CADILLAC

DEVILLE

DTS. WITH 290 HP AND STABILITRAK, IT'S A FEELING OF EXTRAORDINARY CONFIDENCE.

THE UNCOMPROMISED LUXURY OF DHS.

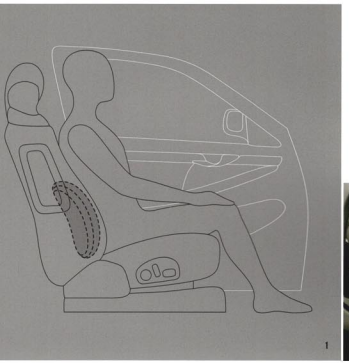

DEVILLE. A SYNONYM FOR POWER, PRESENCE, AND TECHNOLOGY.

DTS

DHS

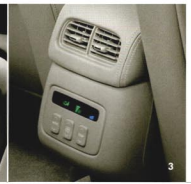

THE TECHNOLOGY AND PRESTIGE OF DEVILLE ARE SYNONYMOUS WITH CADILLAC. DEVILLE EMBODIES IT ALL AS AMERICA'S FAVORITE LARGE LUXURY SEDAN.*

1

2

3

1 Four-way power massaging lumbar seat adjusters for the driver and right-front passenger are standard on DHS and DTS.

2 DeVille's standard AM/FM stereo eight-speaker Bose® premium sound system includes CD, seek-and-scan, digital clock, and TheftLock.

3 Tri-zone climate control allows the driver and front passenger to choose their own temperature range while a third zone puts rear heat and air conditioning in control of those in back.

With OnStar Personal Calling you can obtain important information through OnStar's Virtual Advisor. Have e-mail read to you, or get stock performance reports, updates on local weather, traffic, news, sports, and more—all through voice commands that eliminate unnecessary fumbling for the cell phone, straining to see the numbers you dialed, or keeping only one hand on the wheel. (Prepaid calling charges apply. Available in most markets. OnStar voice recognition system may not work with all voices.) For further information about OnStar, see the Important Words page in the back of this catalog and visit **onstar.com**.

XM SATELLITE RADIO

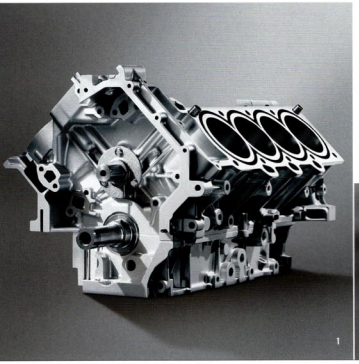

Count on convenience technologies that stand above the commonplace. A sound system featuring XM Satellite Radio is available. It brings you over 120 digital-clear channels.** An eight-speaker AM/FM stereo sound system with CD, digital clock, TheftLock, and steering wheel-mounted controls is standard on DeVille.

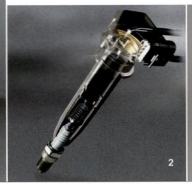

Standard on DHS and DTS is a 225-watt premium Bose® sound system with available six-disc CD changer. An advanced GPS-based DVD navigation system with voice recognition is also available. This navigation technology can route you to most any destination in the continental U.S. Just enter the destination and the system talks you through the trip while a map visually guides you there.† For added luxury, heated and cooled front seats plus heated rear seats (outboard positions) are available as part of a package on DeVille and standard on DTS and DHS. This feature also includes a heated steering wheel. And for a custom-tailored cabin atmosphere, DeVille has tri-zone climate control. For an in-depth understanding of DeVille's features and operations, a thorough review of the Owner's Manual is recommended. But for instant answers to the most commonly asked questions, find out what your new DeVille can do by touching the OnStar button on your rearview mirror. OnStar "Did You Know?" customer information service is available 24/7. For more information, visit onstar.com.

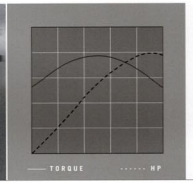

*All competitive comparisons based on GM 2004 model year large luxury segment and the latest information available at the time of printing.
**XM is available only in the 48 contiguous United States. Basic monthly subscription required and sold separately. Visit gm.xmradio.com for more details.
†Limited detailed routing. See your dealer for further information.

THE MOST POWERFUL VEHICLE IN ITS CLASS.

1 The Northstar block is made of a high-strength aluminum alloy that is not only rigid, but saves weight.

2 The Northstar V8's electronic ignition features a separate coil for each spark plug. The resulting "hot" charge produces excellent high-end performance plus clean, efficient combustion.

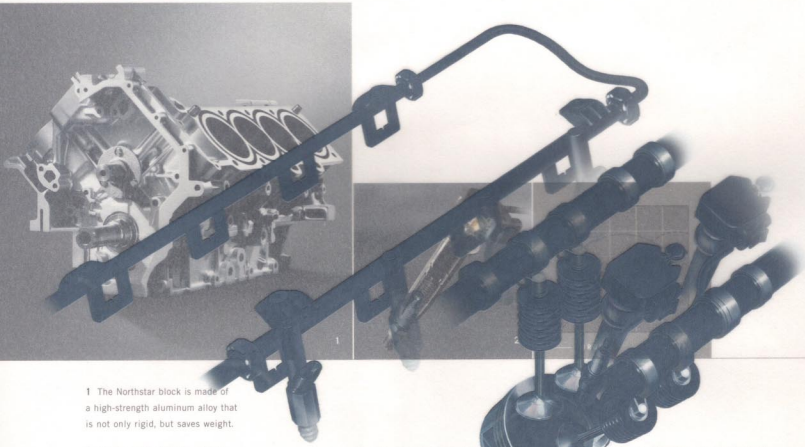

The renowned Northstar V8 is at the heart of every DeVille. In fact, this 32-valve, dual-overhead cam engine has been repeatedly acclaimed as one of the world's great powerplants, and it's what makes DeVille the most powerful vehicle in its class. The 4.6L Northstar V8 NHP in DTS delivers 290 hp and 285 lb-ft of torque; the 4.6L Northstar V8 in DeVille and DHS delivers 275 hp and 300 lb-ft of torque. And although its compression ratio is an impressive 10:1, the Northstar V8 features an electronically controlled ignition to optimize combustion and power. Each cylinder is directly fired by individual coils, eliminating ignition wires and maximizing spark. To keep its four camshafts running in perfect synchronization, the Northstar powerplant relies on an incredibly strong chain drive—not a belt. The engine's 90-degree V block, skirt, and cylinder heads are made of high-strength aluminum alloy. Northstar's crankshaft is dynamically balanced (a V8 engineering advance pioneered by Cadillac in 1923), and its anodized aluminum pistons help reduce reciprocating mass, encouraging high rpm operation. A port fuel-injection system adds exactly the right measure of fuel at exactly the right instant. Finally, centrally located platinum-tipped spark plugs ignite the mixture, and exhaust gases are ushered out of each cylinder by two large exhaust valves.

The 4.6L Northstar V8 features an advanced combustion chamber design with four valves per cylinder. The dual overhead camshafts are roller-chain driven for durable operation at high rpm.

The normally aspirated engine employs sophisticated features to generate high horsepower and torque output. These include a center-feed intake manifold, sequential port fuel injection, and coil-over-plug electronic ignition.

Coupled with state-of-the-art electronics, direct mounting of all engine-driven accessories makes for smooth, quiet operation.

1 In DTS, Continuously Variable Road-Sensing Suspension tailors the vehicle's ride to suit the road or the way you drive. You feel an extraordinary sense of poise and control.

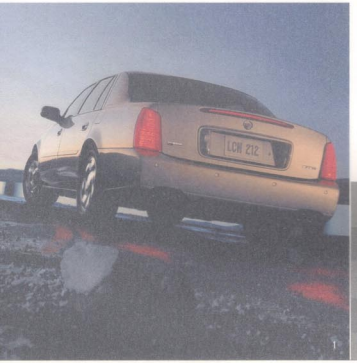

2 StabiliTrak compares the car's response to steering input, and if it senses the beginning of a skid or slide, if necessary, it applies a quick, precise force to the appropriate brake. This helps you stay on course. See a demonstration at cadillac.com.

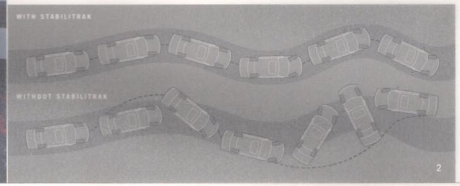

Every luxury car in the world must deal with less than perfect roads and unexpected situations. DeVille does this with innovative technologies. It begins with a four-wheel independent suspension that includes control arms made of an aircraft-type aluminum that is both strong and light to reduce unsprung weight. The suspension system also features variable-rate springs that stiffen as they compress, variable-effort rack-and-pinion steering for precise control, and all-speed traction control. In DTS, Continuously Variable Road-Sensing Suspension adjusts the vehicle's ride to the road it is on, the speed it is traveling, and the manner in which it is being driven. From behind the wheel, the result is an extraordinary sense of poise and control. And when adverse circumstances present themselves, StabiliTrak enhances your confidence even more. It is standard on DTS and available as part of the Safety & Security Package on DeVille and DHS.

DeVille's four-wheel independent suspension includes control arms made of an aircraft-type aluminum that is both strong and light to reduce unsprung weight, which helps optimize handling.

Variable-rate springs are formed from a special steel alloy that allows the springs to stiffen as they compress. This progressive reaction to impacts helps enhance ride and provide a sense of confident control.

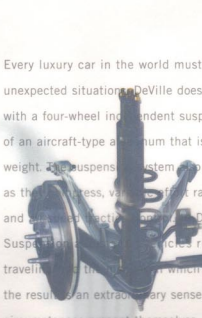

INNOVATIVE TECHNOLOGIES THAT UNDERLIE SKIN DEEP STYLE.

THE INCREDIBLE TECHNOLOGY OF NIGHT VISION.

Night Vision is available in all 2005 DeVille models. This advanced system uses infrared sensing technology to give you extra warning of what's ahead—much farther than your low-beam headlamps can reach. A camera-like sensor in the grille reads the heat signature of things ahead and turns it to video. The image is then projected onto your windshield via a Head-Up Display (like the Simulated Night Vision Image on this page). What you see appears to float above your hood, a little left of center. This image soon becomes a natural checkpoint at night, like the rearview mirror. Result: You have even more opportunity to see danger ahead, before it becomes trouble. For a demonstration of Night Vision, visit cadillac.com.

YOUR PERSONAL SAFETY IS AN ENGINEERING PRIORITY IN DEVILLE.

1

2

1 Ultrasonic Rear Parking Assist: When backing up at less than three mph, ultrasonic sensors integrated within the rear bumper can detect the presence of certain stationary objects behind you.

2 In an emergency, press the OnStar emergency button on your rearview mirror and a trained OnStar Advisor will contact nearby emergency service providers; or if your vehicle's air bags deploy, OnStar will attempt to contact you in your vehicle and can contact emergency help.

A NOTE ON CHILD SAFETY:
Always use safety belts and proper child restraints, even in vehicles with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

When DeVille's highly discerning sensors detect a significant front or side impact, they deploy the appropriate frontal or side-impact air bags for the driver and right-front passenger. Side-impact air bags for the rear outboard seats are available. They inflate to help protect occupants in moderate to severe lateral impact situations.* Deeper inside DeVille, the very structure of the vehicle integrates safety. Crush zones in the front and rear are designed to absorb impact forces, and a strong internal safety cage resists them to help protect the passenger compartment. To bolster this integrity, a strong magnesium bar bridges the body from left to right, just behind the engine compartment. And two hydroformed steel beams run along the roof from the front fenders to the rear deck.

When you back up at less than three mph, available Ultrasonic Rear Parking Assist warns of certain stationary objects in your path. Sensors in the rear bumper trigger audio and visual systems that tell you how close you are to the object in your path. Standard one-year OnStar Directions & Connections® Plan also adds its measure of peace of mind. Touch a button and a friendly voice brings you routing directions, roadside assistance, remote door unlocking, emergency medical services, and more. OnStar can even help authorities locate your DeVille if it's ever stolen. See the Important Words page at the back of this catalog and visit onstar.com for additional OnStar information.

*Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained.

IMPORTANT WORDS ABOUT THE CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models, and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing (6/04), please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process.

Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or start and end model years at different times.

Note: Some photographs in this catalog show vehicles with optional equipment.

ONSTAR OnStar services require vehicle electrical system and wireless service to be available and operating for features to function properly. OnStar relies on emergency service providers as well as wireless and satellite technologies and is subject to their limitations. The U.S. Federal Communications Commission (FCC) ruled that wireless carriers will no longer be required to support the analog wireless network after February 16, 2008. As of January 1, 2008, OnStar plans to offer service only through equipment that operates on the digital network, which may require the purchase of a system upgrade. Call 1 888 4ONSTAR (1 888 466 7827), see your OnStar Owner's Guide, or visit onstar.com for system information and details.

ENGINES Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models. The 275-horsepower Northstar V8 engine in DeVille and DHS is no longer used exclusively in Cadillac vehicles. It is also used in other GM makes and models.

ASSEMBLY DeVille and its components are assembled and produced by different operating units of General Motors, its subsidiaries, or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

UPDATED SERVICE INFORMATION Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1 800 551 4123 or by visiting www.helminc.com.

NEW-VEHICLE LIMITED WARRANTY This warranty is for GM vehicles registered in the U.S.A. See your Cadillac dealer for terms and conditions.

Covered for 4 years/50,000 miles (whichever comes first):
- The complete vehicle
- Tires
- Towing to your nearest Cadillac dealership
- Cosmetic corrosion resulting from defects
- Repairs made to correct any vehicle defect
- No charge for most warranty repairs

Covered for 6 years:
- Rust-through corrosion

CORROSION PROTECTION Cadillac vehicles are designed and built to resist corrosion. All body and sheet metal components are warranted against rust-through corrosion for six years. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

SAFETY AND SECURITY The following are just some of the standard features on all 2005 DeVille models unless otherwise noted:

OCCUPANT PROTECTION
- Air bag, dual-level driver & front passenger
- Air bag, side-impact, driver & right-front passenger
- Adjustable front shoulder belt guides
- Adjustable rear shoulder belt guides (outboard)
- Center rear lap & shoulder belt
- Safety belt cinch capability for child seats
- LATCH system for child restraints
- Automatic door locks
- Child security rear door locks
- Power window lockout
- Emergency trunk release handle

SECURITY
- Anti-lockout feature
- Audible theft-deterrent system
- Battery rundown protection
- Laser-etched VIN plate
- PASS-Key theft deterrent
- Remote deck lid release
- Remote hood release
- Remote keyless entry
- Stolen vehicle tracking/emergency communications (requires OnStar activation)

CRASH AVOIDANCE
- Anti-lock brakes, front and rear
- Brake/transmission shift interlock
- Disc brakes, front and rear with audible wear indicator
- Battery, maintenance-free
- Traction control
- Tires with built-in tread wear indicators
- Tire pressure monitor
- Automatic daytime running lamps
- Automatic exterior lamp control
- Cornering lamps
- Door warning lamps or reflectors
- Halogen headlamps
- Inside electrochromic rearview mirror
- Outside power rearview mirrors, heated
- Rear window defogger
- Side window defogger, front
- Tinted-glass windshield
- Wiper-activated exterior lamps
- Steering wheel controls

CADILLAC OWNER PRIVILEGES

By driving a DeVille, you're part of a select group that deserves special privileges. These include 24-hour roadside service (1 800 882 1112) and trip interruption protection. Free roadside services include: jump-starts, towing, lockouts, fuel delivery (fuel charges extra), and flat tire changes. Trip interruption protection can reimburse you for expenses incurred as a result of a warranted repair that interrupts your travel. Alternate transportation is also available whenever your vehicle is in for warranted repairs. You can also rely on the GM bumper-to-bumper limited warranty. All this coverage is in effect for the first 48 months or 50,000 miles of ownership, whichever comes first. See your dealer for complete details, terms, and conditions of these programs and the GM limited warranty. Another complimentary service for Cadillac owners is the Cadillac Center at My GMLink, a one-stop resource to enhance your Cadillac ownership experience. Exclusive member benefits include online service reminders, vehicle maintenance tips, online Owner's Manual, special privileges, and more. Sign up today at mygmlink.com.
