SAAB 900 CONVERTIBLES

1994

SAAB

Come rain or shine.

The Saab 900 Convertibles are independent cars for independent people.

For one thing, you're not dependent on the weather. If it's pleasant, you can enjoy all the freedom, style and élan of a first-class open car. If it's inclement, you ride in comfort beneath one of the world's finest fabric tops; a tight fitting and fully lined Cambria cloth roof, equipped with an electrically-heated glass rear window for optimum visibility in all weather conditions.

Furthermore, you can rest assured that your car will make a much more powerful impression on your senses than on the environment. The three-way catalytic converter and the oxygen sensor easily comply with the exhaust emission requirements. The brakes, clutch and gaskets are asbestos-free and the manufacturing process is environmentally adapted.

After all, who would buy a convertible car without being addicted to clean air?

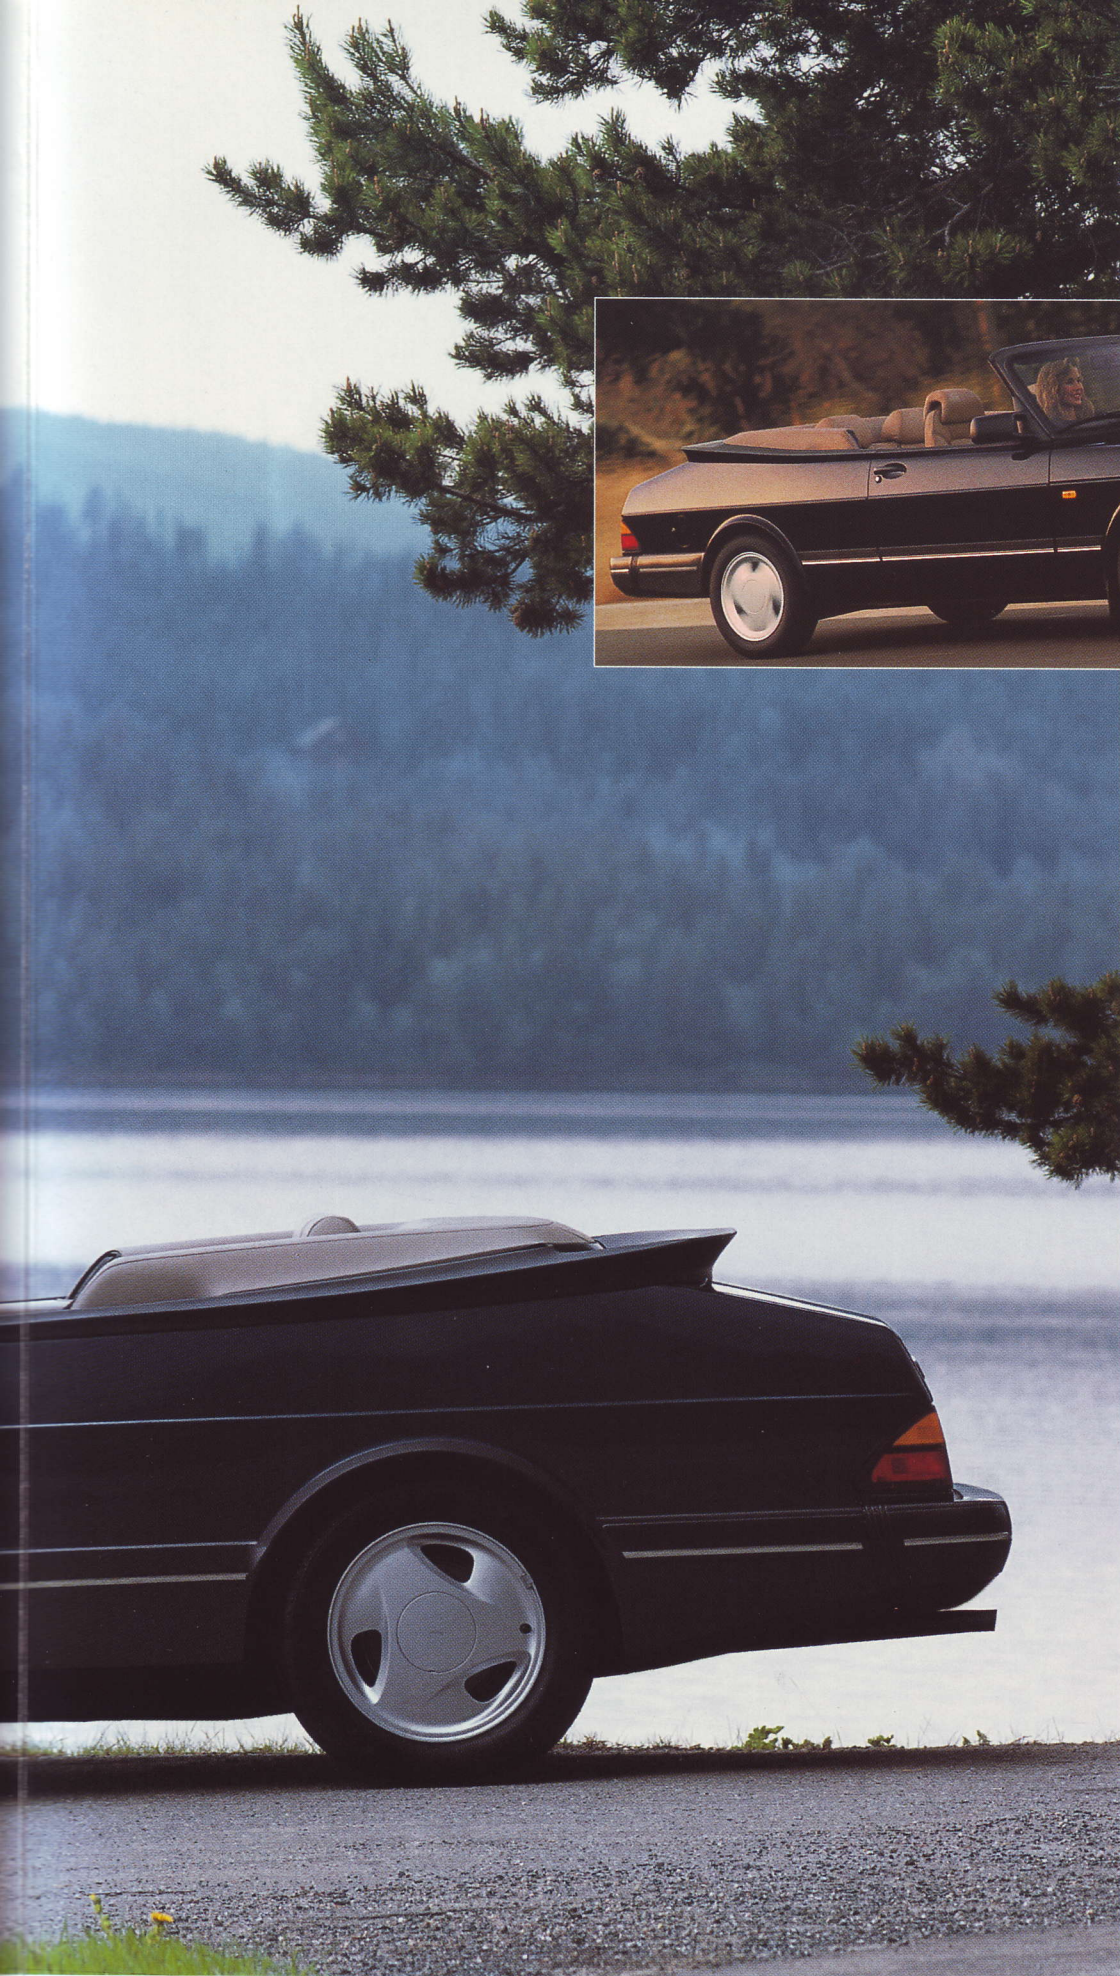

Release the handles, push one switch and the electrically-operated top opens up and folds down into its compartment within ten seconds. There is no need to get out of the car.

The Saab 900 Turbo Convertible and the 900S Convertible offer firm, sculptured seats with leather seating surfaces, which help to keep four adults comfortable on even the longest journeys.

Built for more than pleasure. The Saab 900 Convertibles have far more than just dashing good looks. They offer the special combination of performance and responsibility which characterizes all Saabs. Their front-wheel drive, strong and supple suspension, 15-inch wheels and anti-lock braking make the 900 Convertibles as surefooted as all the other Saab models.

An important note regarding this brochure: We hope you find this brochure informative; we have tried to make it as accurate as possible. However, some of the information presented may have been changed or updated since this brochure was printed; photographs and illustrations may not portray the exact colors of actual paint or materials; and some equipment shown may not be available in the U.S. or is available at extra cost.

We reserve the right to make changes in prices, colors, materials, equipment, specifications and models, including the discontinuation of models, at any time and without notice. For the most complete and up-to-date information, please check with your authorized Saab dealer.
