

Falcon

There's never been a Falcon quite like the remarkable, all new Ford G Series. Our designers and engineers have created a vehicle that perfectly blends a spirited driving experience with levels of luxury and comfort you'd expect to find in expensive European marques. From engines and transmissions that deliver true sports performance and exceptional fuel efficiency, to an interior that redefines family comfort, it's a vehicle that's perfectly designed for your next getaway, wherever that may be.

Series

Spacious luxury.

With so much room and luxury for every occupant, the Falcon interior means everyone travels first class.

You can comfortably seat five adults in the Falcon, so while the driver can luxuriate in a dynamic cockpit that boasts improved ergonomics for even greater driving pleasure, passengers can sit back and experience new levels of luxury, including a range of interior trim options. Also, if the kids aren't on board, the Falcon's smart and flexible cabin layout can adapt to your needs, like being able to fold part or all of the rear seats down to create a generous cargo space.

Class-leading towing capacity.

Whether you're hooking up a boat or a camper trailer you've all the power and torque you need to tow up to 2300kg.*

Flexibility of a folding second row seat.

A 60/40 split fold rear seat gives you added cargo space and a more flexible interior.

Class-leading boot capacity.

Pack all the family's bags and still have room enough for the golf clubs and a few boogie boards.

Class-leading interior space.

The Falcon leads its competitors with the best headroom, hip room and shoulder room, in the front and rear.

*When fitted with an automatic transmission and Genuine Ford heavy duty towbar and load levelling kit. Towball download and rear axle limits must not be exceeded. E-Gas models require auxiliary transmission oil cooler. Please refer to your Ford Dealer for advice.

G6E Turbo shown with no cost optional Cashmere Leather seat trim.

Technology & comfort.

Falcon's athletic exterior holds much promise, and once behind the wheel that promise is well and truly kept.

All of the innovative comforts and interior finishes in the new Falcon have been created with the driver in mind. The interior is an environment where technology and comfort combine to deliver an exhilarating yet sublime driving experience. And it's an experience that is as stress-free as possible, thanks to all of your creature comforts and controls being within easy reach.

Child night lighting.

Adjustable interior lighting means that you can keep an eye on the little ones while they're snoozing without disturbing a moment's rest.

Automatic climate control.

When you can set the interior temperature to suit, the family travels in complete comfort regardless of what mother nature has in store.

G6E Turbo shown.

Easy-to-use technology.

The Ford Falcon has a long list of technological features that provide you with greater control and more comfort.

From the hands-free convenience of Bluetooth® mobile phone integration* with steering wheel button control, to the high-resolution graphics of the optional satellite navigation system*, the technology available on-board the new Falcon is not only very user friendly but helps to make every journey more enjoyable and comfortable. Plus, vehicle controls and functions are easily navigated via the Human Machine Interface (HMI).

Multi-function Display.

The easy-to-read Multi-function Display allows you to check everything at a glance, from speed and journey distance to vehicle warnings and more.

G6E Turbo shown.

Bluetooth® mobile phone integration:

iPod Integration:

Satellite navigation system:

Guides you to your destination via a map on the large 7" colour ICC screen and voice commands integrated within the vehicle's audio system.

Human Machine Interface (HMI).

Incorporating the Interior Command Centre (ICC), Multi-function Display and steering wheel controls, the HMI, via two display screens, allows simple navigation of menus and operation of vehicle functions. This greatly increases safety, because you can easily see information such as speed, overspeed, audio information, trip computer, average fuel economy, average speed, travel time and more, minimising the time that your eyes are off the road. The ICC control dial makes it simple to navigate through all of the vehicle settings and make adjustments to features such as automatic climate control and audio settings.

Bluetooth® mobile phone integration:

Enjoy safe, hands-free communication while you are driving. Integrated into your vehicle's audio system.

iPod Integration:

Allows you to access and play your favourite playlists, albums and podcasts on your iPod through the vehicle's audio system, with everything controlled through the ICC control dial or steering wheel buttons.

iPod docking location.

Because your iPod sits snugly within the centre console bin there's no clutter. Control via the ICC control dial or steering wheel buttons improves safety. Plus your iPod charges whilst connected.

*Standard on G6E and G6E Turbo. Available as part of optional Technology Pack on all other models. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under license. #Not available on Falcon XT, Falcon XR and G6 require mandatory Technology Pack. When specified, overhead sunglasses console fitted. *Standard on G6E Turbo. Available as part of optional Technology Pack on all other models. iPod is a trademark of Apple Inc. Please refer to ford.com.au for iPod compatibility.

Safety comes first.

Falcon's most innovative and important features are those that make every journey a safer one.

A clear view of what surrounds you, along with cleverly located features that minimise the time that your eyes are off the road help you to avoid an accident before it can happen. In the new Falcon, safety starts before you even leave your driveway with a reverse camera* available that alerts you to things you can't see. You also have the peace of mind of features like the availability of a range of airbags, including curtain airbags†, Dynamic Stability Control‡ and a driver fatigue warning system. In the event of an accident, the Intelligent Safety System can determine which airbags to deploy in an instant.

Reverse camera.*
Activates automatically when the car is engaged in reverse gear. With a fisheye lens capable of providing a 130° wide angle view up to 10 metres behind the car.

Follow-me-home lighting.

Front headlights temporarily stay on once the vehicle is locked, providing lighting to guide you home.

Intelligent Safety System.

In the event of an accident occurring, information is fed to the Advanced Restraints Module which instantly deploys the appropriate safety technologies.

Airbags.

A range of up to 6 airbags, including curtain airbags†, are designed to enhance your protection in the event of a crash.

Reverse sensing system†

Automatically activates and provides a warning tone to assist the driver to reverse with greater accuracy.

DSC.

Dynamic Stability Control (DSC)‡ strengthens your connection to the road and helps you avoid the problems of oversteer and understeer. DSC tracks the vehicle's movement and then works in tandem with Traction Control and ABS to help keep the vehicle under control.

Driver fatigue warning.

Warns the driver to rest after driving for a continuous period.

Power adjustable pedals.‡

Adjust to the desired height for added driver comfort and safety.

Passenger safety cell.

Incorporating ultra-high strength steel for greater all round strength and protection, the safety cell greatly reduces intrusion into the passenger space, minimising the likelihood of occupant injuries.

* Standard on G6E and G6E Turbo. Not available on Falcon XT. Optional on all other models. Optional on G6 from Quarter 4, 2008. XR must be specified with mandatory reverse sensing system. † Curtain airbags are standard on G6E and G6E Turbo and optional on all other models. ‡ Available as part of the optional Safety Enhancement packs. Not included when specified with manual transmission. ‡ DSC also known as Electronic Stability Control. Not available when optional E-Gas engine is specified. † Standard on G Series. Optional on Falcon XT and XR.

A truly exhilarating drive.

With a range of powerful and fuel-efficient engines, and smooth precise transmissions, the all new Falcon allows you to customise the driving experience you desire.

Falcon's high-tech, state-of-the-art engines spoil you for choice and power. It all starts with the 4.0 litre I6 engine which delivers 195kW of power and 391Nm of torque. Next is the awesome 4.0 litre I6 Turbo, with a completely new turbocharger and air induction system, giving you 270kW of power and a whopping 533Nm of torque. Topping the list is the hand-assembled 290kW 5.4 litre V8. Or, if you want an engine that delivers fuel cost savings whilst still providing power, look no further than the E-Gas 4.0 litre I6 engine, which is fully integrated with the Falcon's engine management system.

Transmission.
The range of sophisticated transmissions, with a low first gear ratio and higher top gear ratio deliver a truly spirited driving experience. The greater dynamic range means livelier, energetic performance as well as more relaxed cruising and ultra-smooth gear shifts.

Falcon XR8 shown with optional XR luxury pack.

Falcon XR6 Turbo shown in Lightning Strike.

The 5.4 litre V8 engine delivers incredible power.
When you want to tap into some truly spine-tingling power, look no further than the awesome BOSS 290. This high-tech, state-of-the-art engine, hand-assembled by the team at Ford Performance Vehicles, features sequential multi-point electronic fuel injection and pumps out an astonishing 290kW of power and 520Nm of torque at 4750rpm. It's little wonder so much power needs it's own unique 'bonnet bulge'.

Virtual Pivot Control Link front suspension.
Designed specifically to suit Australian conditions and roads, the Virtual Pivot Control Link front suspension combines precise steering control and maneuverability with excellent levels of comfort.

Monotube shock absorbers.
Improves the vehicle's connection to the road as well as providing better handling.

A range of stylish wheels.
Contemporary designed wheels including the optional 19" XR 5-spoke and 19" G Series 10-spoke alloy wheels.

Performance brakes.
Standard on G6E Turbo, XR6 Turbo and XR8, the larger diameter front brakes feature vented discs and deliver outstanding stopping performance.

Control Blade Independent Rear Suspension (IRS).
One of the most advanced suspension systems on any Australian built car, for greater handling ability and ride comfort.

If you love the type of spirited performance that sends a tingle down the spine, the all new Falcon XR is your dream getaway car. With distinctive muscular looks and its sublime combination of breathtaking power and precise control, the XR range delivers a driving experience that can best be described as 'seriously fun'.

XR

RANGE

From true sports performance to family luxury that lets you getaway in real comfort, the Falcon range offers you so much choice.

The new Falcon really does spoil you for choice. First of all, there is a range of engines and transmissions that deliver true sports performance along with exceptional fuel efficiency, while there are remarkable levels of luxury and comfort right across the range. So whether you happen to be after a truly spirited driving experience, or a vehicle that's perfectly designed for your next family getaway, the Falcon range has just the car you're looking for.

Falcon XT

Falcon XT

- 195kW i6 engine with 5-speed automatic transmission
- Single zone automatic climate control

Personalise your Falcon. The choice is yours.

You'll quickly discover that the Ford Vehicle Personalisation accessory range lets you personalise your Falcon to perfectly suit your needs, whether it's to enhance the look of your Falcon, make your journey more comfortable, entertain the family or accessorise to meet the needs of your active lifestyle. Please visit ford.com.au to view the full range of accessories available for Falcon.

Reverse sensing system. Automatically activates and provides a warning tone to assist the driver to reverse with greater accuracy.

XR waterproof seat covers. Help protect your seat fabric from dirt, sand, liquids and everyday wear and tear with these cleverly designed neoprene covers.

Ski/snowboard carrier.* Lockable with soft rubber padding to help prevent damage to skis. Accommodates up to 5 sets of skis.

Bike carrier.* Sturdy, lockable alloy carrier secures a bike in an upright position.

Garmin Nuvi 760 portable satellite navigation system.* Features a super bright, widescreen display for easy map viewing and a built in FM modulator which allows you to wirelessly transmit audio, including MP3s, phone calls, and audio books through your Falcon's stereo.

Futuris rear headrest DVD system.* This DVD system includes two wireless headphones, and features built in FM modulator and auxiliary input. The viewing angle is also fully adjustable to cater for children of all ages.

Cargo swing net. Keep your belongings in place. Easy to install and remove, it attaches to the sides of the cargo area to help prevent loose items moving around during transit.

Boot scuff guard. Designed to protect your Falcon's rear bumper and boot lip from scratches and scuffs when loading and unloading. Folds neatly away when not in use.

Scuff plates. Enhance the appearance of your Falcon with these stylish alloy scuff plates. Available as a set of two front scuff plates featuring either the Ford® or XR® logo.

Carpet mats† Featuring the Ford®, XR® or G Series® logo, these stylish mats are easy to remove and clean. Anchor points fix the driver's mat to help prevent movement.

18" x 8" XR 5-spoke alloy wheels.

XR luxury pack.

The XR luxury pack lets you experience exciting levels of performance, driving pleasures and true comfort.

When you look over the long list of features, there's a very convincing argument for the XR luxury pack option. Sports leather trim seats and dual zone automatic climate control take comfort to a new level, while features such as the 6-disc in-dash CD player with 8 speakers, 150 watt amplifier and sub-woofer and the 7" colour display make every journey more pleasurable. And the unique 19" x 8" XR 5-spoke alloy wheels are the icing on the cake.

Falcon XR8 shown with optional XR luxury pack.

Making your ownership experience even more rewarding.

A great car is just the beginning. We support you with a wide range of services that aim to make you one of the most satisfied vehicle owners in Australia.

Insurance

Ford offers a full suite of insurance products; designed to make it easier to keep your Falcon on the road. Along with traditional motor vehicle insurance, we also offer various loan and equity protection products to both private and business buyers. Ford Solutions™ insurance products are underwritten by Allianz Australia Insurance Limited.

Considering Finance?

Ford Credit provides a range of finance driven solutions for private, business and fleet customers; making it easier, and more affordable than you may expect, to drive a new Falcon. Having financed more than one million vehicles in Australia since 1971, Ford Credit has the products and experience to meet your needs. For more information, ask at your authorised Ford Dealer or visit us at fordcredit.com.au

Ford Solutions™

The Ford Solutions plans are designed to enhance your vehicle ownership experience. Major benefits for you include optimising vehicle performance and providing peace-of-mind against the cost of repairs. See your participating Ford Dealer for further information on the plans that best suit your needs. Terms, conditions and eligibility criteria apply.

3 year/100,000km new car warranty*!

For three years or 100,000km, whichever comes first, your Ford is covered against any defects in factory materials or workmanship. This also applies to Genuine Ford Accessories you may have had fitted before you took delivery.

5 year warranty against perforation corrosion*!

It's reassuring to know that the original body of your gleaming new Ford is guaranteed against perforation corrosion for the first five years of its life. If perforation corrosion occurs, we'll fix it for free.

Want to contact us?

For answers to your questions, or help with any concern, contact our Customer Relationship Centre on 13 FORD (13 3673).

Running a fleet?

Our Ford Business Centre is available to assist fleet customers with information on Ford products and services. Call 1300 13 13 30.
