITCH BALL-MOUNT ASSEMBLY AND BALL

Secure your hitch-mounted accessories securely and conveniently with this ball-mount hitch assembly and ball.

### 5 ROOF RACK CARGO BOX

This hard-shell Roof Rack Cargo Box gives your Acadia even more cargo carrying capability. It mounts easily into the T-slots of the Roof-Mounted Luggage Cross Rails, which are available in a separate package. Cross rails can accommodate loads up to 250 lbs.

### 6 SUNROOF WEATHER DEFLECTOR

Make the most of your sunroof with this weather deflector. It deflects road dust and debris, and is custom molded to flow with the contours of the sunroof opening. Available in smoke.

A NOTE ON CHILD SAFETY

Always use safety belts and the correct child restraints for your child's age and size. Even with a Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle **Owner's Manual** and child safety seat instructions for more safety information.

ACADIA HAS MANY STANDARD SAFETY FEATURES, INCLUDING:

**Occupant Protection Equipment** All seats have lap and shoulder belts. Frontal dual-stage air bags for front seat occupants are included on all Acadia models. Head-curtain side-impact air bags for outboard seating positions in the first, second and third row are standard. Always use safety belts and proper child restraints. See the **Owner's Manual** for more safety information. Safety belt cinch capability for child seats and available child seat LATCH system.

**Crash-Avoidance Equipment** Includes four-wheel Antilock Brake System, Brake/Transmission Shift Interlock, automatic daytime running lamps, door warning lights or reflectors, maintenance-free battery, tires with built-in tread wear indicators, front-seat side-window defogger, windshield defroster, tinted glass windshield.

**Theft-Deterrence Equipment** Includes laser-etched VIN plate, theft-deterrent steering column lock, single-key system, remote hood release, marked body parts and PassKey III® theft deterrent.

TRAILERING WITH YOUR ACADIA

Acadia is built strong and durable to handle the demands of trailering. Certain equipment that prepares Acadia for trailering is standard: power steering, power brakes, a large fuel tank and a 170-amp alternator. For other available trailering-related equipment, talk to your dealer. You'll need a hitch ball, mounting head, and possibly weight-distributing and anti-sway assemblies; these are available through aftermarket sources. If you have any questions about trailering with an Acadia, before you buy, feel free to ask your dealer for a copy of the **GMC Trailering Guide**. Be sure to read it and use it as a guide before you hitch a trailer to your vehicle.

A WORD ABOUT THIS BROCHURE

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your GMC dealer for complete details. GMC reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times. Unless otherwise noted, all claims in this catalog are based on GM Segmentation and latest competitive information.

NEW VEHICLE LIMITED WARRANTY

All GMC light duty vehicles come with a fully transferable, no-deductible 100,000 mile or 5-year (whichever comes first) Powertrain limited warranty. GM vehicles registered in the USA are also covered bumper to bumper for three years or 36,000 miles (whichever comes first). See Bumper-to-Bumper, at right. Coverage includes tires and towing to your nearest GMC dealership. Repairs will be made to correct any vehicle defect and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for six years or 100,000 miles (whichever comes first). See dealer for details.

GM PROTECTION PLAN

The GM Protection Plan is the only vehicle service and maintenance contract endorsed by General Motors. The GM Protection Plan offers Mechanical coverage for the parts and labor costs of repairing covered vehicle components against failure—even if it results from wear and tear. Depending on the level of coverage, additional benefits may include Roadside Assistance, Alternate Transportation or Towing. The GM Protection Plan also offers basic Maintenance coverage for specific maintenance needs. Ask your dealer about the GM Protection Plan or visit [www.gmprotectionplan.com](http://www.gmprotectionplan.com) for coverage information and details.

CORROSION PROTECTION

GMC vehicles are designed and built to resist corrosion. All body and sheet metal components are warranted against rust-through corrosion for six years or 100,000 miles, whichever comes first. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your GMC dealer for terms of this limited warranty.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials, or workmanship of any alterations by such suppliers.

UPDATED SERVICE INFORMATION

GMC dealers receive useful service bulletins about GMC products. You may purchase them from Helm Incorporated by calling 1-800-551-4123 or by visiting [www.helminc.com](http://www.helminc.com).

ASSEMBLY

GMC vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce GMC vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

ENGINES

GMC products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in GMC products may also be used in other GM makes and models.

TIRE CHAINS

Tire chains should not be used because they could cause damage to your vehicle.

Or call 1-800-GMC-8782 (1-800-462-8782)

GMC recognizes the importance of mobility to everyone's life and therefore offers financial assistance to persons with disabilities through the General Motors Mobility Program. This program can provide up to \$1000 reimbursement toward the cost of aftermarket mobility adaptive equipment for drivers or passengers when installed or reinstalled on any eligible purchased or leased new GM vehicle. For details and free resource information, call 1-800-323-9935 (TTY users: 1-800-833-9935).

GMC is proud to be a partner in conservation with The Nature Conservancy, an organization dedicated to protecting the diversity of life on Earth. GMC contributes both money and trucks to support this worthwhile organization.

GMC backs your new vehicle with its no-deductible, Bumper to Bumper limited warranty. The entire vehicle is warranted for repairs, including parts and labor, to correct problems in materials or workmanship, for three years or 36,000 miles, whichever comes first (except normal maintenance). The warranty covers towing to the nearest GMC dealership, and there is no deductible for warranty repairs during the warranty period. The warranty transfers automatically with vehicle ownership during the warranty period.

GMC supports the National SAFE KIDS Campaign,® a grassroots program dedicated to promoting child passenger safety.

Qualified customers can conveniently arrange GMAC® leasing and financing right at your GMC dealership. For more information, see your dealer or call 1-800-32-SMART.

The GM Card®—What are you charging toward?<sup>SM</sup> The GM Card rewards you 5% on every credit card purchase, making it the fastest way to save toward the GM car or truck of your dreams. 2007 models. Whichever comes first. See dealer for limited warranty details.

ONSTAR

Standard OnStar<sup>1</sup> includes a one-year OnStar Directions & Connections Service Plan, including Point of Interest Lookup for over 7 million business listings and the new OnStar Turn-by-Turn Navigation System.<sup>2</sup> With a variety of services that help keep you safe when you're on the road, OnStar offers its subscribers added peace of mind. Just press the blue OnStar button

and an OnStar Advisor can send Roadside Assistance if you get a flat tire, work with local authorities and attempt to locate your vehicle if it's stolen,<sup>3</sup> and send a signal to unlock your doors if you lock your keys in the vehicle.<sup>2</sup> In certain collisions, an OnStar advisor automatically receives a signal and can call to check on you. And if you do need help, we can pinpoint your location

by satellite and contact a nearby emergency service provider. You can even make and receive voice-activated, hands-free phone calls with OnStar Hands-Free<sup>4</sup> Calling, while keeping your hands on the wheel and eyes on the road.

GMC OWNERS CENTER

A complimentary, one-stop resource to enhance your GMC ownership experience. It's easy to sign up. Just go to [www.gmc.com/owners](http://www.gmc.com/owners).

<sup>1</sup>OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription service agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit [onstar.com](http://onstar.com) for OnStar's Terms and Conditions, Privacy Policy and system limitations and details. <sup>2</sup>Turn-by-Turn Navigation requires capable hardware and antilock braking system. Only available to subscribers residing in and initiating/updating route while traveling through OnStar's contracted carriers' enhanced service capable areas. Limited routing information available for some areas. Not available in Alaska. Road, environmental and tire conditions that affect ABS or GPS may degrade service. See OnStar.com or call 1-888-4ONSTAR for details. <sup>3</sup>Remote door unlock and stolen vehicle location assistance success varies with conditions. <sup>4</sup>OnStar Hands-Free Calling requires a hands-free enabled vehicle, existing OnStar service contract and prepaid minute package or enrollment in America's Choice plan with OnStar. Not available in certain markets. Calls may be made only to the U.S. and Canada on OnStar voice recognition system, and may not work with some voices.
