2001

THE POWER OF &

THE YEAR-2000 RUNNING OF THE 24 HOURS OF LE MANS SIGNALLED THE DRAMATIC

APPEARANCE OF THE CADILLAC NORTHSTAR LMP SPORTS RACER—THE ULTIMATE INCAR-

NATION OF CADILLAC'S FUSION OF DESIGN AND TECHNOLOGY. BUT THIS EVENT WAS

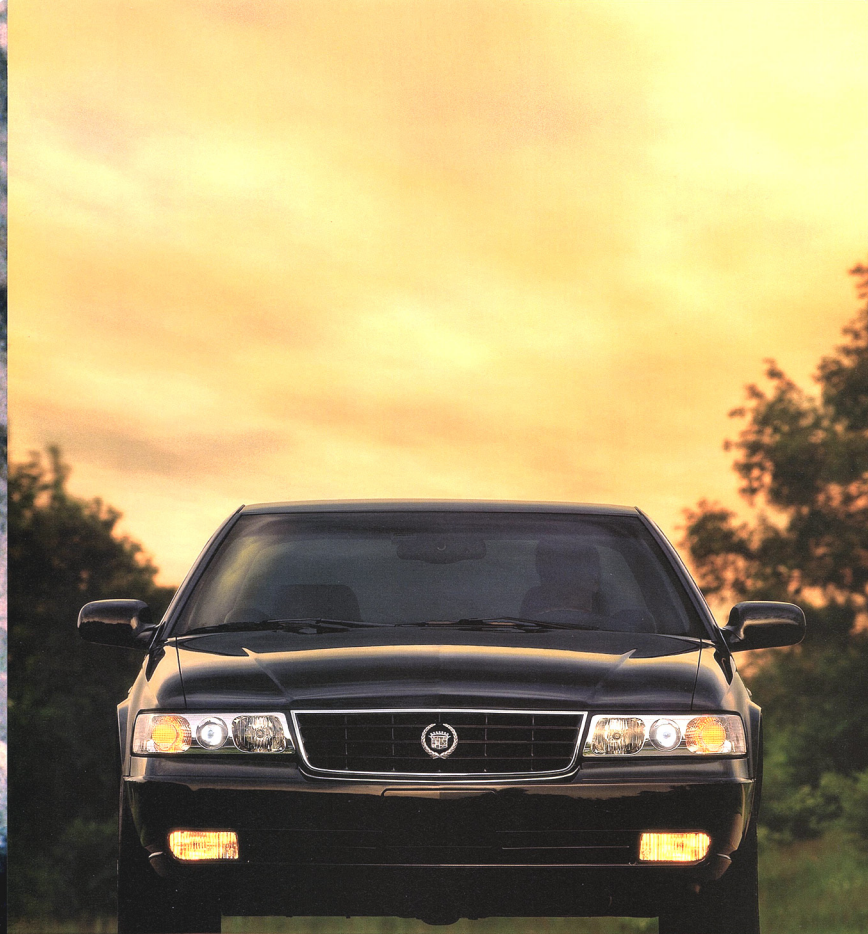

THE FUSION OF DESIGN & TECHNOLOGY.

ALSO DISTINGUISHED BY THE SEVILLE STSi LE MANS PACE CAR—A SEVILLE ONLY

SLIGHTLY MODIFIED FROM STREET-CAR TRIM. THE DEBUT OF THE STSi FURTHER

ESTABLISHED SEVILLE AS A WORLD-CLASS PERFORMANCE/LUXURY VEHICLE AND

DEMONSTRATED THE POWER OF & IN ACTION.

THE POWER OF &

THE YEAR-2000 RUNNING OF THE 24 HOURS OF LE MANS SIGNALLED THE DRAMATIC

APPEARANCE OF THE CADILLAC NORTHSTAR LMP SPORTS RACER—THE ULTIMATE INCAR-

NATION OF CADILLAC'S FUSION OF DESIGN AND TECHNOLOGY. BUT THIS EVENT WAS

THE FUSION OF DESIGN & TECHNOLOGY

ALSO DISTINGUISHED BY THE SEVILLE STSi LE MANS PACE CAR—A SEVILLE ONLY

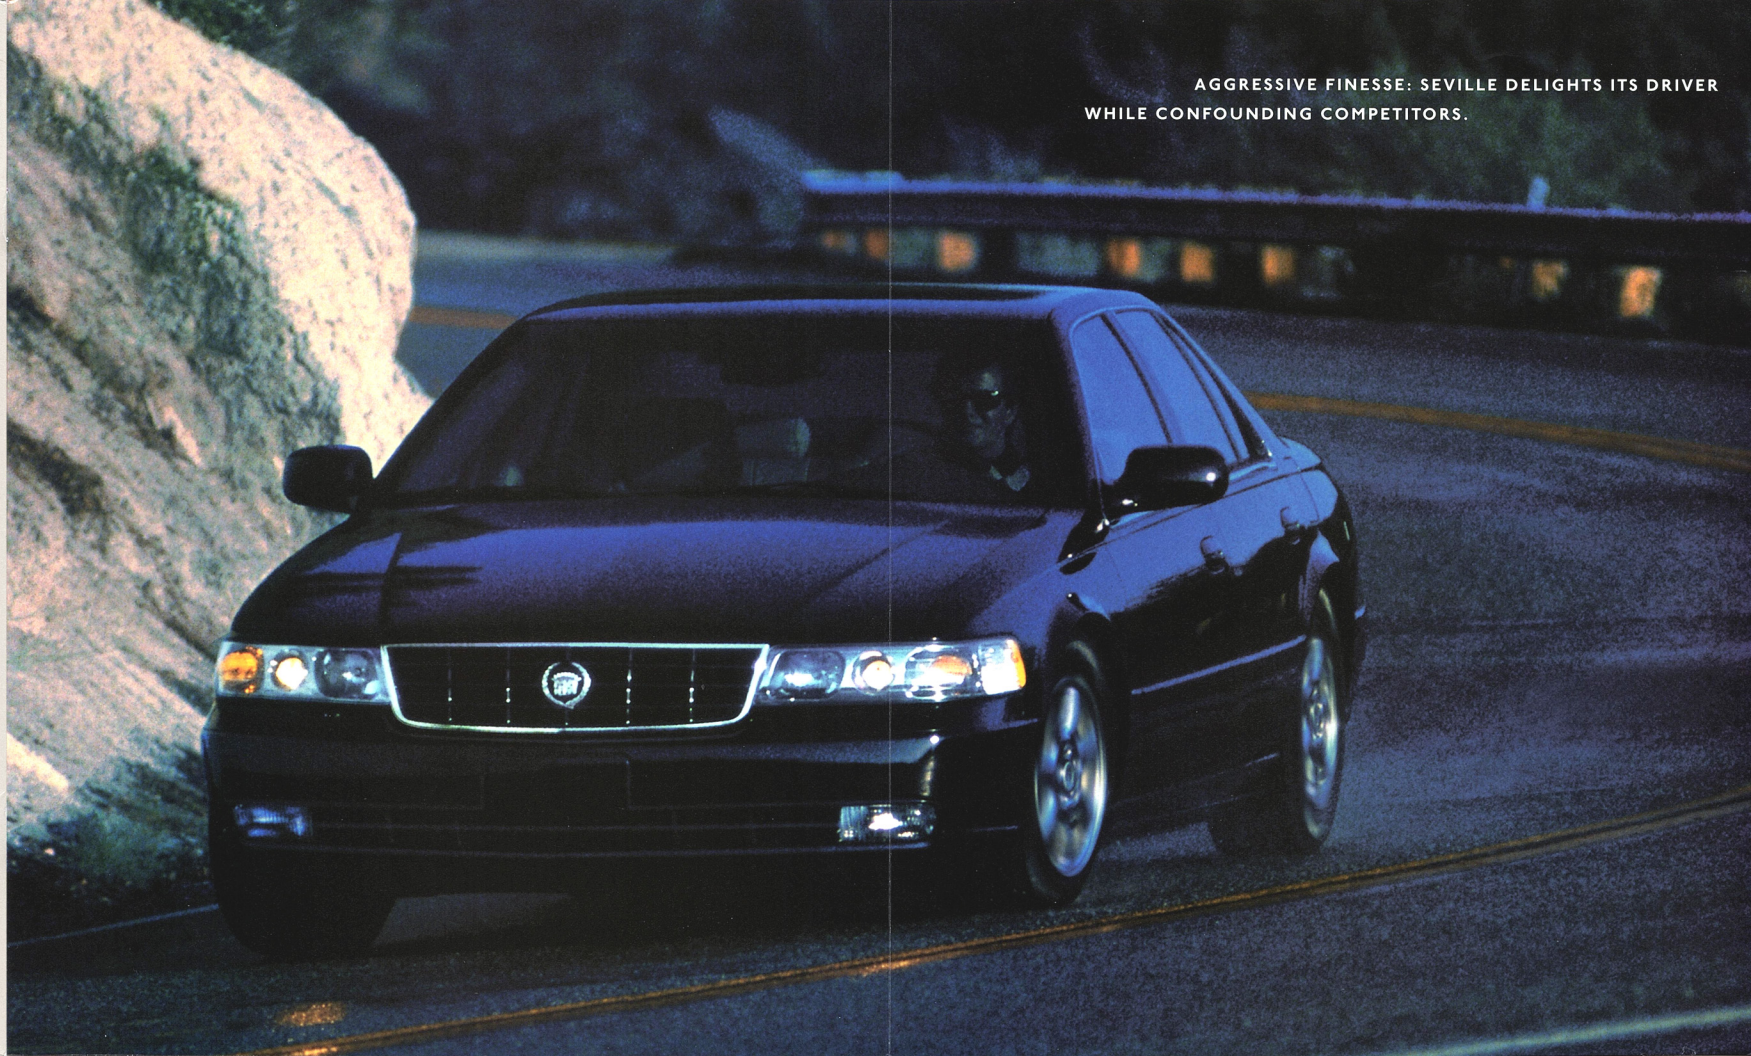

SLIGHTLY MODIFIED FROM STREET-CAR TRIM. THE DEBUT OF THE STSi FURTHER

ESTABLISHED SEVILLE AS A WORLD-CLASS PERFORMANCE/LUXURY VEHICLE AND

DEMONSTRATED THE POWER OF & IN ACTION.

AGGRESSIVE FINESSE: SEVILLE DELIGHTS ITS DRIVER
WHILE CONFOUNDING COMPETITORS.

**POWER NO DYNAMOMETER CAN MEASURE:
SEVILLE AND THE POWER OF &.**

Seville takes a path few could follow, directing the formidable resources of the Northstar System at the creation of a unique performance vehicle.

Pushing every parameter—power, precise steering control, all-weather operation, and passenger comfort—Seville impresses. But for all of its forward-looking technology, Seville's generous selection of leather and wood maintain its Cadillac standard of artful design. With sophistication and power, Seville unleashes a new force in the universe: cool fusion.

SEVILLE SETS A HIGH STANDARD BY INCLUDING EQUIPMENT THAT HELPS MAKE YOUR DAILY DRIVE
A PERFORMANCE WITHOUT UNNECESSARY DRAMA, ESPECIALLY WHEN ROAD
CONDITIONS TAKE A TURN FOR THE WORSE AND GET SLICK.

PERFORMANCE
For all the fine materials, rich comforts, and tempting indulgences, Seville's heart is always racing.

**POWER NO DYNAMOMETER CAN MEASURE:
SEVILLE AND THE POWER OF &.**

Seville takes a path few could follow, directing the formidable resources of the Northstar System at the creation of a unique performance vehicle. Pushing every parameter—power, precise steering control, all-weather operation, and passenger comfort—Seville impresses. But for all of its forward-looking technology, Seville's generous selection of leather and wood maintain its Cadillac standard of artful design. With sophistication and power, Seville unleashes a new force in the universe: cool fusion.

SEVILLE SETS A HIGH STANDARD BY INCLUDING EQUIPMENT THAT HELPS MAKE YOUR DAILY DRIVE

A PERFORMANCE WITHOUT UNNECESSARY DRAMA, ESPECIALLY WHEN ROAD

CONDITIONS TAKE A TURN FOR THE WORSE AND GET SLICK.

**WITH THE NORTHSTAR SYSTEM,
PERFORMANCE MATCHES PRECISION WITH POWER.**

Every six milliseconds, the computerized heart of the Northstar System processes thousands of bytes of data, deftly coordinating Seville's performance. This includes the Northstar V8 engine and a compendium of technologies that help maintain Seville's performance at an optimum level, modulating instantly to match changing road and weather conditions. Each element would be remarkable on its own, but with the genius of Northstar they're a synergy of pure performance.

Northstar V8 engine

With smoothness that belies its power, Seville's Northstar engine provides effortless response to driver demands. Liberal use of aluminum, four valves per cylinder, and double-overhead camshafts yield 275 horsepower in Seville SL5 and 300 horsepower in Seville STS.

**Performance Algorithm
Shifting (PAS)**

Exclusive to STS, PAS combines the convenience of an electronically controlled 4-speed automatic transmission with the response and performance of a manual gearbox. This enhancement to the Northstar System ups the STS's performance feel.

Magnasteer

Speed-sensitive power steering enhances the inherent precision of rack-and-pinion design with power assist that varies with speed.

**STS's continuously
variable road-sensing
suspension system
(CVRSS)**

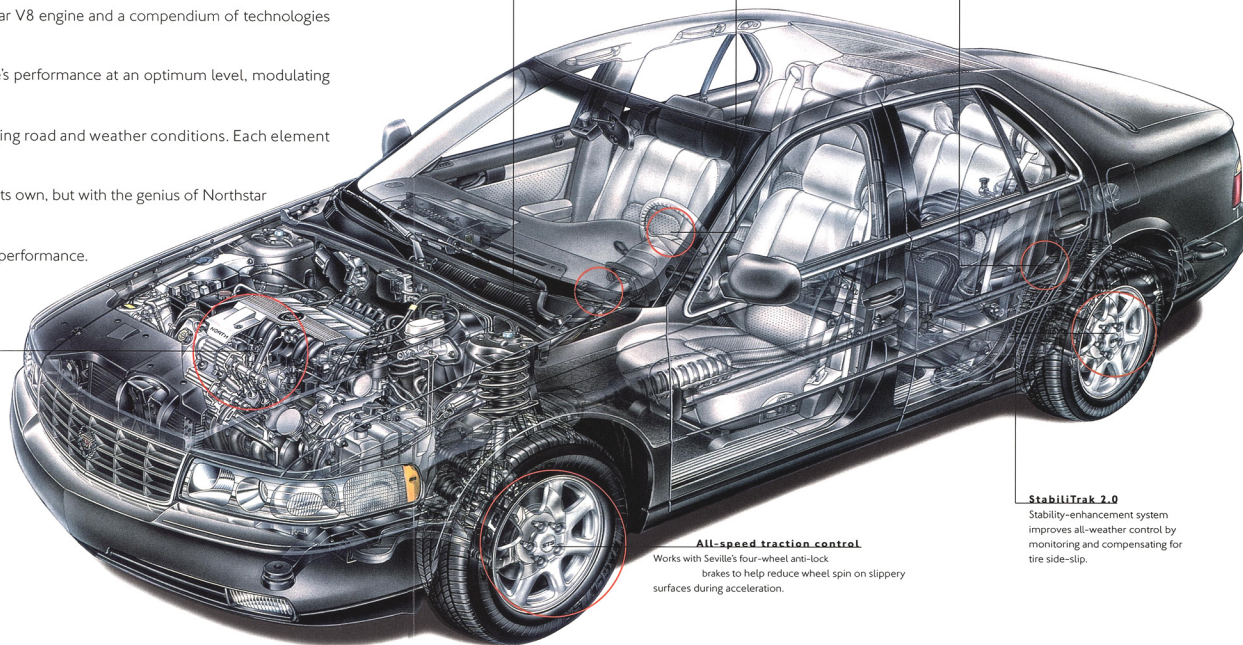

An enhancement to the Northstar System only on STS, CVRSS 2.0 constantly reads the road surface and instantly adjusts suspension settings for optimum ride control.

StabiliTrak 2.0

Stability-enhancement system improves all-weather control by monitoring and compensating for tire side-slip.

All-speed traction control

Works with Seville's four-wheel anti-lock brakes to help reduce wheel spin on slippery surfaces during acceleration.

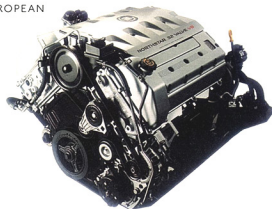

NORTHSTAR ENGINES:

THE POWER BEHIND THE POWER OF &.

A different sort of fusion: superb mechanical components overseen by state-of-the-art automotive electronics. The centerpiece of the Northstar System is the highly refined 4.6 liter dual-overhead-cam V8. It is quiet, clean-running, and efficient*. And above all, powerful. In the STS, this 32-valve, port fuel-injected marvel produces 300 horsepower and 295 ft-lbs of torque (on regular unleaded gasoline)! The engine achieves high levels of performance with little apparent effort by monitoring and precisely adjusting critical systems on the fly to match driving conditions.

BEYOND SHEER POWER AND UNMATCHED REFINEMENT, NORTHSTAR TECHNOLOGY HELPS

THIS V8 MEET OR EXCEED ALL U.S. FEDERAL AND EUROPEAN
ECONOMIC UNION EMISSIONS REGULATIONS.

*Estimated mpg: 17 city, 27 highway. Official EPA estimate not yet available.

NORTHSTAR
Sequential-port fuel injection, electronic ignition, and up to a 100,000-mile tune-up interval**.

**Maintenance needs vary with different usage and driving conditions. See the Owner's Manual for more information.

STABILITRAK

A vehicle approaches
fallen rocks on a
rain-slicked road.

How Seville with StabiliTrak
2.0 might respond:

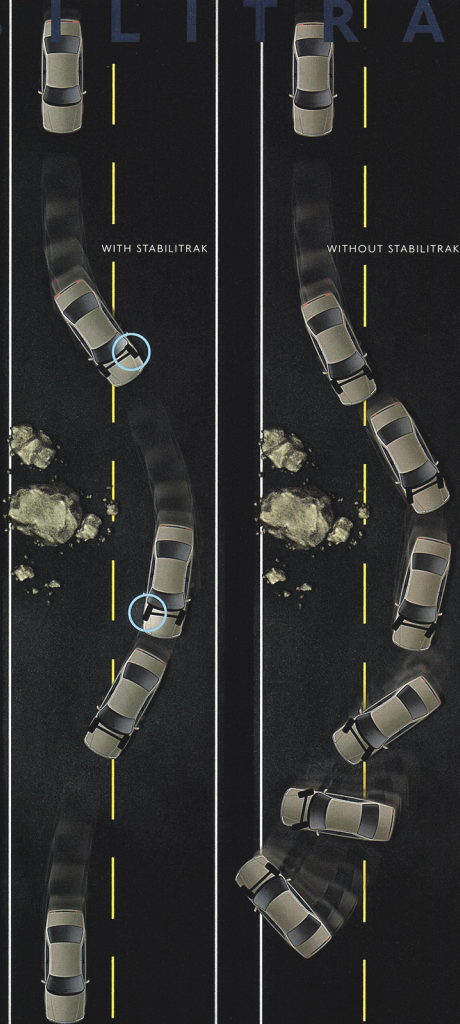

StabiliTrak 2.0 is always
engaged and continuously
gathering information from
multiple sensors to determine
if an emergency maneuver
is underway.

When StabiliTrak 2.0 detects
an evasive action, it reduces
the amount of "nose dive"
during hard braking, increases
the amount of steering-wheel
feedback, and if necessary,
"pulses" each brake to
provide an extra measure of
steering control.

StabiliTrak 2.0's computer
calculates that Seville's right
front wheel must receive more
braking power to help prevent
an impending skid.

Even though the driver is no
longer braking while steering
back into his lane, StabiliTrak
is still at work. StabiliTrak 2.0
determines that the left front
wheel needs braking power to
help the driver steer back into
his lane with greater stability
and control.

With the situation now in
hand, the Seville drives safely
away. All systems return to
monitoring mode.

SEVILLE WITH STABILITRAK 2.0, A CONTROLLING FORCE IS AT WORK.

Driving is an art, one that Seville complements with a heady mix of science. A key component of the Northstar System, StabiliTrak 2.0 is a stability-enhancing system that monitors vehicle dynamics in real time. If it detects a loss of control, StabiliTrak 2.0 applies a quick, precise force to the appropriate front brake to help bring Seville back on track. StabiliTrak 2.0 operates continuously, at any speed, on any surface, so your driving plans won't necessarily be canceled because of inclement weather.

WHEN SHARP CURVES OR SLIPPERY ROAD CONDITIONS THREATEN TO DIMINISH
DRIVER CONTROL, STABILITRAK 2.0 AUTOMATICALLY HELPS GUIDE YOU THROUGH.

LET THE PERFORMANCE BEGIN.

STS HERALDS THE REFINED APPLICATION OF VAST POWER.

The rush of power conveyed by 300 super-fit horses is superbly channeled and coordinated by the entire Northstar System that is enhanced by STS's continuously variable road-sensing suspension—generating an instant response to driver input while distancing you from the vagaries of the road. STS creates the ultimate fusion, that of vehicle and driver and the control of one over the other. Performance Algorithm Shifting literally tailors itself to your driving style. And with features like the auto-dimming driver's side mirror and Rainsense II windshield wiper system, STS seems to read your mind and react to your will.

TRUE LUXURY PERFORMANCE DRIVING CANNOT BE BUILT IN A FACTORY. IT CAN ONLY BE CREATED
BY YOU AND A COMPLETELY IN-TUNE DRIVING PARTNER: SEVILLE STS.

SEVILLE STS INTERIOR

**SALUTING THE DRIVER'S ROLE,
STS LEAVES NO DOUBT ABOUT WHO'S IN COMMAND.**

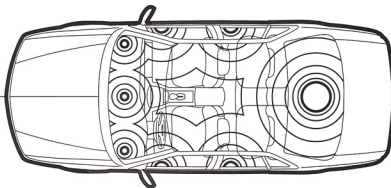

Here is the fusion of performance and luxury: 14-way power front-seat controls and heated front and outboard rear seats. A personalization system recalls the seating position for two drivers, as well as their settings for the power tilt and telescoping steering wheel, exterior rearview mirrors, radio stations, and climate control. STS's 425-watt Bose 4.0 music system with RDS capability sets a high standard for automotive audio. To achieve this, every surface of the cabin interior was acoustically mapped to help sound engineers deliver optimal tone and precise audio reproduction.

The Bose 4.0 Music System

In the STS, this custom-designed system incorporates a cabin microphone to monitor interior sound levels and adjusts its 425-watt output to compensate with incredible fidelity and acoustic imaging.

BOSE

SEVILLE STS WITH AVAILABLE IN-DASH NAVIGATION SYSTEM

SENSIBLE, SENSUAL, AND IN CONTROL:

SLS IS POWER PURSUED TO THE FINEST DETAIL.

Set in motion by its smooth-as-silk 275-horsepower Northstar V8.

SLS provides the driver with such refinements as all-speed traction control

and electronic level control. Continuing the theme, the interior layout

includes front seats whose articulated head restraints and power adjusters

and recliners create an added level of control and comfort. Fitting details

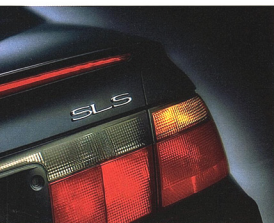

include the supple Nuance leather-trimmed seats and handcrafted Zebrano

wood accents. A rear-seat pass-through is one of many thoughtful details.

SLS encourages a closer look.

FRONT TO BACK, INSIDE AND OUT, THE SLS'S ARRAY OF STANDARD FEATURES INCLUDES FULLY

ELECTRONIC DUAL-ZONE CLIMATE CONTROL, PRECISION-DESIGNED
CONTROLLED-CYCLE WIPERS, AND A FULL FLOOR CONSOLE WITH AN
ERGONOMICALLY ENGINEERED GATED SHIFTER.

**ONSTAR ONBOARD SERVICES:
EXECUTIVE ASSISTANCE ANYTIME.**

There's one voice with over five million service listings, restaurants, and ATMs. And it belongs to a real, live OnStar Advisor. There's a second voice with access to a customized database specified by you. It belongs to OnStar's new available Virtual Advisor. With your voice commands, you can have your e-mail read to you while you drive, or check your stock portfolio. OnStar now also offers Personal Calling. This available service turns OnStar into a hands-free voice-activated cell phone*.

ONSTAR IS AS CLOSE AS THE ONSTAR BUTTON ON SEVILLE'S REARVIEW MIRROR. ONE TOUCH PUTS YOU IN IMMEDIATE VOICE CONTACT WITH A REAL OR "VIRTUAL" ADVISOR.

WHETHER YOU'RE IN TRAFFIC OR "IN COUNTRY," ONSTAR'S AVAILABLE VIRTUAL ADVISOR SYSTEM CAN ACCESS LOCAL WEATHER, TRAFFIC, OR NEWS AND CHANNEL IT RIGHT TO YOUR VEHICLE THROUGH VOICE-ACTIVATED PROMPTS. WHAT'S MORE, YOU CAN PERSONALIZE THE INFORMATION TO YOU BY PROGRAMMING THE VIRTUAL ADVISOR THROUGH ANY ONLINE COMPUTER. LEARN MORE AT CADILLAC.COM.

*One-year OnStar Premium Service agreement included as standard on Seville. Existing OnStar service agreement required for Personal Calling; additional usage charges apply. Personal Calling required for Virtual Advisor service. Interim 2001 Model Year availability in select markets for Personal Calling and Virtual Advisor. Call 1-800-ONSTAR-7 for system limitations and details.

**THE PERFORMANCE IS COMPLETE—
DESIGNED WITH A POWERFUL COMMITMENT TO SAFETY.**

Exhilarating performance: a hallmark of Seville's successful fusion of art and science. Seville's command of design and technology also helps provide you with a first line of defense should trouble arise. The Northstar System includes some of the foremost collision-avoidance features available on four wheels. But as a prudent fail-safe, Seville was also crafted with careful attention to occupant protection. Dual front air bags* are supplemented with independent side-impact air bags built into the driver's and

front passenger's seats. And these features only scratch the surface of Seville's commitment to safety.

SEVILLE'S COMPUTER-DESIGNED BODY STRUCTURE INCORPORATES SUCH ADVANCED TECHNOLOGIES AS HYDROFORMED STEEL ROOF BEAMS TO FORM AN INTERNAL SAFETY CAGE. *A NOTE ON CHILD SAFETY: ALWAYS USE SAFETY BELTS AND PROPER CHILD RESTRAINTS, EVEN IN VEHICLES WITH AIR BAGS. CHILDREN ARE SAFER WHEN PROPERLY SECURED IN A REAR SEAT. NEVER PLACE A REAR-FACING INFANT RESTRAINT IN THE FRONT SEAT OF ANY VEHICLE EQUIPPED WITH AN ACTIVE AIR BAG. SEE YOUR VEHICLE OWNER'S MANUAL AND CHILD SAFETY SEAT INSTRUCTIONS FOR MORE INFORMATION.

IMPORTANT WORDS ABOUT THE CATALOG

We have tried to make this catalog comprehensive and factual. We must reserve the right, however, to make changes at any time, without notice, in the information contained in this catalog. Since some information may have been updated since the time of printing, please check with your Seville dealer for complete details. Any variations in colors shown are due to reproduction variations in the printing process. Some photos in this catalog show vehicles with optional equipment.

Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

ENGINES

Sevilles are equipped with engines produced by different operating units of GM, its subsidiaries, or suppliers to GM worldwide.

ASSEMBLY

Seville and its components are assembled and produced by different operating units of General Motors, its subsidiaries, or suppliers to GM worldwide. We sometimes find it necessary to produce Sevilles with differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

UPDATED SERVICE INFORMATION

Cadillac regularly sends its dealers useful service bulletins about Cadillac products. Cadillac monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll-free 1-800-551-4123.

SAFETY AND SECURITY

The following are just some of the features found on the 2001 Seville:

- OCCUPANT PROTECTION: Automatic door locks • Child security door locks and door retention components • Manual lap/shoulder belts and air bags, driver/front passenger—frontal and side • Passenger-guard inside door lock handles • Power window lockout • Safety belt cinch capability for child seats
- SECURITY: Anti-lockout feature • Audible theft-deterrent system • Battery rundown protection • Laser-etched VIN plate • PASS-Key theft-deterrent • Remote deck lid release • Remote inside hood release • Remote keyless entry • Stolen vehicle tracking/emergency communication CRASH AVOIDANCE: Anti-lock brakes, front and rear • Automatic daytime running lamps • Automatic wind-

- shield wipers • Brake/transmission shift interlock • Cornering lamps • Disc brakes, front and rear, audible wear indicator • Door warning lamps or reflectors • Fog lamps (STS) • Front, side, rear window defoggers • Halogen headlamps • Inside electrochromic rearview mirror • Maintenance-free battery • Outside power rearview mirrors, heated, electrochromic • Stability enhancement • Steering wheel controls • Tinted glass windshield • Tires with built-in tread wear indicators • Traction control • Wiper-activated exterior lamps.

A NOTE ABOUT CHILD SAFETY

Always use safety belts and proper child restraints, even in vehicles with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your Owner's Manual and child safety seat instructions for more information.

WARRANTY/ CORROSION PROTECTION

The GM four-year/50,000-mile Gold Key Bumper-to-Bumper Limited Warranty covers repairs for any new Seville, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle will be covered for four years or 50,000 miles, whichever comes first, except adjustments and normal maintenance items. Plus free towing and a portfolio of other services. There is no deductible on any Seville warranty. See your Seville dealer for terms of these limited warranties. Sevilles are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for six years or 100,000 miles. There is no deductible for rust-through repairs. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended.
