OUTSMART CHANGE WITH GMENVOLVE

GM Envolve is working to solve business issues with leading-edge technologies to help create a new era of efficiency. We offer a suite of reliable products and advanced technologies that can help boost your fleet's productivity.

Powered by GM's electric, fuel cell and software platforms, along with consultative support and complete fleet services, GM Envolve helps you stay ahead of change. It combines powerful brands, such as OnStar®, Chevrolet, Cadillac, GMC and Buick, providing comprehensive support to propel your business into the future.

Whether you're a small business, a worldwide corporation or even a local government entity/agency, we can help you find what your business needs.

MAKING IT EASY TO EV

VIEW EV CHARGERS

Whether you're thinking about adding electric vehicles or already have them in your fleet, GM Envolve can bring clarity to any challenges you may face. Get as much support as you need — at any point along the way.

GM Envolve is with you at every step.

2025 Equinox EV 3LT and Chevrolet Equinox ACTIV shown.

Tailored Fleet Planning

Get help defining what an EV program looks like within your organization, establishing the right support to help you present to management and plan the transition properly — all backed by data.

Streamlined Charging Solutions

Decide where and how your vehicles will charge with the help of a knowledgeable project manager, and take advantage of software that makes reimbursing your drivers for charging as simple as it is with gas.

Flexible Financing & Maintenance

Bundle EV products, services and maintenance — including chargers and financed vehicle cost — into one deal, or purchase only what you need.

Personalized Training & Support

Train your drivers ahead of delivery so they're ready to get behind the wheel of their new EV. Plus, offer them the confidence of 24-hour call center support for any immediate needs.

Chevrolet BrightDrop

Chevrolet BrightDrop vans revolutionize the cargo van segment with an all-electric design that blends sustainability, efficiency and advanced technology to help you streamline your operations and reduce your environmental impact.

Ideal for fleet managers and businesses, BrightDrop vans can handle various available payload options while emitting zero tailpipe emissions and improving efficiency with telematics powered by OnStar® as well as safety and driver assistance.

Click the topics below to learn more.

Chevrolet BrightDrop

Chevrolet BrightDrop vans revolutionize the cargo van segment with an all-electric design that blends sustainability, efficiency and advanced technology to help you streamline your operations and reduce your environmental impact.

Ideal for fleet managers and businesses, BrightDrop vans can handle various available payload options while emitting zero tailpipe emissions and improving efficiency with telematics powered by OnStar® as well as safety and driver assistance.

Click the topics below to learn more.

Fast Charging, Exceptional Range

With a GM-estimated range of up to 296 miles¹ on a full charge and fast charging capabilities of up to 180 miles² of range per hour with DC fast charging, BrightDrop helps keep your fleet moving.

1 Requires 600 AWD with optional Max Range battery pack. On a full charge based on development testing and/or analytical projection consistent with SAE J1634 revision 2017 – MCT. Range subject to change prior to production. Actual range may vary based on several factors, including ambient temperature, terrain, battery age and condition, loading, and how you use and maintain your vehicle. EPA estimates not yet available. 2 Requires public DC Fast Charger. Actual charge times will vary based on battery starting state of charge, battery condition, output of charger, vehicle settings and outside temperature. See the vehicle Owner's Manual for additional limitations.

Chevrolet BrightDrop

Chevrolet BrightDrop vans revolutionize the cargo van segment with an all-electric design that blends sustainability, efficiency and advanced technology to help you streamline your operations and reduce your environmental impact.

Ideal for fleet managers and businesses, BrightDrop vans can handle various available payload options while emitting zero tailpipe emissions and improving efficiency with telematics powered by OnStar® as well as safety and driver assistance.

Zero Tailpipe Emissions

The BrightDrop's all-electric powertrain helps your business contribute to a greener future with zero tailpipe emissions.

Chevrolet BrightDrop

Chevrolet BrightDrop vans revolutionize the cargo van segment with an all-electric design that blends sustainability, efficiency and advanced technology to help you streamline your operations and reduce your environmental impact.

Ideal for fleet managers and businesses, BrightDrop vans can handle various available payload options while emitting zero tailpipe emissions and improving efficiency with telematics powered by OnStar® as well as safety and driver assistance.

Click the topics below to learn more.

Spacious and Adaptable Cargo Space

Maximize your load with up to 614.7 cubic feet¹ of cargo volume and a maximum payload of 3,350 lbs.² with BrightDrop 600.

1 Cargo and load capacity limited by weight and distribution. 2 Requires FWD model. These maximum payload ratings are intended for comparison purposes only. Before you buy a vehicle or use it to haul people or cargo, carefully review the Vehicle Loading section of the Owner's Manual and check the carrying capacity of your specific vehicle on the label on the inside of the driver's door jamb.

Chevrolet BrightDrop

Chevrolet BrightDrop vans revolutionize the cargo van segment with an all-electric design that blends sustainability, efficiency and advanced technology to help you streamline your operations and reduce your environmental impact.

Ideal for fleet managers and businesses, BrightDrop vans can handle various available payload options while emitting zero tailpipe emissions and improving efficiency with telematics powered by OnStar® as well as safety and driver assistance.

Click the topics below to learn more.

Driver-Centric Design

Ergonomic features like a low step-in height, spacious cabin and elevated seat position help make every delivery easier. Plus, the available Power Door Package automatically opens and closes key access points in Delivery Mode to help shave seconds off every stop.

Chevrolet BrightDrop

Chevrolet BrightDrop vans revolutionize the cargo van segment with an all-electric design that blends sustainability, efficiency and advanced technology to help you streamline your operations and reduce your environmental impact.

Ideal for fleet managers and businesses, BrightDrop vans can handle various available payload options while emitting zero tailpipe emissions and improving efficiency with telematics powered by OnStar® as well as safety and driver assistance.

Safety and Driver Assistance

Protect your drivers and cargo with a suite of standard safety and driver assistance features including Adaptive Cruise Control¹, Enhanced Automatic Emergency Braking¹, Lane Keep Assist with Lane Departure Warning¹, HD Surround Vision¹ and Rear Cross Traffic Braking¹ to help instill driver confidence.

1 Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. Read the vehicle Owner's Manual for important safety and driver assistance feature limitations and information.

Designed, Engineered, Tested and Backed

To help ensure you're getting the quality you deserve, our accessories have been put through a lineup of demanding tests. And if accessories are installed before vehicle delivery, they are covered under the applicable portion of the New Vehicle Limited Warranty¹. An additional offering of Associated Accessories is also available from renowned manufacturers like LUND®, Thule®, UWS®, CURT™ and others — each with their own individual warranty coverage.

- Equip your vehicles specifically for your vocation
- Enhance capability and performance
- Add protection inside and out
- Make the workday easier by organizing tools and equipment

Talk to your GM Envolve Account Executive about adding Accessories to your fleet.

1 Associated Accessories are not tested by GM, or necessarily undergo the same third-party testing procedures as GM Accessories and availability. Most GM Parts and Accessories sold and installed on a GM vehicle by a GM Dealer or a GM-approved Accessory Distributor/ Installer (ADI) before delivery to the customer are covered under the Applicable limited Warranty, they will be covered, parts and labor, for the longer of the following: a) 12 months/12,000 miles (whichever comes first), or b) the balance of the applicable portion of the New Vehicle Limited Warranty. GM Parts sold over the counter, or those not requiring installation, will continue to receive the standard GM Dealer Parts Warranty of 12 months from the date of purchase, parts only, regardless of miles. GM warranties do not apply to Associated Accessories. See your dealer for details. Vehicles shown with accessories from an independent supplier which are not warranted by GM or its dealers. GM is not responsible for the safety or quality of independent suppliers. Division is not responsible for the safety or quality of design features, materials or workmanship of any alterations by any such supplier. Copyright and other intellectual property rights of GM. Offer your clients the prestige they deserve with Cadillac Professional. Richly appointed and crafted for perfection, each Cadillac livery vehicle is meticulously designed to exude sophistication and envelop passengers in luxury and comfort.

AVAILABLE PROFESSIONAL VEHICLE LIMITED WARRANTY UP TO 3 YEARS/150,000 MILES¹

Eligible livery vehicles offer the confidence of the Cadillac Professional Vehicle Limited Warranty. This available comprehensive package (RPO: ZR3) covers key components for up to 3 years or 150,000 miles¹. Plus, Cadillac premium care maintenance² and 24-hour Roadside Assistance³ help keep your fleet on the road.

RESOURCES

CUSTOMER SOUNDING BOARD

MEMBERS BY REGION

The Customer Sounding Board (CSB) brings together Commercial professionals from different vocations and the General Motors leadership team for candid discussions about the important issues impacting the Commercial business. We collaborate to address those issues and find solutions that will benefit our customers and General Motors.

CONTACT

The CSB welcomes your ideas. To submit your suggestions: Please email the CSB member nearest your location. To ask a general fleet question: Please call the GM Envolve Solutions Center at 800-353-3867.

- Electric Vehicles: 8 years/100,000 miles³

(NOTE: Eligible non-tow service coverage duration varies for Chevrolet, GMC, Buick and Cadillac EVs.)

INCLUDED MAINTENANCE

Technicians at more than 4,000 Chevrolet, GMC, Buick and Cadillac dealers nationwide are trained to help keep your vehicles running in optimum condition for the road ahead. With your new vehicle purchase, enjoy one maintenance visit within the first year of vehicle delivery⁵. Depending on the model, services could include:

- Oil and Filter Change
- Tire Rotation
- Multi-Point Vehicle Inspection (MPVI)

1 Roadside services provided by a third-party provider. Roadside services are for properly equipped vehicles with an eligible service plan only. Limitations and restrictions apply. A combination of roadside services can be used up to four times per year, then additional charges apply. 2 Whichever comes first. A "Qualified Fleet User" is defined as, subject to below exclusions, any company: (a) which has purchased or leased five (5) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases fifteen (15) or more medium duty trucks used in its consists of include as filled used in the currently owns or leases fifteen (15) or more medium duty trucks used in its company service; or (c) that currently owns or leases five (5) or more med

BUSINESS ELITE

Our Chevrolet and GMC Business Elite dealers understand your business and uptime needs. Their primary focus is on you, the commercial customer. You can rely on their expertise to help you get the right vehicle selection, services and solutions you need, keeping your vehicles on the road and helping your business grow.

CUSTOMIZED SOLUTIONS

Business Elite dealers take the time to learn about your challenges and offer solutions to help build a fleet that grows with your business.

- Offer a diverse lineup of commercial vehicles
- Connect you with an upfitter¹ that can equip your vehicle to meet your job requirements
- Discuss total cost of ownership while offering business financing and leasing options

EXCEPTIONAL CUSTOMER SERVICE

Business Elite service departments are set up to provide business-centered benefits.

- Facilities, tools, equipment and certified technicians to accommodate your specific needs
- Extended service hours and priority service to minimize downtime

MEDIUM DUTY TRUCKS

A nationwide network of more than 550 Chevrolet Medium Duty dealers, ready to meet your fleet's needs.

Chevrolet Medium Duty dealers have the ability to order, sell and service Silverado Medium Duty and Low Cab Forward vehicles in addition to offering the full lineup of Chevrolet vehicles.

Dealers are equipped with:

- Capable-sized lifts and service bay areas
- Facilities to provide maintenance on your units
- Specialty tools
- Model-specific training provided by the factory

Visit gmenvolve.com/fleet and select "Locate a Dealer" to find a Business Elite or Medium Duty dealer near you.

HOW TO ESTABLISH A NEW GM ENVOLVE

FLEET ACCOUNT NUMBER (FAN)

DETERMINE IF A PROSPECT IS QUALIFIED

Fleet Account Numbers are assigned to Qualified Fleet Users (defined below) upon application to General Motors and GM Envolve (GM) through the Global FAN Portal.

ENROLLMENT FORM TERMS AND CONDITIONS

A "Qualified Fleet User" is defined as, subject to below exclusions, any business entity in the United States within the last 12 months; (b) currently owns or leases five (5) or more medium duty trucks (any age or manufacturer) principally for business use by such business entity in the United States or purchases/leases one (1) medium duty truck from a participating Medium Duty Assistance Program (MDAP) distributor; or (c) currently owns or leases fifteen (15) or more vehicles (any age or manufacturer) used principally for business use by such business entity in the United States. Vehicles must be titled and registered in the business name or the bank/lessor (Fleet Leasing) name (personal vehicles are excluded). If a proposed enrollee is qualified as a customer, a GM dealer is required to submit a fleet enrollment application. Supporting documentation must be retained by the dealer and made available to GM upon request (including all titles, registrations, and proof of insurance). The proposed enrollee may be asked for additional documentation.

NOTE: Entities deemed eligible for a Government FAN, with a minimum of one (1) vehicle, are exempt from having to provide vehicle eligibility documents. Examples of government entities are federal/state/county/city agency, town/township/village or municipality, public education system, or government owned-operated utility or railroad. Dealers can refer to the current 24-00 Government Bid Assistance Policies and Procedures bulletin.

New Fleet or Commercial motor vehicles ordered must be delivered to the same Qualified Fleet User (using the same FAN). Vehicles delivered to a Qualified Fleet User must be reported with a fleet delivery type. In addition, vehicles must be kept in fleet service by the same Qualified Fleet User for a minimum of twelve (12) months, or 12,000 miles, whichever occurs first, from the date of delivery unless a different fleet service requirement is specified in the program guidelines provided by GM under a Competitive Assistance Program agreement.

The Qualified Fleet User, by executing the enrollment form, certifies it is a Qualified Fleet User, acknowledges the GM Envolve Program Guidelines referenced herein, and agrees to comply with any and all GM requirements, including the terms and conditions of the Fleet Enrollment Form and any Competitive Assistance Program agreement if one is signed.

The Qualified Fleet User further agrees to provide, upon request by GM or the selling dealer, access to review original business records confirming that vehicles were, and continue to be, registered, used, and transferred only in accordance with GM Envolve Program Guidelines. In the event (1) a Qualified Fleet User orders new motor vehicles from a dealer and identifies them as fleet units eligible for GM Envolve programs and those vehicles are not used by a Qualified Fleet User in accordance with Program Guidelines or (2) GM declares that any other actions of a Qualified Fleet User are inconsistent with this program, GM will take appropriate action, in its sole discretion and with or without notice to the Qualified Fleet User, which may include the disqualification of the Qualified Fleet User and/or dealer from future participation in GM Envolve, and the issuance of fleet charge back against the dealer or identified Qualified Fleet User as a result of inaccurate representation. In the event of such a chargeback to the dealer, the Qualified Fleet User agrees to reimburse the dealer.

IF A PROSPECT IS QUALIFIED

A General Motors dealer is required to submit an enrollment application through GM Global Connect. The enrollment application can be found on the GM Global FANS website. The following information is required:

HOW TO ESTABLISH A NEW GM ENVOLVE

FLEET ACCOUNT NUMBER (FAN)

IF A PROSPECT IS QUALIFIED

A General Motors dealer is required to submit an enrollment application through GM Global Connect. The enrollment application can be found on the GM Global FANS website. The following information is required:

- 1. Name of business
- 2. Physical address
- Phone number
- 4. Copies of titles, registrations or proof of insurance of minimum vehicle requirement, in the company name
- 5. Completed Qualified Fleet User enrollment form

Upon completion of the enrollment form on the website, the dealer will submit this document electronically. Upon processing, a General Motors FAN will be issued, and the requesting dealer will be advised of the FAN via online application and email.

All supporting documentation of the prospect's fleet eligibility must be retained by the dealership submitting the enrollment application.

STANDARD FLEET ELIGIBILITY GUIDELINES

Unless otherwise indicated, the following eligibility guidelines will apply to all fleet incentive/allowance programs:

- A. The order period will begin with the announcement of the 2026 model year fleet incentive programs and end when dealers are notified that 2026 model year orders are no longer being accepted by the respective GM divisions.
- B. The delivery period is the start of 2026 production.
- C. Qualified Fleet Users are not allowed to export vehicles outside of the United States, and upon any violation in GM's sole discretion, the FAN will be immediately terminated.
- D. All qualified fleet orders for eligible models received from dealers must contain a valid fleet order type.
- E. All qualified fleet orders for eligible models received from dealers must contain the FAN of record and the FAN account name.
- F. Dealer Order Acknowledgments must be checked to verify accuracy of orders submitted.
- G. Dealer orders currently on hand or in the system that qualify under these programs, except that they do not contain the appropriate processing options, can be amended or canceled and reordered if they have not been approved for production. This is the ordering

HOW TO ESTABLISH A NEW GM ENVOLVE

FLEET ACCOUNT NUMBER (FAN)

- G. Dealer orders currently on hand or in the system that qualify under these programs, except that they do not contain the appropriate processing options, can be amended or canceled and reordered if they have not been approved for production. This is the ordering dealer's responsibility.
- H. Vehicles delivered to unqualified customers are ineligible for purchase under a FAN, and the dealer's open account will be debited for the amount of the credit and any other fleet allowance paid. Failure to comply with these guidelines may also result in the dealer being disqualified from future participation in GM Envolve programs and/or termination of the dealer's Sales and Service Agreement. Failure to report a FAN and valid fleet delivery type on the dealer's open account a debit to the dealer's open account.
- I. Eligible deliveries must be made to the ultimate customer through a dealership representing the GM marketing division. Deliveries made through any entity or individual other than a General Motors dealer are ineligible for payment of incentives. Eligible light-duty truck orders may be delivered through body builders if the end user is a qualified fleet or political subdivision, including the federal government.
- J. Dealers must take full responsibility for including the proper processing option on the orders. No additions or changes will be accepted after orders are approved for production.
- K. Fleet orders submitted with both a fleet processing option and any ineligible fleet or retail incentive option will be rejected with an error message.
- L. Acceptance of an order on any vehicle line does not constitute a commitment to build or to build in a requested time frame.
- M. Those orders not produced during the 2025 model production period will be canceled. There are no provisions for dealers to receive any allowance for those canceled orders.
- N. Order Workbench delivery codes reported by dealers must be the same as the Order Workbench codes provided in incentive program guidelines.

IMPORTANT

Information contained in this reference guide is intended to be a quick reference digest only. In no way does it supersede program dealer letters or guidelines. To ensure accuracy, check official documents before placing any orders. Specific questions or requests for assistance should be addressed to the GM Envolve Solutions Center at 800-353-3867 or gmenvolvesolutionscenter@gm.com.

THIS MATERIAL IS NOT INTENDED FOR, OR APPROVED FOR USE IN, ADVERTISING

We reserve the right to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this guide and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings, prototypes and laboratory tests.

Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of release, please check with your GM dealer for complete details. Competitive comparison claims are based on most current competitive information. GM reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

The vehicles described in this guide are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers, and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly. Some of the equipment shown or described throughout this guide may be available at extra cost and/or supplied by an independent supplier.

See your local GM Envolve Account Executive or Dealer Fleet/Commercial Sales Manager or go to gmenvolve.com for up-to-date information.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.
