SERIOUS FUN.

This year, the LE has a whole new image. And it's working in more ways than one. You always knew this Corolla was a smart buy, but now it's loaded with a whole lotta features you wouldn't expect a car in this class to have. Don't be surprised if your co-workers think you got a raise.

SOUVENIR

AS WITH ALL FAMOUS FAMILIES, THE LATEST-GENERATION COROLLA COMES WITH SOME SURPRISES.

Unconventional styling and unexpected features bring an irreverent approach to a solid bloodline. Crazy kids.

S – The sporty Corolla.
Color-keyed underbody spoilers and side rocker panel moldings set the tone for this Corolla's aggressive styling. Inside, the S continues with wish-list features that come standard, adding to its bold look.

LE – A subtly upscale feel.
Once you move past the attractively redesigned exterior, the LE is equally appealing inside. The cabin features amenities you wouldn't think you'd find in this class.

CE – Always a smart choice.
The core of the Corolla family, this is the Corolla that prides itself on being affordable, fuel-efficient¹ and well-equipped. In other words, a great value.

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, front-wheel drive, rear-wheel drive, seatbelts and air bags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable *Owner's Warranty Information* booklet for details.

For complete details about Toyota's warranties, please visit toyota.com, refer to the applicable *Owner's Warranty Information* booklet or see your Toyota dealer.

¹The Toyota driver, front passenger and front seat-mounted side-impact air bags are Supplemental Restraint Systems (SRS). The driver and front passenger air bags are designed to inflate in a severe frontal collision. The side-impact air bags are designed to inflate in severe side-impact collisions. In all other accidents, the air bags will not inflate. To decrease the risk of injury from a deploying air bag, always wear seatbelts, sit upright in the middle of the seat as far back as possible from the air bag modules and do not lean against the door. Do not put objects in front of an air bag or around the seatback. Do not use rearward-facing child seats in any front passenger seat. The force of a deploying air bag SRS may cause serious injury or death. Please see your *Owner's Manual* for further instructions.

²Includes manual day/night mirror with maplights when equipped with available power tilt/slide moonroof.
