

A close-up, low-angle shot of the rear side of a silver Infiniti EX. The car's sleek lines, including the rear door handle and the C-pillar, are highlighted by warm, golden light. The background is a soft, hazy orange-yellow, with several autumn leaves floating in the air, creating a serene and elegant atmosphere.

INFINITI

EX

When form follows emotion,

Luxury becomes a vibrant expression of your personality. Style becomes the personal extension of your feelings.

Your personal reward.

A wide-angle, rear-facing view of the interior of a Volvo EX35 AWD Journey. The image captures the front and second rows of the vehicle. The front seats are upholstered in dark leather with visible stitching. The center console features a gear shifter and handbrake. The dashboard and infotainment system are visible in the background. The windows show a snowy landscape with birch trees. The overall atmosphere is clean, modern, and spacious.

Space is made yours  
by intimate gestures.

*The matchless elegance of materials, texture, and touch provides the essential connection between your environment and your emotions.*

*An atmosphere invigorated by the dynamic flair of inspired design.*

Introducing the all-new **Infiniti EX**  
Luxury has never been more personal.

*The Infiniti EX forges a personal connection between machine and mood.*

Just as every season has a feel where colors seem more personal, so too does the EX. Through season-inspired exterior and interior color combinations, a literal transformation takes place. The feel of the light changes, the contrasts emit a more distinct energy than before. This personalized touch reflects the essential connection between your personal and natural environment, making your vehicle feel more resonant and alive.

THE SEASONS:  
*transformed by nature, captured by design.*

Take the winter combination, for example. The clean white and black provide an intense, yet calming, contrast between the elements and the warm, inviting interior. Finding that warmth—or the vibrant, soothing colors of spring's renewal or summer's sensuality—helps define your connection to your EX, capturing a remarkable bond between natural beauty and fully realized design.

## inviting interior

*It's space turned into sanctuary.*

Exhale. Exhilarate. It all becomes immediately clear the minute you step inside. The Infiniti EX is different. With its personal touches, it seems created to provide a seductively luxurious space that is at once relaxing and invigorating. Smooth materials deliver a texture that organically feels like nothing else. The artistic use of colors creates a unique, peaceful atmosphere. Sweeping contours combine modern and classic influences to craft the perfect fit. Yet even at its most inviting, it still crackles with energy through bold instrumentation and the double curve of the dash, which add visual intensity to the sumptuous setting. It delivers luxury that feels personalized, like it awaits your arrival. Blending the impressively humanistic with the impossibly beautiful, the EX delivers the extraordinary in its interior design.

make parking easy

*Around View Monitor<sup>1</sup> lets you see what's around you.*

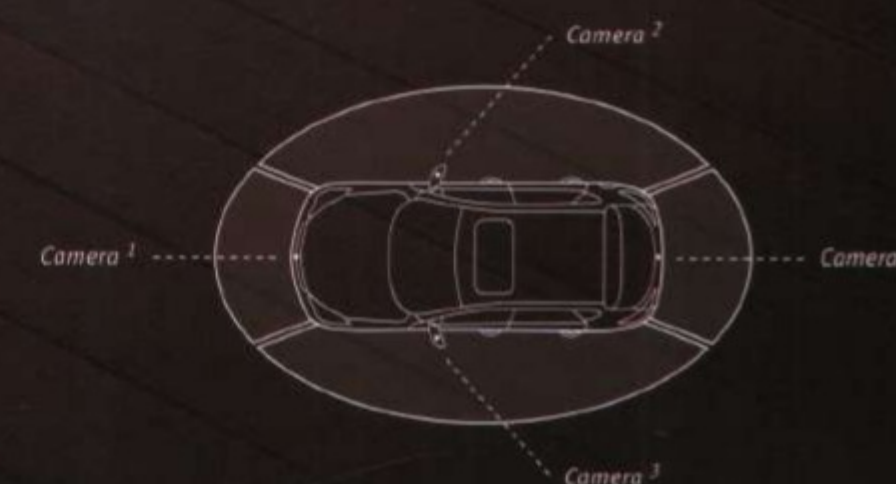

The industry's first Around View Monitor<sup>1</sup> delivers advanced, yet intuitive, technology that makes parking the EX easier and nearly stress-free. At parking speed, your central dashboard display gives you an overhead view of other cars and objects by processing images from four cameras positioned around the EX. So you can feel confident about the space you have to maneuver when parking.

Four cameras to focus on the right fit.

The perfect combination of innovation and ease-of-use, the Around View Monitor is a visual tool that delivers peace of mind and the first parking aid designed to gauge your own space.

<sup>1</sup> For the vehicles sold in CT, available Around View Monitor is only operable while the vehicle is in reverse. The available Around View Monitor is a parking aid and cannot completely eliminate blind spots or warn of moving objects. Always check your surroundings before moving the vehicle.

Images depicted are not representative of what is shown on the display unit.

## connect through music

*You can practically feel the shape of the sound coming from the available  
11-speaker Bose® premium audio system.*

With 24-bit Burr-Brown DAC enhancing the clarity, standard XM® Satellite Radio<sup>1</sup> delivering the variety, and the available 9.3GB Music Box hard drive reflecting your own music library, you'll quickly appreciate how personal your music system will feel. And how connected you've become to your EX.

The EX's sense of personalized design is on display with the pure exhilaration of the Bose® sound system. Turning your sanctuary into a sonic haven, the output of 11 carefully calibrated speakers gives music an almost physical quality, keeping out the noise of the outside world while locking in the perfect pitch of your drive. You feel every note, every riff, every chorus.

<sup>1</sup> XM® Satellite Radio requires XM subscription sold separately after first three trial months. All fees and programming subject to change. Subscriptions subject to Customer Agreement available at [xmradio.com](http://xmradio.com). XM service only available in the 48 contiguous United States and Canada. The XM name is a registered trademark of XM Satellite Radio Inc.

*Illumination greets your arrival with a warm sense of hospitality.*

Light inspires the Infiniti design sensibility. Its incandescence is used to evoke a passionate response. Its brilliance resonates. Its warmth welcomes. On an exterior, light seems to pulsate, gliding over smooth surfaces while pooling on curves. This intensity provides an expressive, emotional counterpoint to the hospitable, inviting illumination in the interior.

INSIDE DESIGN:

*The Warmth of the Welcome Light*

Infiniti designers use various light sources throughout the cabin to draw you in, to enhance your personal connection between you and the space. This warm glow gives life to the vehicle, imparting the sensation of comfort, luxury and modernity, while generating passion for the drive ahead. It is light designed to both illuminate your vehicle and your sense of well-being.

## an illuminating presence

*Eight exterior and interior lights illuminate automatically as you approach,  
welcoming you back to a warm, secure environment.*

1

› You approach your parked EX.

2

› At three feet away, the EX automatically senses your Intelligent Key.

3

› Select interior and exterior lights illuminate, giving your vehicle, and your approach, an inviting glow.

4

› Design is utilized to provide warmth—and peace of mind.

FRONT 50/50 REAR

## more confident traction

*Intelligent All-Wheel Drive adapts to changing weather to provide traction when you need it.*

Simply put, Intelligent All-Wheel Drive for the Infiniti EX was designed to be one of the most advanced all-wheel drive systems on the planet. Constantly monitoring wheelspin, throttle position and vehicle speed, the infinitely variable torque split can automatically divert up to 50% of available power to the front wheels, giving you 4-wheel traction control when road conditions are less than optimal, then returning seamlessly to a more performance-oriented ratio when conditions improve. Active Brake Limited Slip can further distribute the torque from side to side, if necessary. And since the electromagnetic clutch can divert up to 100% of the power to the rear wheels, Intelligent AWD doesn't soften the crisp responsiveness of the handling of your EX.

Intelligent All-Wheel Drive is just another way that design creates a more confident and enriching driving experience.

FRONT 40/60 REAR

01

Drift begins, lane departure sensors gauge speed and distance from the road lines to help minimize false alarms.

02

Sensors activate the warning alarm while lightly applying the brakes to ease the EX back.

## stay within the lines

*Technology that senses when the vehicle begins to drift out of your lane, adjusts the braking accordingly, and guides your car back in.*

What this means: When you turn the system on, sensors gauge your distance from the lane markers and lightly applies selected brakes to ease your vehicle back into the proper lane when necessary. Yet it's engineered to minimize false alarms, and allows for unimpeded lane changes when you signal. What it doesn't mean: you cede control. It's an aid, not an override that you can turn off at the flick of a switch.

03

The EX returns toward the center of the intended lane.

Enhancing the Lane Departure Warning system's audible alerts, Lane Departure Prevention<sup>1</sup> senses unwanted and potentially dangerous drift between lanes on highway driving and automatically compensates to ease your car back between the lines.

<sup>1</sup> The Lane Departure Warning/Lane Departure Prevention systems operate above approximately 45 mph and only when the lane markings are clearly visible on the road. They will not prevent loss of control.

## celebrate acceleration

*Performance as exhilarating as the Infiniti EX is beautiful.*

As brilliant as the intimate touches and luxury appointments found in the EX crossover are, they will never overwhelm the pure joy of driving it. Behind the seductive stance of the EX is a vehicle with a truly impressive performance profile. Its 297-hp V6 engine produces a powerful response. Yet the punch never seems less than refined, as advanced handling dynamics and superior turning radius<sup>1</sup> provide an effortless touch to top-flight performance.

When you consider the beautiful strength of the EX alongside its impressive luxury, it's easy to see how this makes it a perfect touring vehicle for you and the people in your life. Giving you a sense of exhilaration by leaving you with the pure joy of driving it.

<sup>1</sup> 2008 Infiniti EX35 AWD Journey vs. 2008 competitors: Acura RDX, BMW X3, Lincoln MKX, Land Rover LR2.

EX35 Journey shown with Premium and Luxe Style Packages.

The commitment to crafting the perfect fit extends throughout the Infiniti EX. Beyond assertive statements like the lavish materials that define the essence of luxury, Infiniti designers incorporated subtle genius into more intimate gestures. These small, thoughtful gestures enhance the overall character of the vehicle. This comprehensive belief in total design is best exemplified in the painstaking craftsmanship of the kimono-inspired seating.

DESIGN INSPIRATION:

*Kimono-inspired front seats*

Inspired by the legendary hand-stitched robes of Japan, these seats feel contoured, seemingly tailored to fit the driver and passenger. The graceful curve of the stitching at the back of the seat mirrors the elegant curvature of the back of a kimono, while the upper bolsters of the front seats wrap gently around the shoulders of those sitting in them. In these small, vital touches, design gives shape to the personal.

*"Seduction...is more of an indirect expression that doesn't give everything away. Rather it evokes a strong feeling to want to see more."*

— Koji Nagano  
Project Design Director, Infiniti Design

### Perfectly Crafted Front Seats

With signature elements of luxury and innovation, the Infiniti EX's driver and front-passenger seats are a showcase of form, function and fulfillment. With textured, supple leather, fluid bolsters that seem to drape over the shoulders and customized settings available, Infiniti raises the standard of seating comfort.

**Black Lacquer and Aluminum Trim** A showcase of the designer's hand, the black lacquer on the center stack is a sleek, dramatic counterpoint to the textured look of the bold aluminum trim.

**Textured Leather** Putting your own touch on your EX, the available textured leather in the Luxe Elite Package is a supple tactile enhancement to your interior sanctuary.

**Wood Trim** Available genuine maple wood trim provides a perfect complement to the dynamic interior by adding a sense of warmth and sensual richness to an already luxurious design.

**Headrest-mounted Retractable Coat Hanger** In ways large and small, the personal touch is found throughout the Infiniti EX, including the available headrest-mounted retractable coat hanger. Located on the back of the driver's seat, it provides a smart, innovative way to place dry cleaning or your jacket without blocking your view.

**Power Heated Front Seats with Driver's Memory** Personalize your perfect fit through the available Driver's Memory which automatically adjusts the driver's seat to your preferred settings. For additional comfort, both front seats are equipped with an available power heating function that warms them at the touch of a button.

**60/40-Split Power Folding 2nd-Row Seats** For transportation of oversized objects, either one or both of the rear seats fold down flat. A press of an easily accessible button powers the seats back to their upright position with this optional system.

**Personalized Comfort and Control** The EX has scores of features that allow you to tailor-fit your settings so you can have a perfect feel for your drive. An available memory system that can be pre-programmed for two different drivers, so the driver's seat, steering wheel and outside mirrors can set to their preferred positions at the touch of a button. And if the driver moves their seat in any way, the outside mirrors and steering wheel adjust automatically to maintain the proportional distance between them. Finally, the available power tilt and telescoping steering wheel adjusts easily to give the driver the right height and feel for their driving style.

**Dual Zone Automatic Temperature Control (ATC)** Inside the cabin of the EX, climates can fluctuate from one seat to the next, catering to the individual whims of each front-seat passenger. The available dual-zone system can allow the driver and passengers to select their own preferred temperature, or they can be pre-set automatically.

**Electroluminescent Gauges** There is no detail too small to inspire our designers. The electroluminescent gauges on the EX provide a soothing glow while delivering accurate, stylish information.

## TECHNOLOGY

*Intuitive thinking that enlightens, entertains and empowers.*

**Intelligent Cruise Control (ICC)<sup>1</sup>** Set your speed and computerized laser-based sensors and a digital rangefinder detect vehicles ahead and maintain your selected following distance. Even with the available ICC turned off, the lasers continue to monitor your distance and work with the vehicle's preview braking system to help you stop faster in an emergency situation.

**Intelligent Key with Push Button Ignition** Without being removed from your pocket or purse, the Intelligent Key communicates with the Infiniti EX as you approach, signaling the vehicle to unlock your door or trunk when you touch the sensor. Once inside, the Intelligent Key lets you start the engine with a touch of the Push Button Ignition, then signals the seat, steering wheel and mirrors to adjust to your personalized memory settings.

**RearView Monitor<sup>2</sup> and Front and Rear Parking Systems** With these separate features, when you engage reverse, a discreet color camera mounted on the rear of the vehicle reveals obstacles directly behind you via your Vehicle Information System monitor. Onscreen guidelines showing your intended path move along with steering input.

**Infiniti Controller** Effortlessly communicate with your EX through the controller. With simple instructions and the push of a few buttons, you have complete control over vehicle information and navigation systems. With clear buttons that let you jump to major systems and a secondary set of controls that control audio, and climate, the system is clean, intuitive and keeps you in control.

**Bluetooth<sup>®</sup> Hands-Free Phone System<sup>3</sup>** This available technology seamlessly links your compatible cell phone to the Infiniti EX's onboard computer system the moment you enter the vehicle. Access phone numbers, answer and make calls through the vehicle's audio system. All without taking your hands off the wheel.

**XM<sup>®</sup> Satellite Radio<sup>4</sup>** Leave the state, leave the time zone, without leaving your channel. Standard XM<sup>®</sup> Satellite Radio lets you enjoy digital-quality sound in a variety of formats such as sports, jazz and rock. And it comes fully integrated into the EX.

**Interface System for iPod<sup>®</sup>** Just plug in your iPod to play your favorite songs through your available Bose<sup>®</sup> premium audio system in this easy-to-use interface. Located in the center armrest, this available feature includes a connector and syncs up with your monitor to show your playlist and song options.

**Infiniti Hard Drive Navigation System<sup>5</sup> with 3-D Graphics and Lane Guidance** This available touch-screen system pinpoints your destination and gives directions that are actively calculated based on your present, not preset, location. Miss a turn and it recalculates to get you back on track. It can guide you with easy-to-follow Birdview™ 3-D graphics as well as with verbal directions. This next-generation system calculates your route even faster, features more accurate graphics and is designed for easier use, letting you input your destination via Infiniti Voice Recognition.

**XM NavTraffic<sup>®</sup> with Real-Time Traffic Information<sup>6</sup>** With available XM NavTraffic, enjoy live, real-time information displaying traffic flow, roadwork and accidents, so you can plan the right route. With easy-to-read incident icons that indicate specific traffic events and hazards up ahead and suggested alternate routes to best avoid delays, it's an invaluable resource.

**Infiniti Voice Recognition** This available system recognizes the natural inflections of your voice and lets you control audio and climate settings, cell phone functions with the vehicle's Bluetooth<sup>®</sup> Hands-Free Phone System, and many functions of the Infiniti Hard Drive Navigation System. All without moving your eyes from the road, or your hands from the wheel.

<sup>1</sup> Optional Intelligent Cruise Control is not a collision avoidance or warning device. For highway use only and not intended for congested areas or city driving. The system will not brake automatically to a stop. Failure to apply the brakes could result in an accident.

<sup>2</sup> The RearView Monitor is a convenience but is not a substitute for proper backing procedures. Always turn and check that it is safe to do so before backing up. The RearView Monitor may not detect every object behind you.

<sup>3</sup> Factory-installed option. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. Infiniti Hard Drive Navigation System may be INOPERABLE in some areas. It is operational in the United States and Canada.

<sup>4</sup> Required XM radio and XM NavTraffic monthly subscriptions sold separately after trial period. Installation costs and other fees and taxes may apply, including a one-time activation fee. XM NavTraffic only available in select markets. Subscription fee is consumer only. All fees and programming subject to change. Subscriptions subject to Customer Agreement available at xmradio.com. XM service only available in the 48 contiguous United States and Canada. The XM name and XM NavTraffic are registered trademarks of XM Satellite Radio Inc. ©2007 XM Satellite Radio Inc. All rights reserved. All other trademarks are the property of their respective owners.

<sup>5</sup> Requires compatible cellular phone.

## Adaptive Front lighting System (AFS)

Based on vehicle speed and steering angle, this available system can pivot the EX's xenon headlights up to 15 degrees to the right and 17 degrees to the left to better illuminate curves.

**Seat Belt Pretensioners** Help tighten the front seat belts in certain frontal collisions, while load limiters are designed to "give" a little, helping reduce belt-force load transmitted to front occupants. All rear-seat passengers, including those in the center, are secured by 3-point seat belts.

**Active Head Restraints (AHR)** In certain rear-end collisions, front Active Head Restraints move upward and forward to help cushion the head, and to help assist in reducing whiplash-type injuries.

**LED Taillights** Lighting faster than conventional taillights, they give drivers behind you a quicker indication of your braking.

**Zone Body Construction** A reinforced steel-ribbed structure helps maintain the integrity of the passenger compartment, while front and rear crumple zones help absorb and redirect crash energy.

**Brake Assist** In emergency braking situations, many drivers don't brake hard enough, soon enough. Brake Assist monitors how you apply the brakes and, sensing emergency braking, applies maximum brake force for potentially shorter stops.

**Brake Assist with Preview<sup>1</sup>** Employing the vehicle's Intelligent Cruise Control<sup>2</sup> sensors to detect vehicles ahead, if this available system senses rapidly closing distances to vehicles in the same lane, it automatically pre-pressurizes the braking system in anticipation of emergency braking, potentially improving the braking system's response to sudden driver input.

**Infiniti Advanced Air Bag System (AABS)<sup>3</sup>** Dual-stage supplemental front air bags with seat belt sensors and an occupant-classification sensor adjust their inflation rate depending on crash severity and seat belt usage. If the front-passenger's seat is empty, a sensor will deactivate the air bag. Side-impact supplemental air bags are placed in the front seat side bolsters so they move with the seat to help maintain optimal positioning. Roof-mounted curtain supplemental air bags deploy from the headliner above the side windows, helping to give outboard occupants enhanced head protection in the case of a side impact.

*Infiniti Safety Shield is our comprehensive approach to safety. It includes rigorous crash testing, over 50 standard safety features on every vehicle, available advanced safety technologies and child safety programs like Snug Kids. Infiniti Safety Shield is designed and developed into every vehicle we build to help protect you and your passengers.*

## SAFETY

**Vehicle Dynamic Control (VDC)<sup>4</sup>** Acting in tandem with the Traction Control System, VDC compares actual vehicle cornering performance to the driver's input, adjusting power levels and applying appropriate brake pressure to individual wheels to help correct oversteer or understeer, helping keep the vehicle on the steered path.

**Traction Control System (TCS)** To help enhance rear-wheel grip when accelerating, the Infiniti EX's Traction Control System senses wheelspin and automatically reduces engine output and/or brakes the spinning wheel to help give you a surer foothold.

**4-wheel Anti-lock Braking System (ABS)** If you engage in emergency steering action during braking, the Infiniti EX's 4-wheel, 4-channel ABS helps you maintain control by helping to prevent wheel lockup.

**Electronic Brake force Distribution (EBD)** To help optimize braking performance for a variety of vehicle loads, EBD adjusts the amount of brake force applied to the front and rear wheels for improved braking performance, reduced front-end "dive" under braking and more even brake wear.

**Snug Kids** The first venture of its kind, Snug Kids is our online guide to selecting and correctly installing a child restraint seat for your Infiniti automobile. Our safety engineers evaluated numerous child restraint seats, installing them in every Infiniti car and SUV. Visit [Infiniti.com/snugkids](http://Infiniti.com/snugkids) to view or download the results and recommendations.

<sup>1</sup> Optional Brake Assist with Preview is only an aid to assist the driver and is not a collision warning or avoidance device. It is the driver's responsibility to stay alert, drive safely and be in control at all times.

<sup>2</sup> Optional Intelligent Cruise Control is not a collision avoidance or warning device. For highway use only and not intended for congested areas or city driving. The system will not brake automatically to a stop. Failure to apply the brakes could result in an accident.

<sup>3</sup> Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your owner's manual for more details.

<sup>4</sup> VDC cannot prevent accidents caused by abrupt steering, carelessness, or dangerous driving techniques. Always drive safely.

- Rear window defroster with indicator light and timer
- Dual chrome exhaust finishers

SAFETY

OCCUPANT PROTECTION

- The Infiniti Advanced Air Bag System (AABS) includes dual-stage supplemental front air bags with seat belt sensors and an occupant-classification sensor. When deployed, the inflation rate of these dual-stage air bags adjusts depending on crash severity and seat belt usage. If the front-passenger's seat is empty, a sensor will deactivate the air bag²
- Front seat-mounted supplemental side-impact air bags³
- Roof-mounted curtain side-impact supplemental air bags for front- and rear-seat occupant head protection²
- Front- and rear-seat head restraints for outboard occupant positions. Front-seat Active Head Restraints move forward and upward in certain rear-impact collisions to help reduce whiplash-type injuries
- 3-point height-adjustable front seat belts with pretensioners and load limiters, driver's seat Emergency Locking Retractor (ELR) and passenger's seat ELR and Automatic Locking Retractor (ALR)
- 3-point rear seat belts with ELR and ALR
- Slide-away brake pedal assembly moves brake pedal away from the driver in certain frontal collisions
- LATCH System (Lower Anchors & Tethers for CHildren) helps simplify proper installation of compatible child restraint seats
- Snug Kids offers recommendations for choosing and installing child restraint seats; please visit Infiniti.com for details

ACCIDENT AVOIDANCE

- Electronic Brake force Distribution (EBD)
- Brake Assist (BA)
- 4-wheel Anti-lock Braking System (ABS)
- Vehicle Dynamic Control (VDC)²
- Traction Control System (TCS)
- Tire Pressure Monitoring System (TPMS)⁴

SECURITY

- Remote keyless entry system with selective unlocking of driver's door or all doors with emergency backup key integrated into Intelligent Key
- Infiniti Vehicle Immobilizer System with an encoded transponder chip embedded into the electronic Intelligent Key. The engine control computer will not allow the engine to start without the correct transponder signal
- Intelligent Key emergency backup slot to start vehicle if keyfob battery fails
- Vehicle Security System sounds alarm if intrusion via doors, hood or trunk is detected
- Battery saver helps prevent accidental discharge if electrical accessories are left on

¹ Required XM radio and XM NavTraffic monthly subscriptions sold separately after trial period. Installation costs and other fees and taxes may apply, including a one-time activation fee. XM NavTraffic only available in select markets. Subscription fee is consumer only. All fees and programming subject to change. Subscriptions subject to Customer Agreement available at xmradio.com. XM service only available in the 48 contiguous United States and Canada. The XM name and XM NavTraffic are registered trademarks of XM Satellite Radio Inc. ©2007 XM Satellite Radio Inc. All rights reserved. All other trademarks are the property of their respective owners.

² Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your owner's manual for more details.

³ VDC cannot prevent accidents caused by abrupt steering, carelessness, or dangerous driving techniques. Always drive safely.

⁴ Tire Pressure Monitoring System is not a substitute for regular tire pressure checks.

⁵ The EX35 and EX35 AWD are available only via special order and may take up to four months to receive.

⁶ The RearView Monitor is a convenience but is not a substitute for proper backing procedures. Always turn and check that it is safe to do so before backing up. The RearView Monitor may not detect every object behind you.

⁷ For the vehicles sold in CT, available Around View Monitor is only operable while the vehicle is in reverse. The available Around View Monitor is a parking aid and cannot completely eliminate blind spots or warn of moving objects. Always check your surroundings before moving the vehicle.

⁸ The Lane Departure Warning and Lane Departure Prevention systems operate above approximately 45 mph and only when the lane markings are clearly visible on the road. They will not prevent loss of control.

⁹ May require additional options or option packages.

## The Infiniti Total Ownership Experience®

Rated by owners as the #1 luxury brand in vehicle satisfaction:<sup>1</sup>

*While the advantages of owning an Infiniti can be felt most intimately while sitting in the driver's seat of one of our vehicles, it is our goal to ensure that every aspect of ownership is a rewarding experience. The Infiniti Total Ownership Experience is an unprecedented commitment to professionalism and customer service.*

*It is a promise backed by every Infiniti employee. You can recognize it the moment you enter an Infiniti dealership and in the service you'll receive for years to come. It's all part of our philosophy that quality service is an indispensable feature of a quality vehicle.*

**PREMIUM PURCHASING** At your Infiniti dealership, you'll find all the components of a smooth purchasing process. From a friendly shopping environment with knowledgeable sales consultants to expeditious negotiations and straightforward Infiniti Financial Services financing options, and finally to impeccable vehicle delivery. It is the first step in building a lasting relationship. Get more information at [www.infiniti.com/financing](http://www.infiniti.com/financing).

**CUSTOMER SATISFACTION** As an Infiniti driver, you'll enjoy our commitment with a host of premium services like a complimentary Infiniti Service Loan Car, Trip Interruption Benefits such as alternative transportation, lodging and meals, and a 24-hour Infiniti Roadside Assistance program for added security when traveling.<sup>2</sup>

**INFINITI LIMITED WARRANTIES** Our Standard Infiniti Limited Warranty Basic coverage is 4 years/60,000 miles. The Powertrain coverage is 6 years/70,000 miles. The Corrosion Perforation coverage is 7 years/unlimited mileage. An optional Elite Infiniti Extended Protection Plan offers coverage up to 7 years/100,000 miles.<sup>3</sup>

**OWNERSHIP ONLINE** Not only a tool to help you learn more about the vehicles we offer, the Infiniti.com web site also contains an "Ownership" section where you can easily access maintenance schedules, warranty information and articles exclusive to Infiniti owners.

<sup>1</sup> Subject to availability. Available during the 4-year/60,000-mile Basic warranty period for scheduled warranty or customer-paid repairs (not including collision repairs). Customer must be 25 years of age or older with a valid US driver's license. The customer must provide proof of primary insurance. Other restrictions apply to loan car, including mileage and day-use limitations. This program is subject to change without notice at any time.

<sup>2</sup> Roadside Assistance and Trip Interruption Program available during the first four years after initial new-vehicle delivery. See retailer for details.

<sup>3</sup> See your local Infiniti retailer for details and read the warranty booklet or extended protection plan.
