

NISSAN PATHFINDER

A new road to travel

Open highways and country byways.

The Nissan Pathfinder SE is a totally new approach to 4-wheel-drive vehicles. A sporty, aerodynamic approach that combines the fun and versatility of 4-wheel drive with the comfort of a luxury sedan.

At the heart of the Pathfinder SE is one of the most technologically sophisticated engines in production today—Nissan's fuel-injected, 3.0-liter, overhead-cam V6 with 140 horsepower. Harnessing this power is a smooth-shifting, 5-speed overdrive manual transmission that's geared for optimum efficiency* whether you're on city

streets or open highways. And when it rains or snows, or when you're ready for bumpy dirt roads and steep mountain trails, there's the comfort of auto front-locking hubs** that let you engage the 4-wheel-drive mode from the driver's seat.

There's also a 5-link coil spring rear suspension system—something you won't find on any other sport utility vehicle—to help make the ride smooth and easy. Plus, the Pathfinder SE delivers the longest wheelbase, an open-

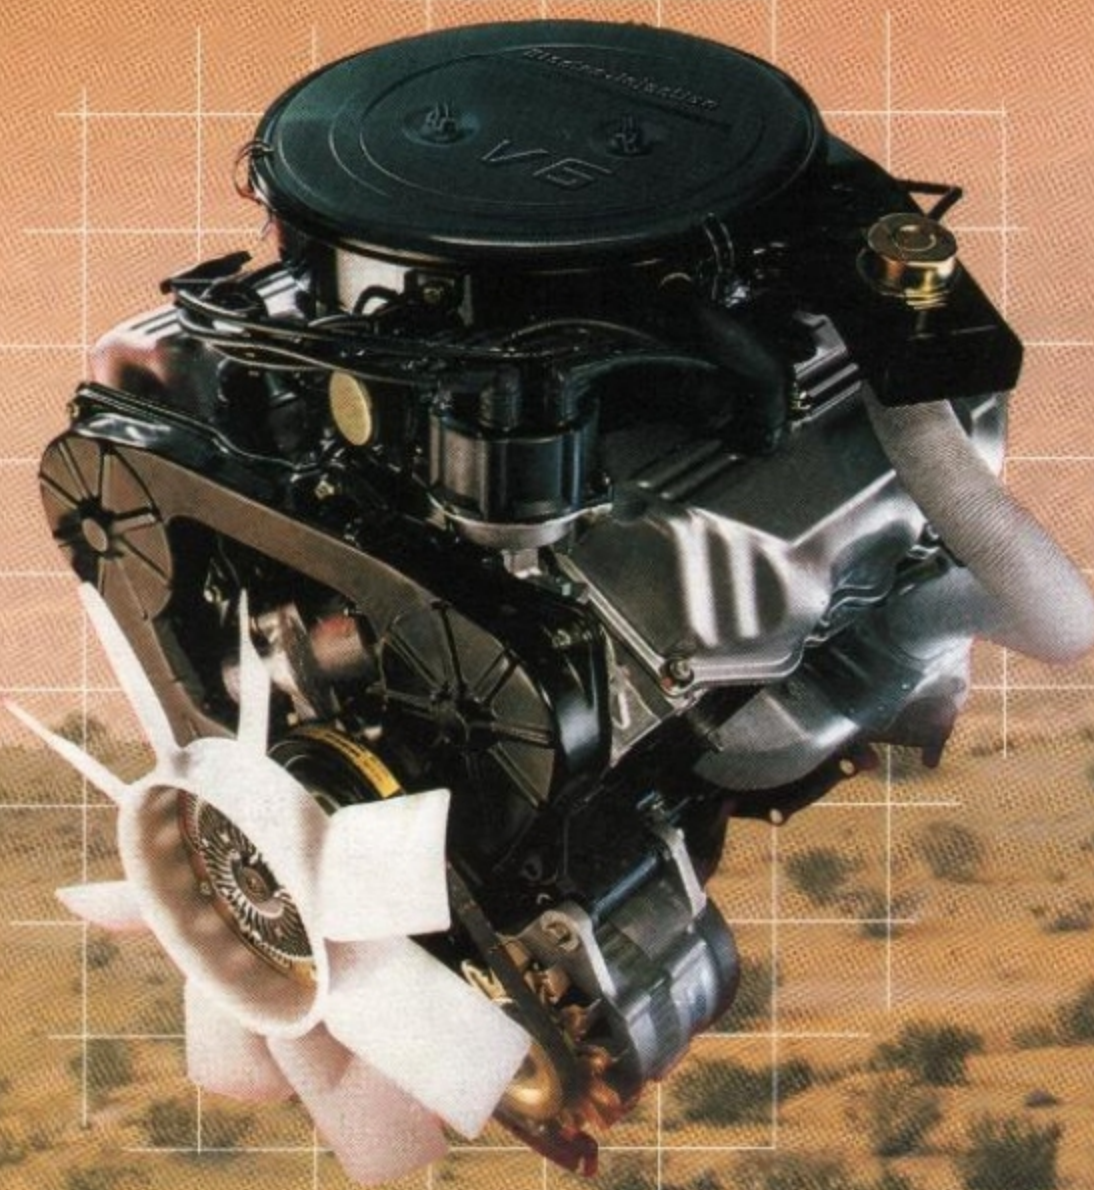

ing liftgate window and quarter side windows that can also be opened. And with a big 21-gallon fuel tank, the Pathfinder SE can range far afield.

The Pathfinder SE lets you add even more fun and convenience with a dazzling array of options. For instance, the optional Sport/Power Package includes a pop-up sunroof, driver-adjustable shock absorbers, a swing-away spare tire carrier, sporty alloy wheels and huge 31x10.5R15 tires—the

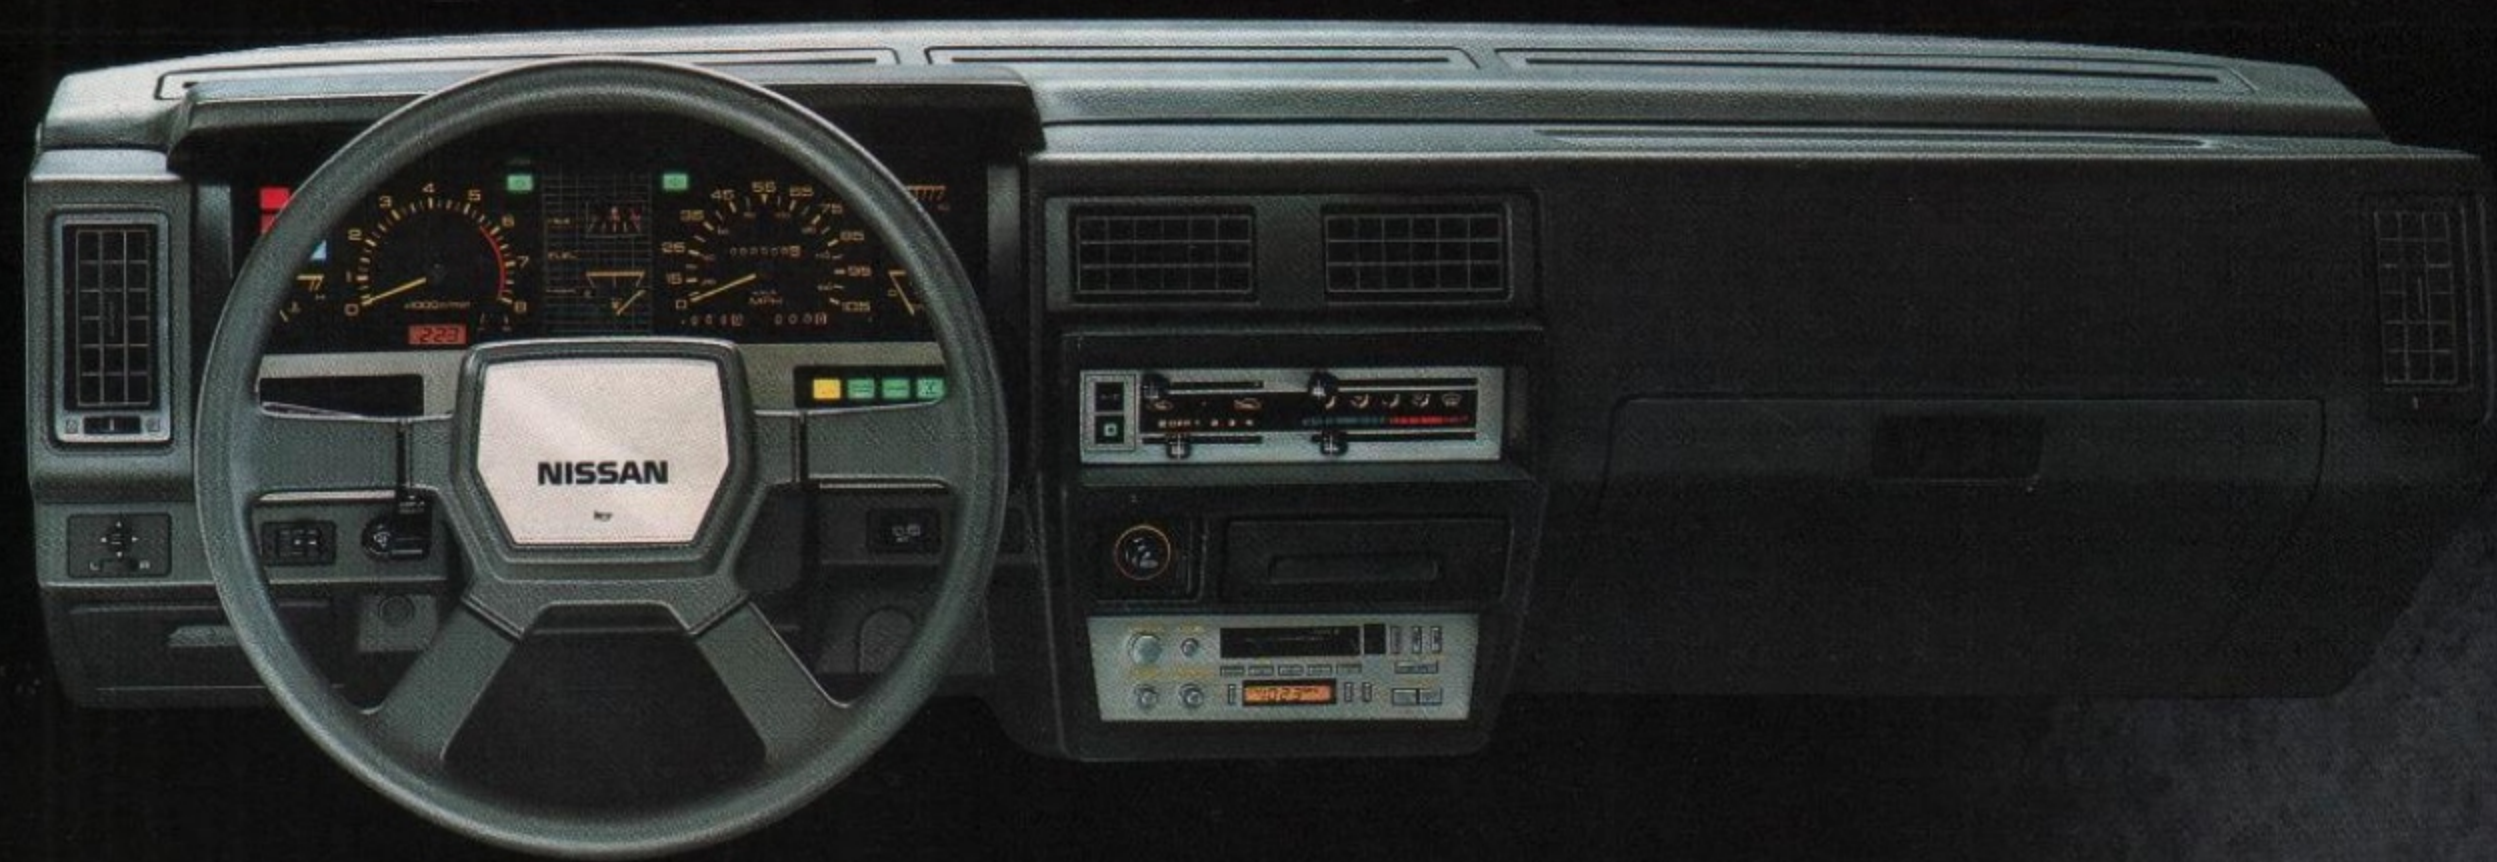

largest tires from any manufacturer in the class. This outstanding optional package also features power door locks, power windows, dual power side mirrors, an electronically tuned AM/FM 100-watt stereo radio with cassette and more. And for those who want their off-road adventures extra rugged, there's an optional Off-Road Equipment Package which you can read about on page 10.

With all the comfort and versatility of Nissan's Pathfinder SE, you truly have a new road to travel. Where it goes is entirely up to you.

Nissan's fuel-injected, 3.0-liter, overhead-cam V6 pounds out 140 horsepower.

This Pathfinder SE, accented by black bumpers, is shown with optional alloy wheels and optional big 31x10.5R15 steel-belted radial tires.

The clean design of the instrument panel makes every gauge easy to read.

For extra convenience on the open highway, you can have cruise control.

Optional shock absorbers you can adjust from the driver's seat provide the same type of handy convenience you'll find on the Nissan 300ZX Turbo. Pick a normal or firm ride with the flick of a switch on the console of your Pathfinder SE. It's the ideal way to choose the ride you want, no matter what type of road you're on.

Take the high road to comfort.

It's hard to feel comfortable when you're squeezed into a small space, and that's precisely why the Pathfinder places so much emphasis on roominess. Inside the Pathfinder SE there's plenty of room for five long-legged adults to stretch out in pure comfort. In fact, Pathfinder boasts one of the largest front

seat leg room areas within the class.

Enhancing Pathfinder's spacious environment is the clean, open design of the handsome instrument panel that includes a tachometer, twin trip odometers and a dual-scale fuel gauge. Every instrument is easy to read. Every control is easy to reach. Plus, the 4-spoke steering wheel is designed to give you the best grip possible for extra control.

You'll enjoy the firm support of the front bucket seats upholstered in plush cloth and the added comfort of an adjustable lumbar support for the driver's seat. The reclining rear seat gives your passengers extra comfort, too. Standard equipment also includes color-coordinated carpeting that extends front to back, full door trim panels that feature cloth inserts with map

pockets, convenient cruise control, electronically tuned AM/FM stereo radio, variable intermittent wipers and a rear window wiper/washer with intermittent feature.

So take the high road with the Pathfinder SE. It delivers the kind of comfort you might expect to find only in the most luxurious passenger cars.

The road to adventure was never so stylish.

Whether you're taking in the local art show or taking on rugged terrain, the Pathfinder XE adds to the fun with smooth and easy comfort and beautiful styling.

The body is hard and tough. The lines fresh and clean. From the aerodynamic roofline, raked windshield and sloped hood to the flared fenders and styled steel wheels—it all blends together to create a sleek, slippery look. The ideal look to match

this Pathfinder's outstanding performance!

Just like the Pathfinder SE, the XE model boasts a V6 powerhouse that attacks mountains as if they're molehills. Other outstanding standard features include a coil spring, 5-link rear suspension system that allows each wheel to step over bumps independently. Sharp turns and

winding roads become a breeze with power steering and power brakes. Plus, there are stabilizer bars in both front and rear.

Inside, the adjustable steering column has a memory tilt feature that makes getting in and out easy. Additional standard features include the richness of full carpeting from front to back, seats covered in cloth

upholstery, a remote glass hatch release, rear window defroster, tachometer, a digital clock to keep you on time, a 2-spoke, padded steering wheel for added comfort, tinted glass for reduced glare and auto front locking hubs. Plus, with the optional automatic transmission you'll also have cruise control.

Let the Pathfinder XE take you on the road to adventure. It could be the most stylish, relaxing trip you've ever made.

The roomy interior of the Pathfinder XE is highlighted by sporty bucket seats upholstered in plush cloth.

Pathfinder XE has standard halogen headlights and optional trim rings.

An open road to value.

For many, the road to value used to be dull and boring, but no more. Now with the Pathfinder E, it's as exciting and as much fun as the great outdoors. And even though this is Pathfinder's most affordable model, it still manages to deliver a big load of standard features at an incredibly modest price.

For instance, a liberal use of galvanized steel gives your Pathfinder E investment extra corrosion resistance. Plus,

insulation has been carefully designed into every area of Pathfinder to help achieve a quiet ride.

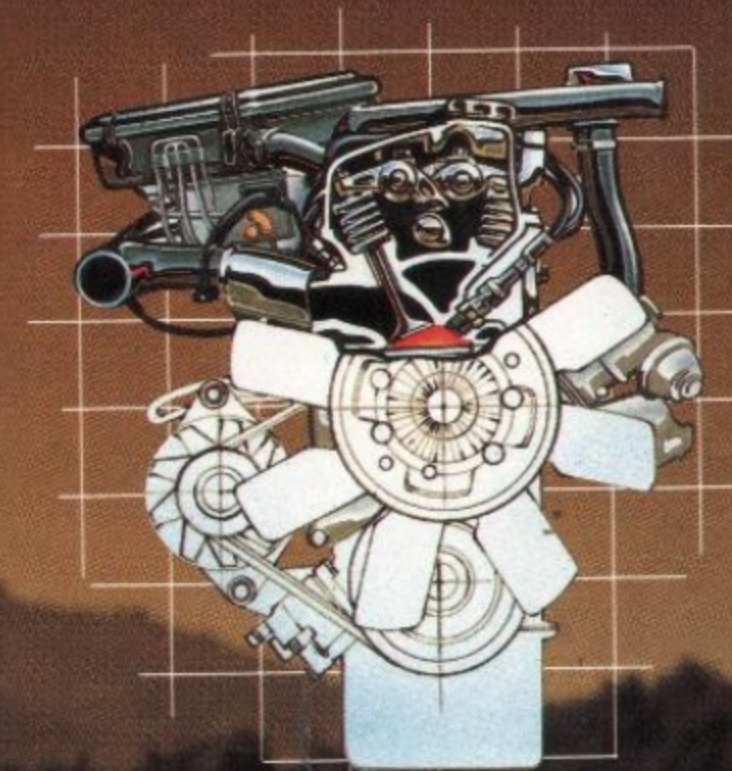

Under the hood there's a powerful, fuel-injected, 2.4-liter, overhead-cam engine—the only twin-spark hemi-head going. Combined with a smooth-shifting, 5-speed overdrive manual transmission, you're geared to go just about anywhere.

To smooth out the bumps and improve control, the Pathfinder E also boasts the only coil spring, 5-link rear suspension within the class. Plus, there are big P215/75R15 tires, power steering and power brakes. You even have a clutch interlock-override system that helps you get going on steep hills and over rocks.

The long list of standard fea-

tures also includes halogen headlamps to help you see through fog and mist. Inside, there's a color-coordinated console, day and night rear-view mirror, a glove box to help store valuables, a rear window defroster, full door trim, a low-fuel warning light and dual side-view mirrors for added safety.

At last, with the Pathfinder E you can have both fun and convenience when you're on the road to value.

Fuel-Injection Power.

A 2.4-liter, twin-spark, fuel-injected, hemi-head engine gives the Nissan Pathfinder E an extra edge on or off the road. This engine utilizes a micro-computer to monitor 1) the amount of fuel injected, 2) ignition timing, 3) spark plug switching, 4) mixture ratio feedback, 5) mixture heater operation and 6) fuel pump

operation. Thus, it's one engine that can "sense" how much fuel is required to perform a job—adding it, for example, when you're accelerating or carrying a big payload, and conserving it when you're decelerating or when your Pathfinder is cruising. The result? Optimum performance with optimum efficiency.*

*See E.P.A. estimates, page 10.

Equip your Nissan Pathfinder with extra convenience, comfort and value.

It's easy to do with Genuine Nissan Accessories. Nissan has a wide range of accessories to choose from, and each one has been specially designed to fit Pathfinder's individual styling. What's more, with every Genuine Nissan Accessory you select, you know you're getting all the benefits and advantages that come from Nissan's 50 years of dedication to innovation and quality. Here are just some of the top-quality Genuine Nissan Accessories available to you.

Air Conditioner. Designed for a custom fit on all Pathfinders, Nissan's air conditioning system enhances your comfort throughout the year.

Radio. There are five to choose from, including a state-of-the-art electronically tuned stereo radio with an auto-reverse Dolby® cassette deck.

Floor Mats. Available in soft, cut-pile carpeting or supple rubber, Nissan's color-coordinated floor mats are the ideal match for your Pathfinder.

Exterior Tire Cover. Helps keep the spare tire clean and enhances the appearance of the vehicle.

Contour-Styled and Tubular Steel Grille Guard and Brush Guard. Gives your Pathfinder extra style while helping to protect it from rocks and brush.

Fog Lights. See and be seen, no matter how bad the weather.

Contour-Styled and Tubular Steel Winch Mount and Nissan Winch. Light alloy, compact winch gives you 4200 lbs. of pull wherever you go.

Trailer Towing Mirrors. Tow your trailer safely and with confidence with these removable, tripod-style stainless steel mirrors.

Fender Flares. Provide added protection for the vehicle body and also enhances the appearance of the 1987 Pathfinder.

Splash Guards. Help protect your Pathfinder from damage that can be caused by rocks and dirt.

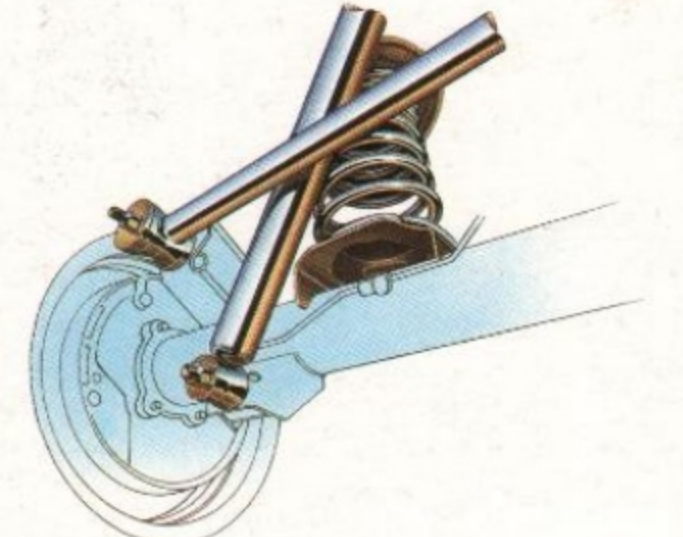

Exterior Tire Mount. Adds to the sporty look of your Pathfinder on the outside and adds to the cargo area inside.

Roof Rack. Designed to accommodate optional Nissan ski and bike attachment.

Nose Mask. Designed to provide added protection and a great look.

Nissan's optional Off-Road Suspension Package.

This package has been specially developed by the Nissan Motorsports Department to increase your enjoyment of rugged off-road conditions and is available through your dealer's parts department. It includes heavy duty torsion bars, springs and shocks designed for demanding off-road use.

A unique 5-link coil spring rear suspension system has been specially designed to help make the adjustment from highways to byways smooth and easy and to provide greater suspension travel.

Zippered vinyl tire cover helps keep your spare tire safe and protected from the elements.

With the split rear seats folded down, the Pathfinder SE can carry extra cargo.

Rear liftgate features a glass hatch for convenient access. (XE and SE).

Pathfinder features quarter windows for improved ventilation.

Pathfinder SE has the added convenience of a rear window wiper/washer with intermittent feature.

Nissan's Security+Plus.®

Nissan's Security+Plus can help protect you today, tomorrow and down the road. One of the most comprehensive protection plans on the market today, it offers you a full range of term options—up to 60 months/100,000 miles. Just choose the plan that best fits your needs. What's more, you'll automatically receive one year's free membership in the Cross Country Motor Club, including emergency road service and travel plan assistance.

Ask your participating Nissan dealer about Security+Plus. With all the pluses it includes, it'll give you a nice, secure feeling.
