

Solterra | 2027

Powered by love.

The 2027 Subaru Solterra proves you don't have to choose between going electric and going anywhere. Go the distance with up to 288 miles of range,[1] standard legendary Symmetrical All-Wheel Drive, and 8.3 inches of ground clearance. Plus, you can charge from 10% to 80% in about 28 minutes[2] with battery preconditioning that helps optimize fast charging.

All electric. Unmistakably Subaru.

Solterra Touring XT with Black & Blue Leather.

Premium

Information current at time of printing.

1 EPA-estimated range on a full battery charge. Actual range will vary with driving conditions, weather, and your vehicle's condition. 2 Manufacturer estimate for 10%-80% charge. Charge time varies based on vehicle level of charge, charging rate, ambient temperature, and many other factors. 3 Eyesight® Driver Assist Technologies may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving. System effectiveness depends on many factors such as vehicle maintenance, weather, and road conditions. See Owner's Manual for complete details on system operation and limitations. 4 Blind-Spot Monitor and Front and Rear Cross-Traffic Alert are systems designed to assist the driver by monitoring the front, rear, and side areas of the vehicle to detect potential hazards that may not be visible from the driver's position and are not a substitute for safe and attentive driving. 5 Digital Key requires activation and an active trial or subscription. Feature availability and functionality may vary by trim level, device, connectivity, and other factors. See your Owner's Manual and Subaru retailer for details. 6 Premium paint at additional cost. See your Subaru retailer for details.
