# 2007 YUKON

THE 2007 YUKON LINE OF FULL-SIZE SUVs.

### ENGINEERING BEYOND THE DRAWING BOARD.

THE 2007 GMC YUKON EXPLOITS THE LATEST AUTOMOTIVE
TECHNOLOGY TO CREATE A FULL-SIZE SUV WITH EXCEPTIONAL CAPABILITIES. IT'S BORN FROM THE WORK OF
ENGINEERS WHO DO NOT WAIT FOR IDEAS TO COME TO
THEM, BUT WHO INSTEAD ACTIVELY SEEK THEM OUT AND
APPLY THEM. ADVANCED ENGINEERING ENSURES POWER
AND PERFORMANCE COMBINED WITH EXCEPTIONAL FUEL
EFFICIENCY! PRECISION-DESIGNED CHASSIS AND SUSPENSION SYSTEMS PROVIDE AGILE HANDLING MATCHED BY A
REMARKABLY SMOOTH RIDE. REFINED INTERIORS ARE BOTH
COMFORTABLE AND SPACIOUS. LOOKING BEYOND THE
DRAWING BOARD IS JUST ONE MORE WAY WE ENGINEER
TO THE HIGHEST STANDARD: PROFESSIONAL GRADE.

<sup>1</sup>Based on Yukon 2WD with Vortec® 5300 V8 (LY5) gas engine. EPA estimated mpg 16 city, 22 hwy (gasoline).

# GMC'S HIGHEST LEVEL OF ENGINEERING: YUKON DENALI.

YUKON DENALI — SETTING THE STANDARD From its smallest detail to its most dramatic technological breakthrough, the Yukon Denali features our most advanced technology and our most luxurious appointments. It has class-exclusive full-time all-wheel drive! Denali's interior is the very definition of upscale styling. It has a class-exclusive available heated steering wheel; which also features premium materials — including real wood inserts. Chrome accents create a subtle sophistication. The Yukon XL Denali is remarkably spacious, boasting the most cargo room in its class behind the first-, second- and third-row seats? Denali's exterior is equally striking, featuring styling elements ranging from its trademark honeycomb grille to sleek bodywork, chrome accents and 18-inch polished aluminum wheels.

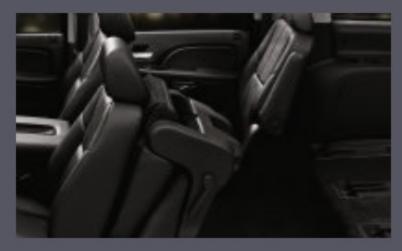

### POWER FOLD-AND-TUMBLE SECOND-ROW SEATS

Welcome to a new era in convenience. Second-row seats feature a power fold-and-tumble design (available with Yukon SLT-2 trim and standard on Yukon Denali) — an industry-exclusive design! Two buttons in the overhead console allow you to fold-and-tumble the left or right seat individually. Or you may simply push a button located on either rear-door pillar, and each seat is automatically unlatched, tumbled and folded for easier access to the third-row seat. You may then manually return them to their original position.

### YUKON/YUKON XL:

### POWER, COMFORT AND SPACIOUSNESS.

Yukon is engineered to excel in real-life conditions. Available Gen IV Vortec® 5.3L V-8 and Vortec 6.0 V-8 Engines feature such breakthrough designs as Active Fuel Management,™ which ensures that you enjoy the power you need and the optimal fuel efficiency<sup>1</sup> you want. Advanced chassis and suspension systems produce surprisingly agile handling complemented by a smooth, comfortable

# 20/REAR VIEW

### IN A VEHICLE THIS ADVANCED, EVEN REVERSE IS FORWARD THINKING.

With its available ultrasonic Rear Parking Assist and Rear View Camera (see left), Yukon offers advanced engineering inside and out. But the innovations don't end there. Remote Vehicle Start (standard on SLT and Denali and available on SLE models) allows you to start your Yukon from up to 200 feet away by simply pressing a button on the key fob—and activate either the heating or air-conditioning system before you get in. The standard OnStar® system with one-year service<sup>1</sup> includes Hands-Free Calling<sup>2</sup> voice-recognition capabilities for dialing by voice. Rain-sensing windshield wipers (available on SLT models and standard on Denali) automatically activate the wipers when precipitation is detected. And a heated windshield wiper fluid system (available on SLT models and standard on Denali) removes a thin layer of frost or ice by heating the wiper fluid to 150-175 degrees before spraying it on the windshield.

ONSTAR For 2007, Yukon offers one year of service of either DVD ENTERTAINMENT Second- and third-row passengers enjoy NAVIGATION SYSTEM\* The available DVD-based Navigation Radio the OnStar Safe & Sound Service Plan or the Directions and first-class entertainment. An 8-inch diagonal LCD screen provides provides superb audio performance and mapping capabilities. Connections Plan. In an emergency, an OnStar Advisor is there a vibrant picture. Audio transmits through wireless headphones Featuring a 6.5-inch display, touch-screen control and AM, FM and to help. OnStar can work with authorities to help locate a or the speaker system—your choice. A parental override allows the XM Satellite Radio<sup>®5</sup> (if equipped) reception, it allows you to use an stolen vehicle, unlock your car doors, allow you to make voice- driver or front passenger to mute the sound or turn off the system. activated hands-free phone calls<sup>2</sup> and more. And with Point of And DVDs load through the front audio system. Available on SLE-2, or 3-D views and provides verbal directions in your choice of

audio CD and NAV CD simultaneously. It also maps routes with 2-D English, Spanish or French. Available on SLT and Denali models.

Estandard one-year On Star features depend on vehicle production date. Check your window label or see your GMC dealer for availability and details. On Star Hands-Free enabled vehicle, existing On Star Service Contract and Pre-Paid Minute Package or enrollment in America's Choice Plan with On Star. Not available in certain markets. Calls may be made to the U.S. and Canada only. OnStar voice-recognition system may not work with some voices. 3Turn-by-Turn Navigation is only available on models with Gen 7 hardware. Check your window label or see your GMC dealer for availability and details. Requires capable hardware and antilock braking system. Only available to subscribers residing in and initiating/up dating route while traveling through On Star's contracted carriers' enhanced service. See On Star.com or call 1-888-40nStar for details. Ability to locate stolen vehicles varies with conditions. "Navigation map covers the 48 contiguous United States and portions of Canada, but does not cover Alaska, Hawaii, Puerto Rico, or the Virgin Islands. "XM is available only in the 48 contiguous United States. Service fees extra. Visit www.gm.xmradio.com for details.

Yukon 2WD models; standard with 4WD models) can run on a blend of ethanol and gasoline called E85 (because it's 85 percent ethanol and 15 percent gasoline). E85 is an alternative fuel made mostly in the United States with corn and other grain products. FlexFuel engines can run on any combination of gasoline and E85, and they're designed to automatically compensate when E85 fuel is detected. E85 fuel produces fewer carbon emissions than gasoline, while offering at least the same outstanding horsepower and torque as equivalent Vortec gasoline-only engines. E85 fuel availability varies by state. Go to www.livegreengoyellow.com to determine its availability near you.

# ACTIVE FUEL MANAGEMENT

PROFESSIONAL GRADE ENGINEERING FOR THE BEST FUEL ECONOMY IN ITS CLASS.

# Here's high-tech proof that a full-size SUV can offer outstanding performance—and remarkable gasoline fuel economy. Available Gen IV Vortec 5.3L V-8 and Vortec 6.0L V-8 Engines in Yukon 1/2-ton models (see page 29 for details) feature a technological advance called Active Fuel Management, which helps Yukon offer the best gasoline fuel economy in its class. In normal driving conditions, Active Fuel Management deactivates four of the V-8's between V-4 and V-8 operation so seamlessly that you'll never notice the transition. In testing, the system increased fuel efficiency by up to six percent. <sup>1</sup>See page 29 for complete EPA estimates and engine details.

# 380 HP VORTEC 6.2L V-8

YUKON DENALI AND YUKON XL DENALI— THE MOST AVAILABLE HORSEPOWER IN THEIR CLASS.

> VARIABLE VALVE TIMING (VVT) Yukon Denali's Vortec 6.2L V-8 uses an advanced variable valve timing system to increase performance and reduce exhaust emissions. VVT enhances torque at low rpm and increases horsepower at high rpm. VVT is also included on the Yukon XL's available Vortec 6.0L V-8 Engine.

**ELECTRONIC THROTTLE CONTROL** Yukon Vortec Engines feature an electronic throttle control system for reliability and more precise throttle response.

IRIDIUM-TIP SPARK PLUGS With their advanced design, iridium-tip spark plugs in Yukon Vortec Engines have a

> ALUMINUM HIGH-FLOW CYLINDER HEADS Yukon Denali's Vortec 6.2L V-8 uses pent-roof combustion chambers and flat-top pistons that improve air flow and enhance fuel efficiency. See page 29 for complete EPA estimates.

> > LONG-LIFE PISTONS Polymer-coated floating-pin pistons are designed to provide up to 150,000 miles of service in every Yukon Vortec Engine.1

> > > UNSTAR VEHICLE DIAGNOSTICS Unstar can email the results of hundreds of key operating-system checks, including the engine, and send reminders of scheduled maintenance, maximizing engine performance.

# 68.2/67.0" FRONT/REAR TRACK

### HOW TO TURN HYDROFORMED STEEL INTO AN EXCEPTIONALLY SMOOTH RIDE.

Yukon and Yukon Denali feature a solid chassis, advanced suspension systems and a variety of innovative features that allow them to offer surprisingly agile handling and a tight turning diameter — matched by a smooth, comfortable ride.

### COIL-OVER-SHOCK FRONT SUSPENSION

This system provides a smooth ride and precise handling and is ideally suited to perform well with the new generation of larger wheels and tires.

### SUSPENSION

PREMIUM SMOOTH RIDE (ZW7) suspension system (standard on Yukon models) provides a smooth, comfortable ride combined with precision handling. Front and rear 46mm monotube shocks with large, 14mm rods offer plush responsiveness and long-term durability. Rear suspension includes variable-rate springs to ensure a softer ride under light loads, and a more controlled ride as loads increase!

AUTORIDE™ (Z55) suspension system (standard on Yukon Denali and available on Yukon models with SLT trim) provides a refined ride and exceptional agility. Front and rear Autoride Real Time Damping shocks, complemented by an air bag-over-shock Auto Leveling System, ensure a superb ride under a variety of road and load conditions.

### RACK-AND-PINION STEERING

THE PROPERTY OF THE PARTY OF TH

Yukon models feature a rack-and-pinion system for solid, precise steering. To take advantage of the stiffness of the vehicle's frame, the steering rack mounts on the front bay's engine cross-member and provides solid, linear performance through corners.

AUTOTRAC® The superb Autotrac system (standard on Yukon 4WD models) provides seamless transitions from 2WD to 4WD. In normal conditions it operates in rear-wheel drive. When the system senses all-wheel traction is needed, it instantly increases torque to the front axle.

WWWILL I

### WIDE TRACK DESIGN

Wide track enhances overall stability and contributes to the feeling of a precise, controlled ride.

### FULLY BOXED FRAME

Higher-strength material is strategically applied in critical areas to produce an exceptionally strong, stiff frame. It also improves ride quality and noise isolation and enhances Yukon's responsive, linear handling.

### HYDROFORMED CONSTRUCTION

Hydroform construction of the front frame section utilizes water and other fluids under extremely high pressure — up to 20,000 psi — to precisely shape metal tubes into hollow structures. Hydroforming allows the wall thickness to vary as needed, resulting in the optimum combination of light weight and maximum strength.

### NEXT-GENERATION BRAKING SYSTEM

Four-wheel disc brakes complemented by a Bosch® antilock braking system and larger, vented rotors provide even greater stopping power, with an enlarged cooling area for improved performance.

### FIVE-LINK REAR SUSPENSION

Accommodates light or heavy loads while providing a plush, responsive ride. Standard on all Yukon models.

### AUTORIDE REAL-TIME DAMPING

Here's a technologically advanced system (standard on Yukon Denali and available on Yukon models with SLT trim) that responds in real time to changing driving conditions. Four two-position monotube shocks each have an internal solenoid valve and airlift/auto-leveling capability.

# 108.9/137.4 (CU FT)

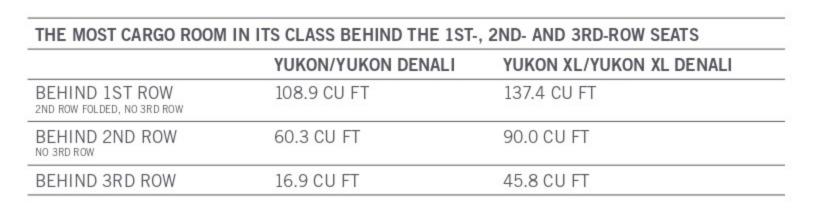

### NOT JUST MORE ROOM — EASIER ACCESS TO IT.

Yukon and Yukon Denali are renowned for their cargo-carrying capabilities,1 and the 2007 models are designed to enhance that reputation. There's abundant cargo volume behind the front-row seats in the Yukon and Yukon Denali. So not only can you carry a long vacation's worth of equipment, in the Yukon XL and Yukon XL Denali you can even carry 4x8 sheets of plywood by simply folding the third-row seats flat and folding the second-row seats.

ONE-TOUCH OPERATION Available with SLT trim and standard on Yukon Denali, the power liftgate is a breakthrough in convenience. If you're inside the vehicle, use a switch in the overhead console to open or close it. If you're outside the vehicle, you may use another control button, located on the inside of the liftgate, to close it. Or use the key fob (see above). For safety's sake, a built-in sensor helps stop the gate's attempt to open or close if it encounters resistance.

### ADVANCED ENGINEERING FOR A FIVE-STAR FRONT CRASH TEST RATING.

With an array of standard safety features, every Yukon model is engineered to provide impressive protection for driver and passengers, and enhanced driver control. Its wide front and rear tracks, for example, increase stability. And its body-on-frame configuration and solid body structure are designed to provide enhanced frontal, off-set and rollover crash performance. The result? A vehicle that puts you confidently in command.

and a second of the later of th

### STABILITRAK STABILITY CONTROL SYSTEM

StabiliTrak, standard on all Yukon 1/2-ton models, is an engineering advance that improves safety, stability and control on all road surfaces—and it's especially valuable during emergency maneuvers. Sensors read the position of your steering wheel, vehicle speed, brake pressure, lateral acceleration and turning rate, then feed the data to an onboard computer. If your Yukon is not responding adequately to your steering input, the computer instantly adjusts engine speed and brake pressure to any individual wheel to help keep you on track. Rollover mitigation capabilities are also provided, with the sensors programmed to proactively predict and help counteract vehicle "tip-up" on a flat road surface.

# FRONT AND SIDE AIR BAGS

### ★ ★ ★ ★ ★ FRONT CRASH TEST RATING¹

All Yukon and Yukon Denali models received a NHTSA 5-star rating for the Frontal Crash Test for both the driver and right front passenger. This is the highest government frontal crash test rating. Every Yukon model features dual-stage frontal air bags?

### ONSTAR®2

All Yukon models feature one-year OnStar service as standard equipment. OnStar's Hands-Free Calling and Turn-by-Turn audio navigation help you avoid accidents by keeping your eyes on the road and your hands on the wheel. See page 33 for details.

### PASSENGER SENSING SYSTEM

The front passenger air bag features a passenger sensing system. It uses a sensor within the front passenger seat to detect the weight of the occupant. Under a certain weight, the system automatically turns off the air bag.

### HEAD-CURTAIN SIDE-IMPACT AIR BAGS<sup>3</sup>

A head-curtain side-impact air bag system functions like a protective curtain, unfolding from the roof rail. A large air bag on each side protects outboard firstand second-row passengers, while a dedicated air bag on each side protects the third row. The headcurtain side-impact air bags are activated by sideimpact sensors as well as rollover sensors.

### TIRE PRESSURE MONITORING SYSTEM

This advanced system keeps track of tire pressure and alerts you to low pressure through the Driver Information Center — indicating exactly which tire is low. The system also sends a message regarding tire pressure each time you start the vehicle, and alerts you anytime pressure is low. Does not monitor spare.

### ENHANCED SAFETY CAGE DESIGN

An A-pillar reinforcement of high-strength steel, complemented by steel reinforcements in the roof rail, contributes to rollover performance. A highstrength steel diagonal brace under the driver and passenger toepan is designed to manage higher loads during frontal impacts.

rating for the driver and front passenger in the Frontal Crash Test. U.S. Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). 2Standard one-year OnStar includes either OnStar Safe & Sound Service Plan or the Directions and Connections which includes the new Turn-by-Turn Navigation system. Turn-by-Turn Navigation is available only on models with Gen 7 hardware. See your window label or your GMC dealer for availability and details. Features depend on vehicle production date. See page 33 or visit onstar.com for system limitations and details.

Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct child restraints for your child's age and size. Even in vehicles equipped with air bags, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your Owner's Manual and child safety seat instructions for more safety information.

### YUKON STANDARD FEATURES

YUKON XL

XTERIOR	•	Color-keyed mirrors, door handles and body side molding	-
		Dual balance basellance	-

- Dual halogen headlamps
- Heated, power, color-keyed outside rearview mirrors
- Intermittent front and rear wipers

- Monochromatic front and rear fascias
- Rooftop luggage rails (black)

Driver Information Center

Dual-zone air conditioning

Auxiliary rear air conditioning

8-speaker system

Recovery hooks (standard with 4WD models)

AM/FM stereo with MP3-compatible CD player, including

seek-and-scan, digital clock, auto-tone control, speed

Electrochromic, auto-dimming rearview mirror with

compensated volume, Theftlock® and Radio Data System

- 17-inch aluminum wheels
- P265/70R17 all-season blackwall tires

### INTERIOR Front-row seating: 3-passenger split bench with

Custom Cloth

MECHANICAL

- Second-row seating: 3-passenger split bench with Custom Cloth
- Third-row seating: 2-passenger split bench (available with Yukon, standard with Yukon XL)
- Dual-stage frontal air bags<sup>1</sup>

Coil-over-shock front suspension

Heavy-duty locking rear differential

Heavy-duty trailer-hitch platform

Multilink rear suspension

Power steering

- Tire pressure monitoring system (does not monitor spare)
- OnStar<sup>2</sup> (With one-year Service Plan. See page 33 for details.)
- temperature readout and compass
  - Premium, smooth ride suspension
- StabiliTrak
- Four-wheel disc brakes with four-wheel antilock braking system
- Four-speed, electronically controlled automatic transmission

- Full-size spare tire

### Floormats (color-keyed front- and second-row)

- Overhead console, including map lights and rear-seat HVAC controls
- Power programmable door locks with lockout protection
- Electronic cruise control
- Power windows with driver express-down and lockout
- Steering-wheel-mounted controls
- Tilt steering column
- 12-volt auxiliary power outlets
- Two-speed Autotrac transfer case with push-button controls (standard with 4WD models)
- Delco® Freedom® battery, 600 CCA
- 160-amp alternator (Yukon XL 3/4-ton: 145-amp)

2 Your vehicle may require additional special equipment to tow the maximum trailer weight listed here. Maximum trailer weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See the GMC Trailering Guide for details. Trailer tongue weight should be 10%—15% of total loaded trailer weight (up to 1,000 lbs). Addition of trailering Guide for more details. 3When properly equipped; includes weight of vehicle, passengers, cargo and equipment. 4Cargo and load capacity limited by weight and distribution. Secure loose items before driving.

# ACCESSORIES

### GMC PRO GRADE ACCESSORIES

GMC genuine dealer-installed Pro Grade accessories enhance your Yukon's style and functionality. The Yukon shown above is outfitted with six-spoke 20" chrome wheels, chrome tow hooks, a smoke-colored molded hood protector, side-window weather deflectors and roof cross rails.

### CK951 FIVE-SPOKE 20" CHROME<sup>1</sup>

Featuring a lustrous chrome finish, with a choice of matching GMC logo center caps and chrome lug nuts.

### CK948 SIX-SPOKE 20" CHROME1

Featuring a lustrous chrome finish, with a choice of matching GMC logo center caps and chrome lug nuts.

### CK945 12-SPOKE 20" CHROME

Featuring a lustrous chrome finish, with a choice of matching GMC logo center caps and chrome lug nuts.

### CK366 SIX TRI-SPOKE 22" CHROME<sup>1</sup>

With a lustrous chrome finish, these large-diameter wheels feature chrome lug nuts and a GMC center cap. Only available on Denali models.

### MOLDED SPLASH GUARDS

Black, custom-molded splash guards fit directly behind the wheels. Rear guards feature the GMC logo. Yukon Denali guards are color-keyed without the GMC logo.

The Yukon at right is equipped with dealer-installed cross rails and a hard cargo carrier. The cross rails attach to the factory roof rack and utilize industry-standard T-slot attachments for mounting accessories. Available in black or bright finish. The hard cargo carrier, manufactured by Thule, attaches to production or accessory cross rails. It's lockable, impact/UV resistant, and opens at the side.

### TAIL LAMP GUARDS

add style while protecting the lenses. Also available in black.

INTEGRATED CROSS RAILS AND CARGO CARRIER

### TUBULAR OVAL ASSIST STEPS

Stainless steel/chrome tail lamp guards Stainless steel steps with chrome plating A magnetic-release mechanism allows The color-keyed fascia extension frames A DVD system mounted in back of the front and textured polymer step pads assist with the chrome fuel door to maintain a sleek, stepping in or out.

### CHROME FUEL DOOR

flush fit.

### FRONT FASCIA EXTENSION

the grille and features a chrome lower accent. Available in select colors.

### INTEGRATED DVD

head restraint and wireless headphones give rear-seat passengers personal entertainment.

### HITCH-MOUNTED BIKE CARRIER<sup>2</sup>

Holds up to four bikes. A tilt-down lever allows access to the cargo area without removing the carrier.

### HITCH-MOUNTED SKI CARRIER3

Holds six pairs of skis or four snowboards. Tilt-down lever to access the cargo area stuff organized, this cargo management without removing carrier.

### CARGO MANAGEMENT SYSTEM

With plenty of compartments to keep your system is built for rugged durability.

### REAR FASCIA CLOSEOUT

hitch receiver when not in use. Available in select body colors. Not available for select body colors. Yukon Denali or Yukon XL Denali.

### MOLDED HOOD PROTECTOR

This custom-molded cover hides the trailer 
The best way to help deflect debris and insects. Available in smoke, chrome and

#### A NOTE ON CHILD SAFETY

Always use safety belts and the correct child restraints for your child's age and size. Even in vehicles equipped with Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle **Owner's** Manual and child safety seat instructions for more safety information.

### YUKON HAS MANY STANDARD SAFETY FEATURES, INCLUDING:

Occupant Protection Equipment: All seats except third-row middle seat feature lap and shoulder belts. Frontal dual-stage air bags and side-impact air bags for outboard front-seat occupants are included on all Yukon models. Always use safety belts and proper child restraints. See the **Owner's Manual** for more safety information. Safety belt cinch capability for child seats. <u>Crash-Avoidance Equipment</u>: Includes four-wheel antilock brake system, Brake/Transmission Shift Interlock, automatic daytime running lamps, door warning lights or reflectors, maintenance-free battery, tires with built-in tread wear indicators, audible brake lining wear indicators, front-seat side-window defogger, windshield defroster, tinted glass windshield. Theft-Deterrence Equipment: Includes laser-etched VIN plate, theft-deterrent steering column lock, single-key system, hood release, marked body parts and PassLock® theft deterrent system.

#### TRAILERING WITH YOUR YUKON

Yukon is built strong and durable to handle the demands of trailering. Certain equipment that prepares Yukon for trailering is standard on every Yukon: power steering, power brakes, seven-wire trailering harness, a large fuel tank, a 160-amp alternator (145-amp on 3/4-ton models) and a front stabilizer bar. Also required and available (some items are standard on certain models) are special transmission oil and engine oil coolers. For other available trailering-related equipment, talk to your dealer. You'll need a hitch, of course, and a selection of hitch types is available, either as factory-installed equipment, such as an available step bumper, or from your dealer. Also required with this package are a hitch ball, mounting head or drawbar and, possibly, weightdistributing and anti-sway assemblies; these are available through aftermarket sources. If you have any questions about trailering with a Yukon, before you buy, feel free to ask your dealer for a copy of the **GMC Trailering Guide**. Be sure to read it and use it as a guide before you hitch a trailer to your SUV.

### OFF-ROADING WITH YOUR FOUR-WHEEL-DRIVE YUKON

When you go off-road, you should take care to make sure your driving is appropriate to the vehicle and the environment. Be sure to read "Off-Roading With Your Four-Wheel-Drive Vehicle" in the 2007 GMC Yukon **Owner's Manual**. Avoid sharp turns and abrupt maneuvers. Failure to operate vehicle correctly off-road could result in loss of vehicle control or vehicle rollover. When you are off-road, make sure that all cargo is properly loaded and secured. Use boxes to organize cargo and use nets and tie-downs to secure it. Wherever possible, use established trails, roads and other areas that have been set aside for public off-road recreational driving. And obey posted regulations. Don't drive on private property without the permission of the owner; in some states, you must have it in writing. Avoid any driving practice that could harm the environment or hurt wildlife, like wheel-spinning, breaking down trees, driving through streams or driving over soft ground. And never park your vehicle over dry grass or other materials that could catch fire from the heat of the vehicle's **ENGINES** 

### A WORD ABOUT THIS BROCHURE

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials

provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your GMC dealer for complete details. Competitive comparison claims are based on most current competitive information, either 2006 or 2007 vehicles. GMC reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

### NEW VEHICLE LIMITED WARRANTY

This warranty is for GM vehicles registered in the USA. See your GMC dealer for terms

### Covered for 3 years/36,000 miles (whichever comes first):

 The complete vehicle
 Tires
 Towing to your nearest GMC dealership
 Cosmetic corrosion resulting from defects • Repairs made to correct any vehicle defect • No charge for most warranty repairs

### Covered for 6 years/100,000 miles (whichever comes first):

Rust-through corrosion

### CORROSION PROTECTION

GMC vehicles are designed and built to resist corrosion. All body and sheet metal components carry a limited warranty against rust-through corrosion for six years or 100,000 miles, whichever comes first. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your GMC dealer for terms of this limited warranty.

### AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials, or workmanship of any alterations by such suppliers.

### UPDATED SERVICE INFORMATION

GMC dealers receive useful service bulletins about GMC products. You may purchase them from Helm Incorporated by calling 1-800-551-4123 or by visiting www.helminc.com.

### ASSEMBLY

GMC vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce GMC vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

GMC products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in GMC products may also be used in other GM makes and models.

### TIRE CHAINS

If your Yukon or Yukon XL has P265/75R16 size tires, tire chains should not be used because they could cause damage to your SUV.

**EMOBILITY** GMC recognizes the importance of mobility to everyone's life and therefore offers financial assistance to persons with disabilities through the General Motors Mobility Program. This program can provide up to \$1,000 reimbursement toward the cost of aftermarket mobility adaptive equipment for drivers or passengers when installed or reinstalled on any eligible purchased or leased new GM vehicle. For details and free resource information, call 1-800-323-9935 (TTY users: 1-800-833-9935).

The GMC is proud to be a partner in conservation with The Nature Conservancy. Conservancy, an organization dedicated to protecting the diversity of life on Earth, GMC contributes both money and trucks to support this worthwhile organization.

GMC backs your new vehicle with its no-deductible, Bumper to Bumper limited warranty. The entire vehicle is warranted for repairs, including parts and labor, to correct problems in materials or workmanship, for three years or 36,000 miles, whichever comes first (except normal maintenance). Diesel engines are covered up to five years or 100,000 miles, whichever comes first (a deductible applies after three years/36,000 miles). The warranty covers towing to the nearest GMC dealership, and there is no deductible for warranty repairs during the warranty period. The warranty transfers automatically with vehicle ownership during the warranty period. All body and sheet metal components are warranted against rust-through corrosion for six years or 100,000 miles, whichever comes first. GMCs are designed and built to resist corrosion. Application of additional rustinhibiting materials is not required, and none is recommended. See your GMC dealer for terms and conditions of these limited warranties.

GMC supports the National SAFE KIDS Campaign,® a grassroots program dedicated to promoting child passenger safety.

GMAC Qualified approved customers can conveniently arrange GMAC® leasing and financing right at your GMC dealership. For more information, see your dealer or call 1-800-32-SMART.

The GM Card<sup>®</sup>—What are you charging toward?<sup>SM</sup> The GM Card rewards you 5% on every credit card purchase, making it the fastest way to save toward the GM car, SUV or truck of your dreams. ### A PROFESSIONAL IS **ALWAYS THERE TO HELP.**

ONSTAR

Every Yukon model includes one year of either the OnStar Safe & Sound Service Plan or the Directions & Connections Plan; which includes all of the Safe & Sound services as well as Point Interest lookup for over 7 million business listings and the new OnStar Turn-by-Turn Navigation System? With a variety of services that help keep you safe when you're on the road, the OnStar Safe & Sound Service Plan offers its subscribers added peace of mind. Just press the blue OnStar button and an OnStar Advisor can answer your call. A highly trained OnStar Advisor can contact Roadside Assistance if you get a flat tire, attempt to work with local authorities to locate your vehicle if it's stolen and send a signal to unlock your doors if you lock your keys in the vehicle. On Star Advisors can call to find out if you need help when your air bags deploy. And if you do need help, they can summon Police, Fire or Rescue to your precise location. You can even make and receive voice-activated, hands-free calls with OnStar Hands-Free Calling4 and receive monthly diagnostic report emails from your vehicle with OnStar United Vehicle Diagnostics.

Standard one-year OnStar features depend on vehicle production date. Subscription Service Agreement required. OnStar services require vehicle electrical system, wireless service and satellite technologies to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Call 1-888-40NSTAR (1-888-466-7827), see your OnStar Owner's Guide or visit onstar.com for system limitations and details. \*Turn-by-Turn Navigation only available on Yukons equipped with Generation 7 hardware. Check your window label for availability. Requires capable hardware and antilock braking system. Only available to subscribers residing in and initiating/updating route while traveling through OnStar's contracted carriers' enhanced service capable areas. Limited routing information available for some areas. Not available in Alaska. Road, environmental and tire conditions that affect ABS or GPS may degrade service. See OnStar.com or call 1-888-40nStar for details. Ability to locate stolen vehicles varies with conditions. \*Remote door unlock and stolen vehicle location." assistance success varies with conditions. OnStar Hands-Free Calling requires a hands-free enabled vehicle, existing OnStar service contract and prepaid minute package or enrollment in America's Choice plan with OnStar. Not available in certain markets. Calls may be only on OnStar voice recognition system. May not work with some voices.

WE ARE PROFESSIONAL GRADE.®
