

Nissan Stanza

1990

Proof that
performance
and exquisite
styling can come
together in
an affordable
mid-sized sedan.

▲ The all-new, completely redesigned Nissan Stanza GXE Sedan. Shown here in Bermuda Blue Metallic.

A remarkable new blend of styling, luxury, performance and value.

What you'd hoped for...and then some.

It's impressive enough finding a mid-priced family sedan with outstanding power and road-gripping handling. Or the luxury of a fully-appointed interior. But when you add room for five and reassuring reliability, the all-new Nissan Stanza just may be the best value around for you and your family.

Revolutionary Traction.

Available for the first time in the U.S., Stanza's state-of-the-art Advanced Traction Control™ system* enhances handling and helps take you smoothly through slippery spots by automatically transferring power between the front wheels as needed.

Responsive power and crisp handling.

Touch the pedal and feel the power of Stanza's surprisingly quiet 138-hp, 2.4-liter, 12-valve engine. Take it around a corner and feel the sure-footed handling. Just don't be surprised if you forget you're driving a sedan.

GXE

XE

A choice of trim levels.

With the exciting all-new Stanza, you'll have some choices to make—luxurious GXE or value-packed XE, each with your choice of transmissions.

Room for you and yours.

Growing families need plenty of room in the back seat. And plenty of trunk space. With plush seating for five, and a generous 14-cubic foot trunk capacity, the all-new Stanza is a perfect fit.

State-of-the-art anti-lock braking.

An optional Anti-lock Braking System (ABS) on Stanza GXE makes your stops shorter and easier to control, especially when they're sudden stops on slick road surfaces.

*Available on GXE model only.

▲ The 1990 Nissan Stanza. An appropriate suggestion for those seeking an affordably-priced, elegantly-styled per-

formance sedan. (GXE model shown here with optional sunroof.)

► Power rack-and-pinion steering enables you to handle curves and corners with precision and control.

Sleekly styled,
well appointed,
highly advanced.
And still an
affordable value.

Most people in the market for a mid-priced sedan have to put practicality before luxury. But you don't have to. The Stanza GXE offers a long list of luxury amenities at no extra cost.

Get inside. Try the power windows, locks and mirrors, cruise control and tilt steering column that come standard.

Take it out on the road and experience the responsive 2.4-liter engine which puts out 138 hp... the highest of any standard 4-cylinder engine featured in a mid-sized sedan. Feel the nimble handling of its power rack-and-pinion steering, ABS braking* and exclusive Advanced Traction Control™ system that helps maintain traction through slippery spots. It's the car that acts like a performance sedan—at a price you can afford.

*Optional on GXE only.

► The GXE's sleek aerodynamic design is something you'll not only appreciate at highway speed, you'll also be impressed with its beauty

when it's standing perfectly still. (Shown here with optional sunroof.)

► Stanza's flush-mounted halogen cornering lights clearly illuminate your way when turning in the dark.

► The GXE's optional power sliding glass sunroof helps draw stale air out of the cabin and lets fresh air take its place.

► The GXE's dual power remote-controlled outside mirrors can be conveniently adjusted from the driver's seat.

With Stanza GXE, the luxury found within is the standard throughout.

Step inside the 1990 Stanza GXE and enjoy a sumptuousness usually reserved only for expensive luxury sedans. Comfort surrounds you with richly covered contoured seating. The front bucket seats adjust to fit you—not the other way around. The driver's seatback reclines, and the seat cushion tilts to your preference. There's also an adjustable lumbar support designed for your lower back. And for rear seat passengers when only two are on board, fold down the GXE's center armrest for added comfort.

You'll find the interior bright and airy, with plenty of head and leg room for front and rear passengers alike. And you'll immediately notice the outstanding visibility all around and plush carpeting below.

▲ Open the door to the Stanza GXE and be prepared for a luxuriously pleasant surprise. (Shown with optional automatic transmission.)

► The GXE's front seats can be adjusted six different ways to accommodate your personal preference.

► Easy-to-reach controls for front cushion height, rear cushion height and seatback recline let you precisely set the GXE's front seating.

► When just two passengers are in the back, they can lower the center armrest for increased comfort.

► Stanza's center console serves as both a comfortable armrest and a convenient storage place for items you wish to keep close at hand.

► Remote trunk and fuel-filler door releases allow you to conveniently open either from inside the car.

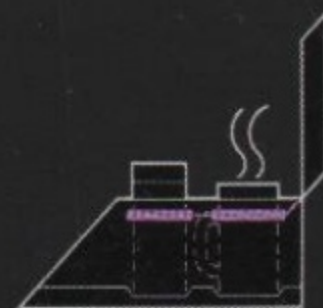

Stanza's high standards are evidenced in an instrument panel that puts you in complete control.

▶ The GXE's comprehensive list of standard features includes air conditioning and a superb-sounding, 4-speaker, electronically-tuned

AM/FM stereo and auto-reverse cassette. (Shown here with optional automatic transmission.)

▶ A front console with dual cup holders, designed to combine comfort with convenience, is just another extra that's standard on Stanza.

▶ Standard on the GXE model, dual overhead maplights allow the driver or passenger to check a map after dark.

▶ The GXE's power windows feature a driver's window one-touch down mode which lowers the window completely with a single push.

▶ The standard adjustable tilt steering column moves out of the way with just a press of a lever to make getting in and out of the car easy.

▶ Power remote control lets you adjust both outside mirrors with the simple touch of a button from the driver's seat.

True value redefined in an elegant package of performance and comfort.

The attention to comfort and detail found in the GXE is carried out to an impressive degree in the economical Stanza XE. Though priced lower than GXE, it offers most of the same features. All the power you'll need is supplied by the same technologically advanced, 2.4-liter engine. Behind the wheel you'll feel the same precise handling and control thanks to front-wheel drive, power rack-and-pinion steering and 4-wheel independent suspension.

Inside, comfort and convenience surround you with amenities such as 2-speed wipers with variable intermittent feature, electric rear window defroster and side window defoggers. Now relax in the contoured front bucket seats and take to the road with confidence.

▶ Like the GXE, the value-packed Stanza XE offers sophisticated styling and dynamic road performance. (Shown here with

optional alloy wheels and Power Convenience Group.)

▶ Child safety rear door locks are an added Stanza feature that prevent children from accidentally opening the doors once they're inside.

▶ On both XE and GXE models, an optional 4-speed automatic overdrive with lock-up torque converter is available to do the shifting for you.

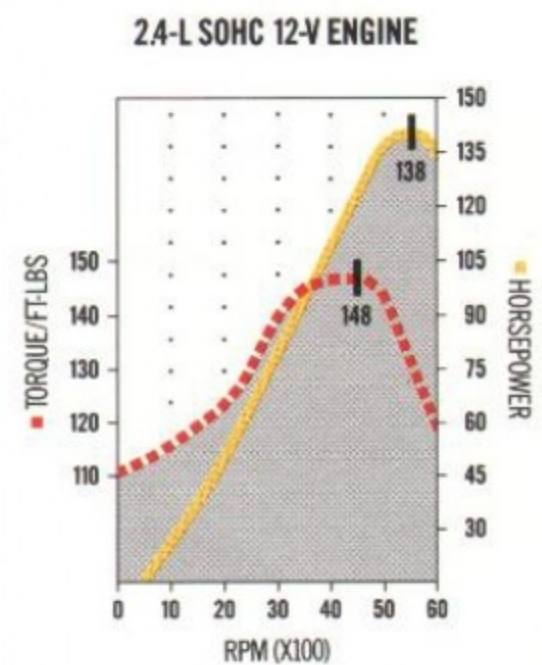

▶ The optional electronically controlled 4-speed automatic overdrive lets you select the shifting mode best suited to your driving style.

▶ With body-contoured seating and ample room for five, Stanza XE proves that some luxuries need not cost a fortune. (Shown with optional equipment.)

The all-new Nissan Stanza brings high technology down to human terms.

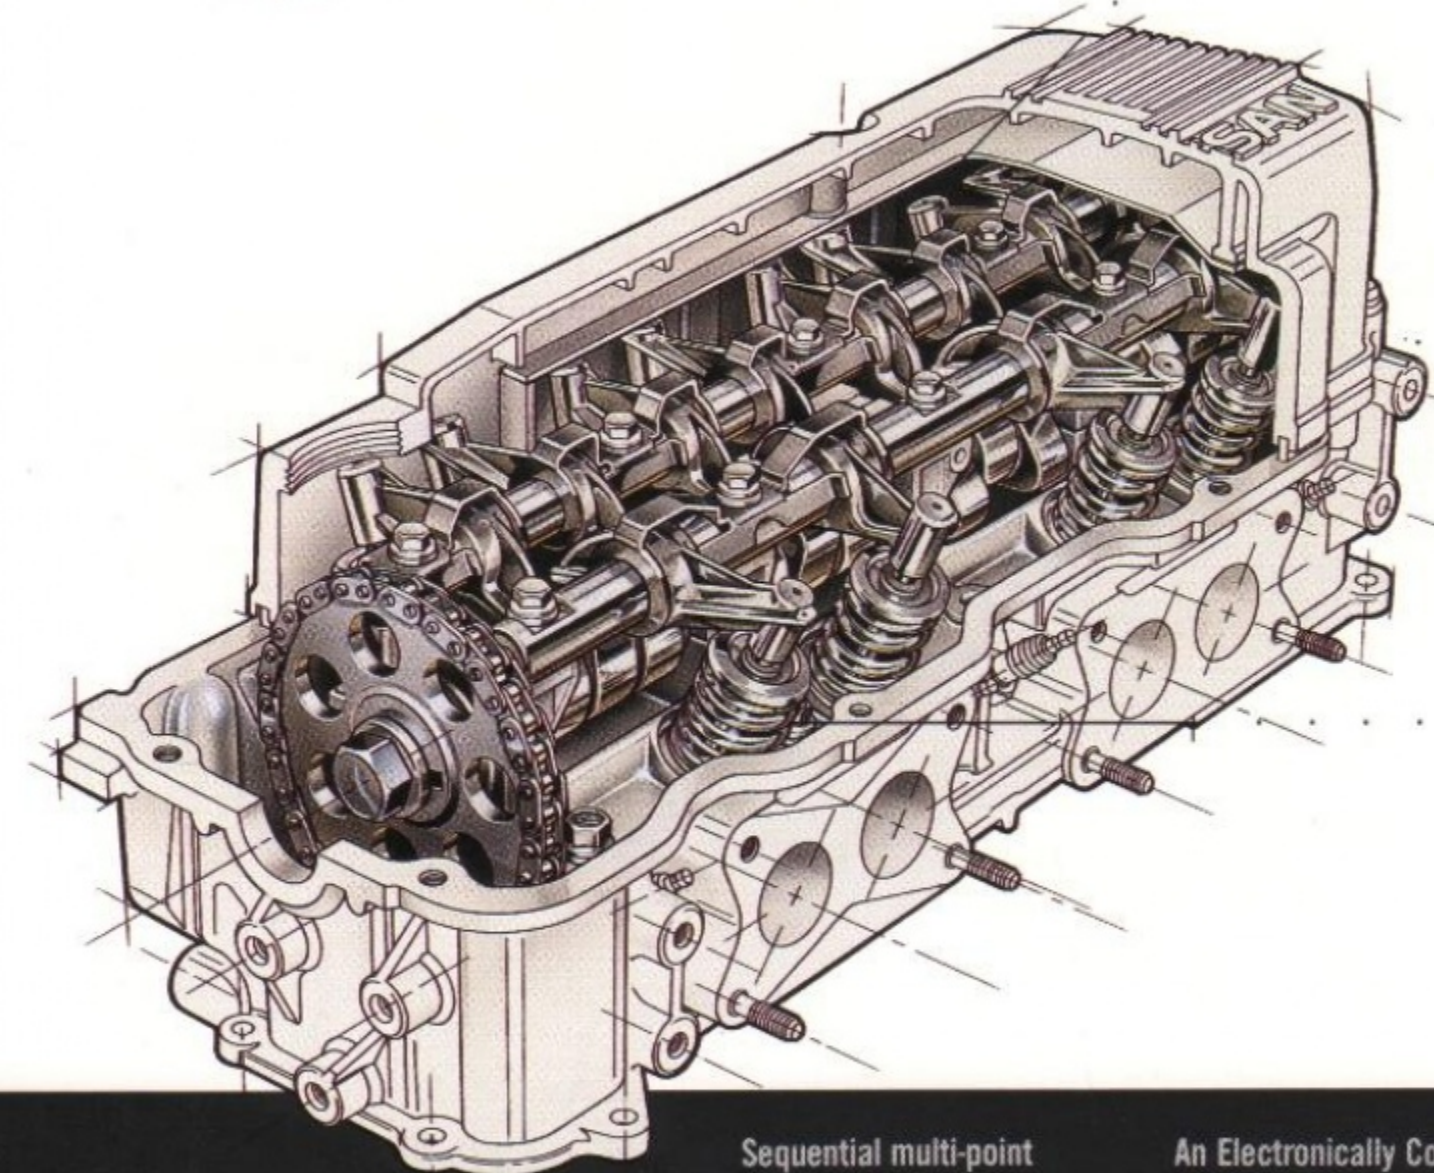

What good is high technology unless it means something to the people who use it? Well, with the new Stanza, as well as all the other Nissans, every one of our advances contributes to the creation of an automobile that satisfies your driving needs.

Power when you need it.

To fully appreciate Stanza's 2.4-liter, 12-valve engine, you

don't need to analyze how it delivers an impressive 138 horsepower—the highest of any standard 4-cylinder in a mid-sized sedan; or how its sequential multi-point fuel injection system precisely measures the amount of fuel needed for any driving condition. Instead, all you really need to do is get behind the wheel to appreciate its power.

Sequential multi-point fuel injection allows for easier start-ups and a smoother idle, as well as virtually eliminating engine stalling.

An Electronically Controlled Computer System (ECCS) automatically regulates all fuel injection, ignition and induction systems.

Stanza's 3-valve combustion chambers provide high intake capability, allowing the engine to "breathe" more deeply for increased power output.

State-of-the-art transmissions.

Sophisticated technology is also behind Stanza's choice of transmissions. A close-ratio 5-speed manual overdrive, standard on GXE models, provides crisp, responsive shifting and helps maximize fuel economy.* If, however, you'd prefer an automatic, an optional electronically-controlled 4-speed with overdrive offers "power," "comfort" and "automatic" modes for improved performance under all driving conditions. "Power" is ideal when you need extra pickup; "comfort" allows for smoother shifting on the open roads; and the "automatic" setting lets the on-board com-

puter decide which mode is best at any given moment.

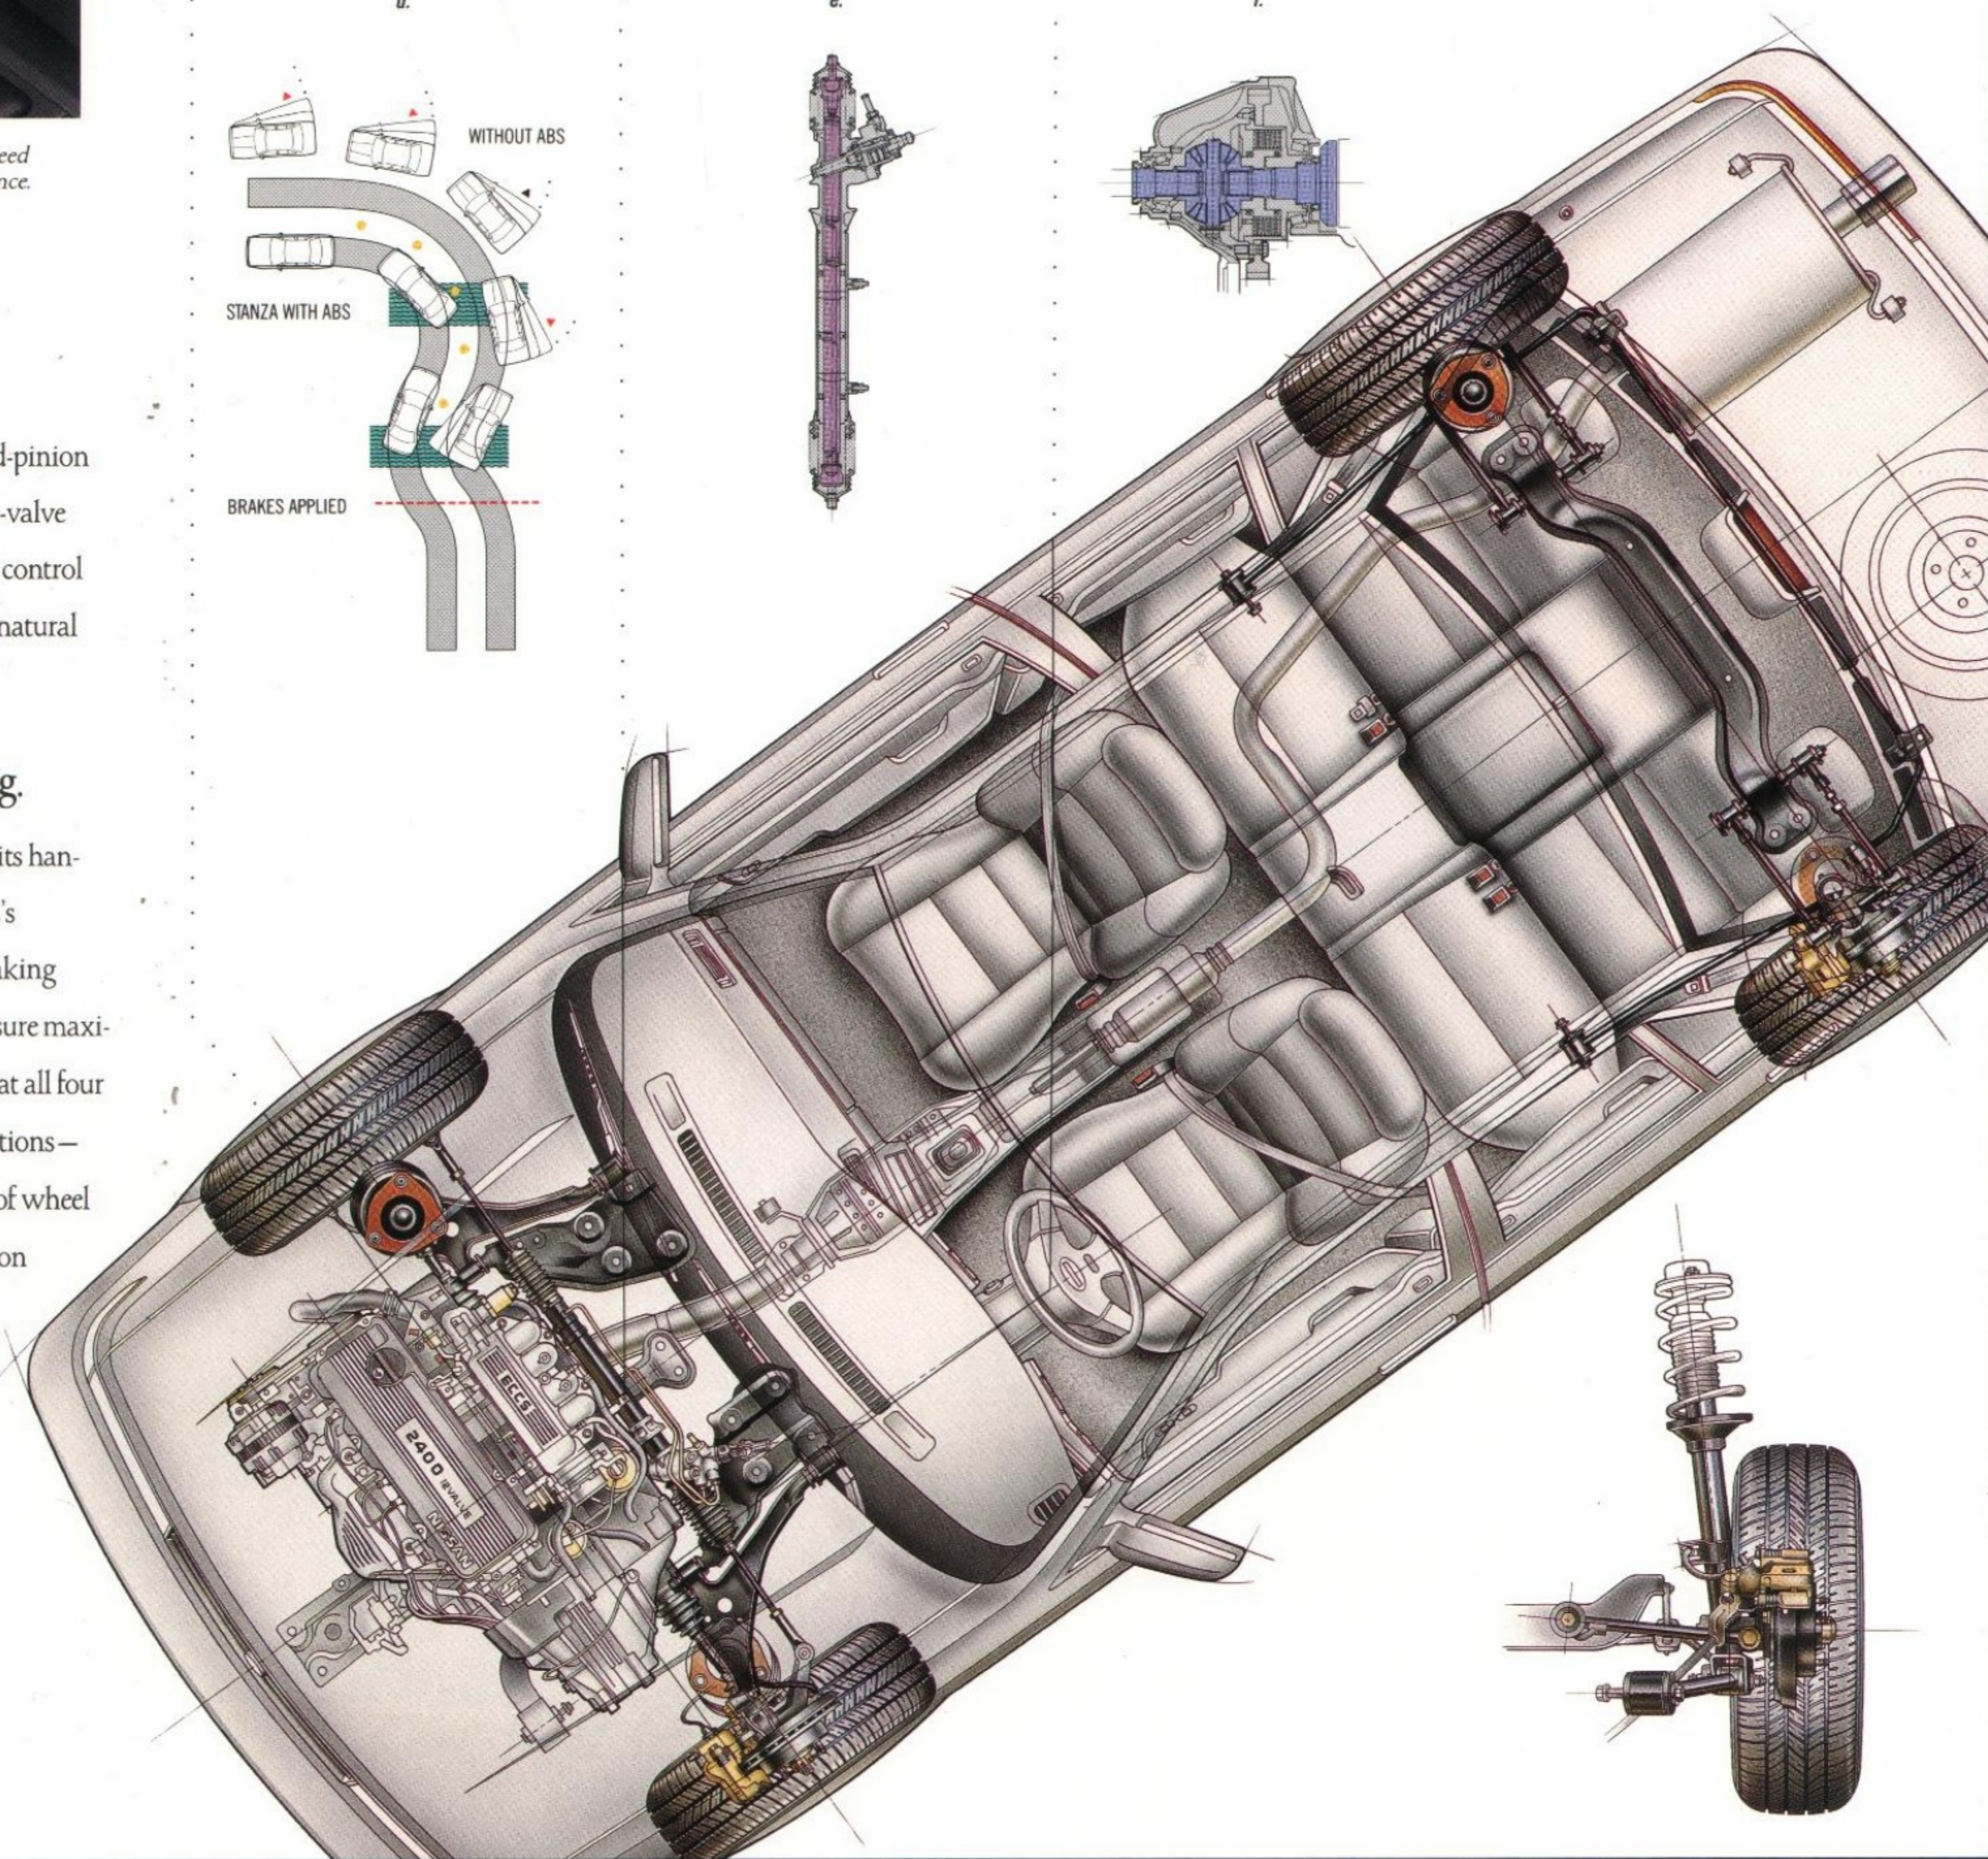

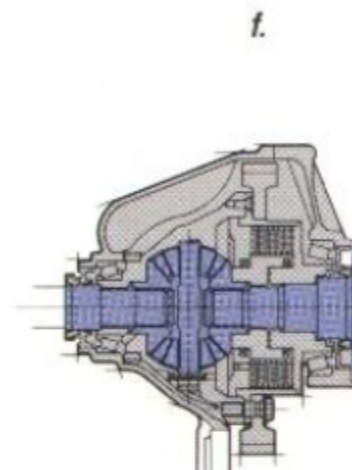

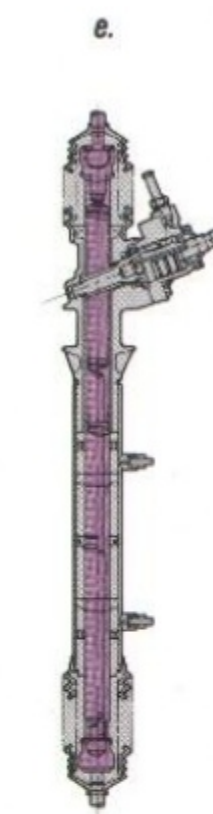

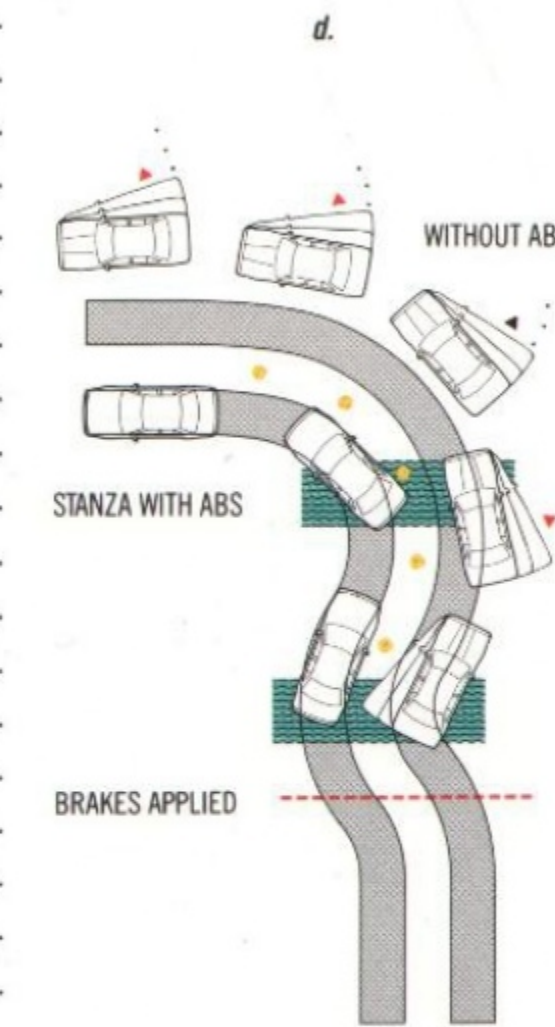

Outstanding handling.

Stanza's uncanny feel for the road is thanks in part to an exclusive, state-of-the-art differential system. Available for the first time in the United States, the GXE's revolutionary, new Advanced Traction Control™ system features a front viscous limited-slip differential that helps you get over slippery spots in the road by automatically transferring power between the front wheels as needed. If one wheel should lose traction, the power goes to the other wheel to carry you through.

Power steering.

Adding to those remarkable handling capabilities is im-

The GXE's close-ratio 5-speed enhances overall performance.

*See EPA estimates, page 21.
**Available on Stanza GXE only.
***Shown with optional ABS braking.

Stanza GXE's optional Anti-lock Braking System with 4-wheel disc brakes offers better stopping power and improved control on slick surfaces.

Power rack-and-pinion steering, standard on both models, allows for precise handling and ease of maneuverability.

The Advanced Traction Control™ front viscous limited-slip differential** smoothly transfers power between front wheels, maximizing traction.

▲ Stanza's independent rear suspension with MacPherson struts and stabilizer bar minimizes body sway to further improve handling***

Personalize and protect your Stanza with Genuine Accessories from Nissan.

At Nissan, we understand that, as a new owner, you'll find certain accessories indispensable in outfitting your Stanza to meet your personal needs. That's why we offer such a complete line. And because they're Genuine Nissan Accessories, you can be sure of easy installation, proper fit and a factory-backed warranty—a few things most generic accessories can seldom offer.

Armrest

A center armrest adds a touch of luxury to your driving comfort, with its color-coordinated good looks and functional design.

Custom-Fitted Car Cover

Protect your Stanza from the elements and keep it looking new with a custom-fitted cover and optional cable lock.

Carpeted Floor Mats

Designed specifically to the shape of your Stanza, these genuine Nissan floor mats with custom-matched color and embroidered logo provide a perfect fit and protect your carpets from wear and tear.

Nose Mask and Fog Lights

Stanza's custom-fitted nose mask protects the front grille, while fog lights help light the way when conditions are less than ideal.

Sunroof Wind Deflector

A genuine Nissan sunroof wind deflector keeps annoying gusts of wind outside, while providing you with plenty of fresh air inside.

Splash Guards

Specially designed Nissan front and rear splash guards help protect your Stanza from harmful road debris.

Compact Disc Player

Surround yourself in sound with the clarity of a Sony® compact disc player, or any one of Nissan's acoustically-engineered audio systems. They're the perfect enhancement for your Nissan Stanza's interior.

Rear Deck Rack

Extra carrying capacity can be added to your new Stanza with the specially designed deck rack. Its sturdy form combines function with sporty good looks.

Infant/Child Safety Seat

It's comforting to know that Nissan's infant/child safety seat provides added security for your smallest passengers, meeting all Federal quality and performance standards.

▲ Genuine Nissan Accessories such as the nose mask, sunroof wind deflector, rear deck rack and splash guards shown here not only dress up

your new car, they protect your investment, too. (GXE Sedan shown with optional sunroof.)

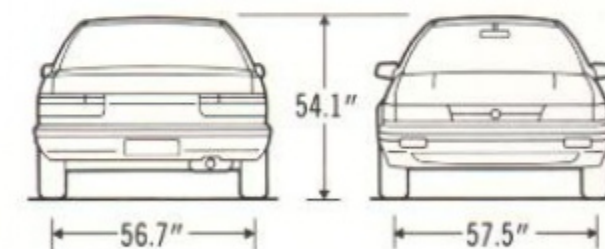

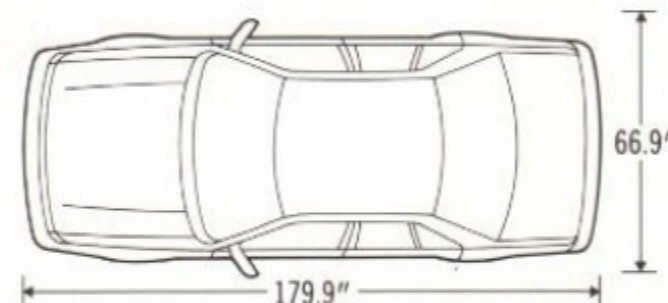

► For that extra peace of mind, Nissan's Vehicle Security System features delicate sensors at six strategic locations.

► Easy-to-install locking lug nuts for your Stanza's wheels utilize a unique puzzle-style lock to help deter thieves.

BEIT YOURSELF Nissan Motor Corporation in U.S.A., and your Nissan dealer urge you to be a smart driver and use your seatbelt/shoulder belt whenever you drive. It does save lives. Remember, if you don't belt yourself, you're kidding yourself.

A sincere commitment that extends to every area of vehicle ownership.

With Nissan, from the day you first enter one of our showrooms to the day you trade in your vehicle, you'll witness our commitment to satisfying your needs.

Customer satisfaction starts with the right product for you. So we offer you 34 car and truck models to choose from—each designed and equipped to meet the varying needs of today's discerning drivers.

In addition, Nissan and our nationwide dealer body have

committed the combined services of over 59,000 employees throughout the United States, as well as other resources, including the innovative Nissan Design International in La Jolla, CA; NMMC, a state-of-the-art manufacturing facility in Smyrna, TN; Nissan Research and Development in Ann Arbor, MI; plus one of the world's most sophisticated proving grounds—the Arizona Test Center—located near Phoenix.

Testing on some of the world's most rigorous proving grounds ensures that every Nissan car and truck is ready for the human race.

NDI is an advanced design facility located in La Jolla, California.

In all, Nissan commits over \$4 billion to U.S.-sourced goods and services each year.

Coast-to-coast dealer support.

The strength behind our commitment to customer satisfaction comes from a nationwide network of over 1,100 dealers. These Nissan representatives are the ones to look to for courteous service whenever you're far from home.

Reassuring warranty coverage.

Every 1990 Nissan offers the protection of a 3-year/36,000-mile "bumper-to-bumper" limited warranty. Completely transferrable if you sell your Nissan, this warranty is

one of the most complete in the industry with limited exclusions. There's also a 1-year/12,000-mile warranty on all Genuine Nissan Parts.

Added peace of mind—Security+Plus®.

For that extra peace of mind, you can add Nissan's own Security+Plus® Vehicle Protection Plan. Backed by Nissan and designed exclusively for Nissan owners, it's available in a variety of comprehensive coverages and provides you with long-term mechanical protection.

One-stop shopping and financing.

Through your dealer, Nissan Motor Acceptance Corporation (NMAC) offers rates and terms

that are highly competitive with most local lending institutions. In addition, you receive the added convenience of a fast loan approval. In fact, in most instances, your application may be approved while you're still at the dealership.

We're as close as your phone.

Finally, if you have a question or problem, or need product literature or a dealer referral, our toll-free number puts you in touch with Nissan headquarters. If you need us, just dial 1-800 NISSAN 1—because, at Nissan, we really are committed to ensuring that your experience with our products is totally satisfying.

* 1989 J.D. Power & Associates New Car Initial Quality Survey. Based on owner-reported problems during first 90 days of ownership.

► We know our greatest asset is a satisfied customer. That's why we strive to make owning a Nissan something you'll want to do again.

► As the #1 Asian manufacturer of trouble-free vehicles, Nissan is the name to trust for quality and reliability.*

► With over 1,100 Nissan dealers nationwide, you're assured of prompt, courteous and reliable service whenever you're away from home.

► If ever you have a comment, suggestion, complaint or request, just call us toll-free at 1-800 NISSAN 1.
